Sé imparable Alden Mills, 2018-05-22 ¡Más de 25.000 ejemplares vendidos en tres idiomas! La historia de Alden Mills te volverá a ti también imparable Cuando Alden Mills era capitán de pelotón de los Navy SEAL, le pidieron que escribiera una carta a sus cuatro hijos por si alguna vez no volvía de una misión. Esta es la historia que ideó para ellos en la que, lejos de

caer en la melancolía, les quiso enseñar cómo podían perseguir cualquier sueño. La historia de un joven capitán de barco llamado Tim, que ha de enfrentarse por primera vez a los obstáculos de una ruta desconocida ante las miradas del resto de marinos de su localidad portuaria, que le dan ya por fracasado. A él, la tarea se le antoja imposible hasta que aparece en su vida un experimentado patrón, que le enseñará un método para afrontar cualquier objetivo, por difícil que sea. En su juventud, Alden Mills superó el asma para convertirse en campeón de remo. Luego decidió aspirar a entrar en el cuerpo de élite de los Navy SEAL y también lo logró. Después fundó una empresa de fitness y la llevó hasta el éxito. Hoy es un reconocido speaker, que recorre Estados Unidos enseñando cómo formar equipos. En *Sé imparables* nos relata su apasionante biografía, pero sobre todo la inspiradora historia de Tim, con la que descubriremos el poder de la persistencia y la perseverancia. Alden Mills, a través de sus propias experiencias autobiográficas como Navy SEAL y emprendedor, nos presenta así un método basado en la persistencia, el esfuerzo continuado y la creencia en el poder de uno mismo: Aquí están las lecciones que quieres que tus hijos aprendan y las herramientas y fundamentos para su realización personal (Luka Erceg, fundador de *Symbol Materials*) La mala noticia es que este libro no existía cuando yo era jugador de fútbol americano. La buena es que ahora sí, y va a ser una lectura obligada para mis tres hijos. Cualquiera que pretenda vivir la vida al máximo no tiene más que acudir a *Sé imparables* (Damon Huard, quarterback de

la NFL y ganador de dos Superbowl)

The Western Mediterranean and the World Teofilo F. Ruiz, 2017-09-12 From the Straits of Gibraltar to Sicily, the European northern Mediterranean nations to the shores of North Africa, the western Mediterranean is a unique cultural and sociopolitical entity which has had a singular role in shaping today's global society. The Western Mediterranean and the World is the fascinating story of the rise of that peculiar world and of its evolution from the end of the Western Roman Empire to the present. Uniquely, rather than present the history of the region as a strict chronological progression, the author takes a thematic approach, telling his story through a series of vignettes, case studies, and original accounts so as to provide a more immediate sense of what life in and around the Mediterranean was like from the end of the Roman Empire in the West to the present immigration crisis now unfolding in Mediterranean waters. Emphasizing the development of religion and language and the enduring synergies and struggles between Christian, Jews, and Muslims on both shores of the western sea, Dr. Ruiz connects the region to the larger world and locates the development of Mediterranean societies within a global context. Describes the move from religious and linguistic unity under Roman rule to the fragmented cultural landscape of today Explores the relationship of language, culture, and geography, focusing on the role of language formation and linguistic identity in the emergence of national communities Traces the movements of peoples across regions and their encounters with

new geographical, cultural, and political realities Addresses the emergence of various political identities and how they developed into set patterns of political organization Emphasizes the theme of encounters as seen from Christian, Muslim, and Jewish perspectives While it is sure to become a definitive text for university courses on Mediterranean history, The Western Mediterranean and the World will also have great appeal among scholars of the Mediterranean as well as general readers of history.

Building Strip-Planked Boats Nick

Schade,2008-11-14 The first comprehensive book on stripbuilding almost any type of small boat Strip-planking is a popular method of amateur boat construction, but until now there has never been a book that showed how to use it for more than one type of boat. Author Nick Schade presents complete plans for three boats of different types (canoe, kayak, and a dinghy) and shows you step-by-step how to build them. Written for all amateur builders, the book covers materials, tools, and safety issues.

How Not to Build a Boat Jill Dickin

Schinas,2013-03-01 When their old GRP yacht was devastated by a Southern Ocean storm, Jill Schinas and her husband, Nick, resolved to build something stronger. Gaily, - and without having researched the matter to the least degree -they threw themselves into the work of designing and constructing the ultimate, ocean-proof, eco-friendly, dream cruising yacht. On their side they had a wealth of sailing experience, which provided a perfect knowledge of what was required, but

their only other weapons were irrepressible enthusiasm and the mindset which enables a man to build a radio from a potato or a mast from a lamppost. Had this been a business enterprise no bank would ever have lent the capital, for ranged against the dreamers was a whole battery of forces any one of which would have deterred more realistic people. For a start, neither Jill or Nick had any experience with a welder - and yet they were proposing to build a steel boat. Secondly, they seemed only to have enough money to buy a couple of masts and the sails. Worst of all, they had two kids and a new baby in tow - and no one with a young family ought to attempt anything more ambitious than the washing up. Regardless of these drawbacks, Nick and Jill went ahead. It'll only take a year and a half, said he, confidently. Fifteen years down the line, Mollymawk is afloat and the family have cruised all over the Atlantic; but the boat is still not finished. This is the tale of what went wrong and what went right. Packed full of advice about such things as ocean-worthy design and sail plans, it will also tell you how to operate a cutting torch, how to avoid a leaky stern-gland, how to pour your own rigging sockets, how to handle a ferocious gander, how to sandblast, how to weld in mid-Atlantic, how to amuse three young children in a cabin space the size of a phone booth... and much, much more besides.

Living Languages: An Integrated Approach to Teaching Foreign Languages in Secondary Schools
Catherine Watts, Clare Forder, 2013-06-17 Living Languages is simply bursting with practical and original ideas aimed at teachers and trainee teachers of foreign languages in secondary schools. Written by a team of experienced linguists, this book will inspire and motivate the foreign language classroom and the teachers who work within it. Living Languages comprises eight chapters and is structured around the integrated classroom, merging language learning with different aspects of the wider curriculum such as multimedia, theatre and music, celebrations and festivals, sport, and alternative approaches to teaching languages. A DVD is also included with the book containing additional teaching materials and the associated films and audio recordings which make this a fully developed and effective teaching resource. Twenty-eight real-life case studies and projects are presented, all of which have been tried and tested in the classroom with many having won recent educational awards. Ideas and activities outlined in this unique resource include: Languages and multi-media projects

involving different uses of technology such as film-making, Digital Storytelling and subtitling in different languages; Languages and theatre and music including the work of the Théâtre Sans Frontières with its Marie Curie Science Project; Motivating pupils to learn languages whilst keeping fit including examples from Score in French, The German Orienteering Festival and Handball in Spanish; Continuing Professional Development to inspire secondary language teachers to continue their individual professional development. The chapter contains concrete examples of others' experiences in this area and includes details of support organisations and practical opportunities. Each project is explored from the teachers' perspective with practical tips, lesson plans and reflections woven throughout the text such as what to budget, how to organise the pre-event period, how to evaluate the activity and whom to contact for further advice in each case.
