[☞ \*\*THE WORLD ATLAS OF COFFEE\*\*](#) JAMES HOFFMANN,2018-10-04 The worldwide bestseller - 1/3 million copies sold 'With his expert guidance we travel around the globe, from Burundi to Honduras via Vietnam, sipping and spitting as we go. This is high geekery made palatable by the evident love pulsing through every sentence.' - The Guardian 'The subject of coffee has never been more, er, hot, and The World Atlas of Coffee takes a close look at its history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, The Telegraph For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

[☞ \*\*READ THIS BEFORE BUYING A COFFEE MAKER\*\*](#) OMER DEMIR,2019-12-16 Buying a coffee maker is a painful process, and believe me, not an easy one, especially if you don't know what you need. There are lots of types of coffee makers and grinders, and they have lots of specifications. Some specifications are similar but named differently due to the patent of the technology used. I've helped thousands of people to guide them to find the right coffee maker and grinder that fits their needs. Most of the annoying issues appear while using. Because you never thought these scenarios would happen before buying your coffee maker. Let me give you an example. Most people don't care about the water tank removability option on espresso or filter coffee machines. If you plan to put your coffee maker on a kitchen countertop and there is a kitchen cabinet on top of it unremovable tank might be a problem for you. You need to pull the coffee maker every time to pour water into it. This is called experience, and I am sharing lots of real-life experiences with you in this book. Starting with Moka Pot, PourOver, French Press, Chemex, v60, and continue with manual, semi-automatic, and fully automatic espresso makers, filter coffee machines, grinders, and Turkish coffee. I believe you will learn lots of things when you finished the book.

[☞ \*\*GOD IN A CUP\*\*](#) MICHAEL WEISSMAN,2011-06-01 Follow the ultimate coffee geeks on their worldwide hunt for the best beans. Can a cup of coffee reveal the face of God? Can it become the holy grail of modern-day knights errant who brave hardship and peril in a relentless quest for perfection? Can it change the world? These questions are not rhetorical. When highly prized coffee beans sell at auction for \$50, \$100, or \$150 a pound wholesale (and potentially twice that at retail), anything can happen. In God in a Cup, journalist and late-blooming adventurer Michael Weissman treks into an exotic and paradoxical realm of specialty coffee where the successful traveler must be part passionate coffee connoisseur, part ambitious entrepreneur, part activist, and part Indiana Jones. Her guides on the journey are the nation's most heralded coffee business hotshots: Counter Culture's Peter Giuliano, Intelligentsia's Geoff Watts, and Stumptown's Duane Sorenson. With their obsessive standards and fiercely competitive baristas, these roasters are creating a new culture of coffee connoisseurship in America—a culture in which \$10 lattes are both a purist's pleasure and a way to improve the lives of third-world farmers. If you love a good cup of coffee—or a great adventure
