Le livre des montres Gisbert L. Brunner,Christian Pfeiffer-Belli,2015 Few objects combine function, elegance, and status as well as a wristwatch. One's choice of chronograph reveals a great deal because it shows the value we place on the most precious resource of all-time. A blend of precise mechanics, craftsmanship, fine materials, and innovation distinguishes the truly superlative examples. In *The Watch Book*, readers can feast their eyes and minds on a magnificently-illustrated and well-documented chronicle of the world's best timepieces. First, we're treated to a brief discussion of the meaning of time and its measurement by ticking sets of gears and hands. Next we delve into more than 18 premium manufacturers, including Patek Philippe, Rolex, and Cartier. These biographies of the most important names in top-end timekeeping trace the progressive development from their earliest days right up to the latest innovations and current models. We explore just what makes these houses outstanding, learning about the remarkable breakthroughs that established them as the *crème de la crème* of the European watch industry. Text in English, German and French.

Retro Watches Josh Sims,Mitch Greenblatt,2020-06-23 A popular collector's guide to discovering the world of unusual, rare, and dazzlingly retro watches. What you wear on your wrist can be more than merely functional. Eschewing the common categories of the "classics," the ostentatiously high-priced, and the "blingy," this book brings together individualist pieces that few have seen and even fewer own. *Retro Watches* is a collector's guide for those who want to make a statement with the watch they wear, but who are looking for something a little different. It collects the most intriguing, visually striking, and out-there watch designs from little-known but influential watch brands, along with overlooked but brilliant pieces from the major players. Over one hundred watch models are featured, specially photographed for the book and accompanied by accessible, informative texts discussing the watch's design, history, and intriguing features, as well as info panels detailing rarity, value, and other key attributes. Additional breakout spreads dive into the cultural and fashion history of watch design and the many innovations of the '60s, '70s, and '80s. Beautifully presented, *Retro Watches* is the volume for the watch wearer who wants to stand out from the crowd.

L'art de connaître & soigner les montres & pendules Junius Gondy,2019 Les ouvrages destinés aux horlogers sont trop techniques pour les personnes étrangères à cet art, qui désirent cependant en savoir quelque chose. Me souvenant de cette parole de Condillac que les termes techniques ne sont utiles qu'autant qu'ils sont absolument nécessaires, je me suis employé à écrire un livre clair et pratique, destiné aux personnes qui n'y connaissent rien. Cet ouvrage très explicite sur le fonctionnement et l'entretien des montres et des pendules, décrit les progrès mécaniques successifs de la mesure du temps, depuis la montre primitive. Très illustré, ce livre pratique et théorique, explique cet univers mécanique de grande précision de façon approfondie, avec des détails techniques tout à fait compréhensibles tant par un lecteur novice qu'avancé. Junius Gondy, horloger-fabriqueur de la fin du XIXe siècle à Besançon, a réalisé de véritables oeuvres d'art, notamment des montres à gousset, encore très prisées de nos jours. (4e de couverture)

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Montres Fabienne Reybaud,2006-05-22 Depuis les années 1990, les montres sont passées d'un statut essentiellement fonctionnel à celui d'objet de désir. Multiplication des marques, des collections, créations de mouvements de plus en plus compliqués ont engendré une surenchère horlogère qui déroute le grand public et rend de plus en plus difficile le choix des amateurs. Conçu pour aider le néophyte et l'amateur, cet ouvrage propose une présentation claire de l'offre des grandes marques contemporaines. Un glossaire efficace, des avis d'expert et un tableau des cotes actuelles complètent ce guide incontournable, réalisé par une spécialiste de l'horlogerie.
