*Proportional Liability: Analytical and Comparative Perspectives* Israel Gilead,Michael D. Green,Bernhard A. Koch,2013-10-14 Causal uncertainty is a widespread phenomenon. Courts are often unable to determine whether a defendant's tortious conduct was a factual cause of a plaintiff's harm. Yet, sometimes courts can determine the probability that the defendant caused the plaintiff's harm, although often there is considerable variance in the probability estimate based on the available evidence. The conventional way to cope with this uncertainty has been to apply the evidentiary rule of 'standard of proof'. The application of this 'all or nothing' rule can lead to unfairness by absolving defendants who acted tortiously and may also create undesirable incentives that result in greater wrongful conduct and injustice to victims. Some courts have decided that this 'no-liability' outcome is undesirable. They have adopted rules of proportional liability that compensate plaintiffs according to the probability that their harm was caused by the defendant's tortious conduct. In 2005 the Principles of European Tort Law (PETL) made a breakthrough in this regard by embracing rules of proportional liability. This project, building on PETL, endeavours to make further inquiries into the desirable scope of proportional liability and to offer a more detailed view of its meaning, implications, and ramifications.

**Home Theater e Casa Digital Ed. 329** Event Editora,2023-11-13 Leitores mais "veteranos" hão de se lembrar: "o verdadeiro cinema em casa" era o slogan da nossa HOME THEATER nos seus primeiros anos de caminhada. Como o termo home theater ainda era pouco conhecido, achamos na época que seria importante traduzir para os leitores esse conceito inventado pelos americanos. Pois bem, quase três décadas e várias revoluções tecnológicas depois, não é que a analogia faz todo sentido? Algumas residências atuais possuem telas maiores que as dos poucos cinemas de suas cidades – aqueles que sobreviveram aos shopping centers. Aqui mesmo em São Paulo já assisti filmes em salas para 40 pessoas com telas de 80”...

**Service Contracts** Maurits Barendrecht,J. M. Barendrecht,2007 The Study Group on a European Civil Code has taken upon itself the task of drafting common European principles for the most important aspects of the law of obligations and for certain parts of the law of property in movables which are especially relevant for the functioning of the common market. Like the Commission on European Contract Law's Principles of European Contract Law, the results of the research conducted by the Study Group on a European Civil Code seek to advance the process of Europeanisation of private law. Among other topics the series tackles sales and service contracts, distribution contracts and security rights, renting contracts and loan agreements, negotiorum gestio, delicts and unjustified enrichment law, transfer of property, and trust law. The principles furnish each of the national jurisdictions a grid reference. They can be agreed upon by the parties within the framework of the rules of private international law. They may provide a stimulus to both the national and European legislator for moulding private law. Beyond this, they aim to further discussion about the creation of a European Civil Code, or a Common Frame of Reference in the area of patrimonial law, by submitting a concrete model. The Principles of European Law are published in co-operation with Stämpfli, Bern (Switzerland). For other co-operation-partners and for more information see [www.sellier.de](http://www.sellier.de).

**Personality Rights in European Tort Law** Gert Brüggemeier,Aurelia Colombi Ciacchi,Patrick O'Callaghan,2010-04-15 This volume provides a comprehensive analysis of civil liability for invasion of personality interests in Europe. It is the final product of the collaboration of twenty-seven scholars and includes case studies of fourteen European jurisdictions, as well as an introductory chapter written from a US perspective. The case studies focus in particular on the legal protection of honour and reputation, privacy, self-determination and image. This volume aims to detect hidden similarities (the 'common core') in the actual legal treatment accorded by different European countries to personal interests which in some of these countries qualify as 'personality rights', and also to

detect hidden disparities in the 'law in action' of countries whose 'law in the books' seem to protect one and the same personality interest in the same way.
