Great Scientific Experiments Rom Harré, 2013-01-17 Vivid, readable, accurate tales of landmark inquiries include Aristotle's work on embryology of the chick, Galileo's discovery of the law of descent, Newton's experiment on nature of colors, more.

Sleeping Dragons Magela Baudoin, 2018 Baudoin's beguiling portrayals of day-to-day lives belie the unsettling feeling of things unseen and unsaid, and on the verge of falling apart. In the title story, a pregnant woman on an eco-adventure to escape a recent break-up finds herself heading towards an even murkier future. In *Mengele in Love*, a chambermaid in a hotel reminisces about her lost love for a previous resident. As Alberto Manguel observes in his introduction each story takes a situation to unexpected extremes, and the endings are always surprising and subtly justified.

Music as Social Life Thomas Turino, 2008-10-15 In 'Music as Social Life', Thomas Turino explores why it is that music and dance are so often at the centre of our most profound personal and social experiences.

Juan de la Rosa Nataniel Aguirre, 1999-04-29 Long considered a classic in Bolivia, Juan de la Rosa tells the story of a young boy's coming of age during the violent and tumultuous years of Bolivia's struggle for independence. Indeed, in this remarkable novel, Juan's search for his personal identity functions as an allegory of Bolivia's search for its identity as a nation. Set in the early 1800s, the novel is narrated by one of the last surviving Bolivian rebels, octogenarian Juan de la Rosa. Juan recreates his childhood in the rebellious town of Cochabamba, and with it a large cast of full-bodied, Dickensian characters both heroic and malevolent. The larger cultural dislocations brought about by Bolivia's political upheaval are echoed in those experienced by Juan, whose mother's untimely death sets off a chain of unpredictable events that propel him into the fiery crucible of the South American Independence Movement. Outraged by Juan's outspokenness against Spanish rule and his awakening political consciousness, his loyalist guardians banish him to the countryside, where he witnesses firsthand the Spaniards' violent repression and rebels' valiant resistance that crystallize both his personal destiny and that of his country. In Sergio Gabriel Waisman's fluid translation, English readers have access to Juan de la Rosa for the very first time.

Popular Musics of the Non-Western World Peter Manuel, 1988 Emphasizing stylistic analysis and historical development, this unique book is the first to examine all major non-Western music styles, from reggae and salsa to the popular musics of non-Western Europe, Asia, Africa, and the Middle East.

Music in the Andes Thomas Turino, 2008 *Music in the Andes* is one of the first books to offer a comprehensive overview of the uniquely rich and diverse musical crossroads of southern Peru and Bolivia. It explores the ways in which modern styles meet and interact with older, indigenous music to create a continuously evolving musical heritage. The book examines the major contemporary indigenous, mestizo, and urban musical traditions of the region through a series of case studies. Throughout the book, author Thomas Turino underscores the dynamic interplay between musical/cultural continuity and innovation. He also emphasizes the exceptional communicative potential of music, dance, and festivals to express ethnic, class, regional, national, and gendered identities. In addition, he considers the ethical and stylistic differences between participatory and presentational modes of making music.

Comparative Musicology and Anthropology of Music Bruno Nettl, Philip V. Bohlman, 1991-03-26 Non-Aboriginal; based on papers presented at Ideas, Concepts and

Personalities in the History of Ethnomusicology conference, Urbana, Illinois, April 1988.

On Humour Simon Critchley, 2011-08-26 Does humour make us human, or do the cats and dogs laugh along with us? *On Humour* is a fascinating, beautifully written and funny book on what humour can tell us about being human. Simon Critchley skilfully probes some of the most perennial but least understood aspects of humour, such as our tendency to laugh at animals and our bodies, why we mock death with comedy and why we think it's funny when people act like machines. He also looks at the darker side of humour, as rife in sexism and racism and argues that it is important for reminding us of people we would rather not be.

Approaches to Meaning in Music Byron Alm n, Edward Pearsall, 2006-11-01 *Approaches to Meaning in Music* presents a survey of the problems and issues inherent in pursuing meaning and signification in music, and attempts to rectify the conundrums that have plagued philosophers, artists, and theorists since the time of Pythagoras. This collection brings together essays that reflect a variety of diverse perspectives on approaches to musical meaning. Established music theorists and musicologists cover topics including musical aspect and temporality, collage, borrowing and association, musical symbols and creative mythopoesis, the articulation of silence, the mutual interaction of cultural and music-artistic phenomena, and the analysis of gesture. Contributors are Byron Alm n, J. Peter Burkholder, Nicholas Cook, Robert S. Hatten, Patrick McCreless, Jann Pasler, and Edward Pearsall.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Music in German Immigrant Theater John Koegel, 2009 A history -- the first ever -- of the abundant traditions of German-American musical theater in New York, and a treasure trove of songs and information.

The Coffee Industry in Colombia Mary L. Bynum, 1931

Maestro, 2010 The tale of young Hannah, who loves above all else to sing. What worse curse could have been visited upon her than this: she has been sent to live with her aunt and uncle in a sorrowful town where music itself is banned from its grim and cobbled streets. What woe has befallen this town? Why are there no children? Why are there no rats? Hannah will discover the answers to these dread questions in the wilderness wastes, under a mountain. There she discovers a secret orchestra, held captive by an ancient conductor, who remembers his glorious youth - when no-one could resist the beauty he could make with his flute. Could our Hannah be the bridge between two ancient enemies? Might the ghosts of the rats come to her aid? And, most importantly, will she sing once again?

Performing Antagonism Tony Fisher, Eve Katsouraki, 2018-07-12 This book combines performance analysis with contemporary political philosophy to advance new ways of understanding both political performance and the performativity of the politics of the

street. Our times are pre-eminently political times and have drawn radical responses from many theatre and performance practitioners. However, a decade of conflict in the Middle East and Afghanistan, the eruption of new social movements around the world, the growth of anti-capitalist and anti-globalisation struggles, the upsurge of protests against the blockades of neoliberalism, and the rising tide of dissent and anger against corporate power, with its exorbitant social costs, have left theatre and performance scholarship confronting something of a dilemma: how to theorize the political antagonisms of our day? Drawing on the resources of 'post-Marxist' political thinkers such as Chantal Mouffe and Jacques Rancière, the book explores how new theoretical horizons have been made available for performance analysis.

To Defend Ourselves Billie Jean Isbell, 1985 Extensive anthropological study of the contemporary Indian culture of highland Peru.

Perspectives in Musicology Barry S. Brook, Edward O.D. Downes, 1985
