**Missing Pieces** Kenneth Zola,2022-03-14 The personal odyssey of a man with a disability, this passionate book tries to tell as well as analyze what it is like to have a disability in a world that values vigor and health. Zola writes, *Missing Pieces* is an unraveling of a social problem in the manner of *Black Like Me*. Like its author, I, too, am a trained social observer, but for me 'passing' was not an issue. For I already have the stigmata of the disabled--the braces, the limp, the cane--though I have spent much of my life denying their existence. The author started out in the role of a social scientist on a seven-day excursion to acquaint himself with an extraordinary experiment in living--Het Dorp, one of the few places in the world designed to promote the optimum happiness of those with severe physical disabilities. Neither a medial center nor a nursing home, Het Dorp is a village in the western-most part of the Netherlands. What began as a sociological attempt to describe this unusual setting became, through the author's growing awareness, what can only be called a socio-autobiography. Resuming his prior dependence on a wheelchair, the author experienced his own transformation from someone who is normal and valid to someone who is invalid. The routine of Het Dorp became his: he lived in an architecturally modified home, visited the workshops, and shared meals, social events, conversation, and perceptions with the remarkably diverse residents. The author confronts some rarely discussed issues--the self-image of a person with a chronic disability, how one fills one's time, how one deals with authority and dependence, and love and sex. *Missing Pieces* offers striking insights into an aspect of the human condition shared by nearly 30 million Americans. It is must-read for the general reader, as well as for the rehabilitation counselor, social worker, or social scientist.

*Rethinking Disability* Patrick Devlieger,2003 This book provides an interdisciplinary approach to the challenges of the interface between disability & culture. **Disabilities and the Life Course** Heather E. Dillaway,Carrie L. Shandra,Alexis A. Bender,2023-07-31 Featuring a framework rarely applied in the field of disability studies, this book explores not only a range of disabilities and impairments but also a diverse array of life course experiences, deepening knowledge across both fields for the widest possible impact.

*Our Life Our Way* William L. Rush,2019-10-29 *Our Life Our Way, A Memoir of Active Faith, Profound Love, and Courageous Disability Rights* explores an extraordinary love story grown out of engagement with both disability rights advocacy and Christian faith communities. This important memoir contains thoughtful, often-entertaining, and sometimes heart-wrenching anecdotes of a couple's journey to create their profoundly intimate relationship and Christian marriage, in a world not yet ready for them. William Rush and Christine Robinson's timely meeting, when the United States was close to granting civil rights to all Americans with disabilities, sets the stages for their intensely human and difficult journey of breaking down many societal and systemic barriers to full participation

in the larger society. How will the couple deal with the local KKK grand dragon who is threatening William, an outspoken person with a significant disability? How will they respond to posturing state politicians using persons with disabilities as bargaining chips with potentially dire consequences? How will they react to well-meaning but not always well-informed government officials pushing quick fixes? Against such opposition, can they create their own life, supported by their local disability rights and Christian faith communities? Girded by a local Christian congregation's willingness to engage with this nontraditional couple, their faith is tested and grows stronger through much adversity. Faith-filled acts of mercy and grace and active and meaningful participation provide restoration on their arduous journey. Deepening their relationship with God results in a desire for a Christian marriage. Through a series of vignettes, several deeply human themes are explored: developing enduring relationships, standing up for one's rights and advocating for one's needs, and what it means to growing deeply in love with a faithful God while tribulations abound. Through sheer grit, they model for each of us how to create our own lives, our own way.

**Disability in American Life [2 volumes]** Tamar Heller, Sarah Parker Harris, Carol J. Gill, Robert Gould, 2018-12-07 Disability—as with other marginalized topics in social policy—is at risk for exclusion from social debate. This multivolume reference work provides an overview of challenges and opportunities for people with disabilities and their families at all stages of life. Once primarily thought of as a medical issue, disability is now more widely recognized as a critical issue of identity, personhood, and social justice. By discussing challenges confronting people with disabilities and their families and by collecting numerous accounts of disability experiences, this volume firmly situates disability within broader social movements, policy, and areas of marginalization, providing a critical examination into the lived experiences of people with disabilities and how disability can affect identity. A foundational introduction to disability for a wide audience—from those intimately connected with a person with a disability to those interested in the science behind disability—this collection covers all aspects of disability critical to understanding disability in the United States. Topics covered include characteristics of disability; disability concepts, models, and theories; important historical developments and milestones for people with disabilities; prominent individuals, organizations, and agencies; notable policies and services; and intersections of disability policy with other policy.

Disability Across the Developmental Life Span Julie Smart, PhD, 2011-11-14 This is the only text to provide comprehensive coverage of human growth and development, a requirement mandated by the Council of Rehabilitation Education (CORE) for a master's degree in rehabilitation counseling and for Licensed Professional Counselor certification. Written by an eminent leader in the field of disability studies, this book reflects a significant change in perceptions of individuals with disabilities from being defined foremost by their disability to being viewed as normal individuals with a disability. It provides an understanding of traditional human growth and development that will enhance the practice of disability counseling by enabling an understanding of a client's childhood and prior life experiences. The book begins with a focus on developmental theories and tasks, followed

by a discussion of cultural and ethical considerations in human development. It considers the major theories of human development as they relate to people with and without disabilities, and career theories with a focus on the concept of choice. The book addresses specific developmental stages including a description of developmental tasks, risks, disability applications, specific disabilities common to a particular stage, and cultural and ethical issues, all supported by case examples. Key Features: Fulfills the required CORE mandated course on human growth and development and the disability experience Addresses disability across the lifespan in relation to developmental stages Authored by highly a respected expert in disability studies

Disability Romel W. Mackelprang, Richard O. Salsgiver, Ryan C. Parrey, 2021-12-15 *Disability, Fourth Edition*, is an indispensable tool for human services students in understanding disability from an empowerment perspective. The textbook is divided into three parts: Part I establishes a nontraditional context of disability, moving readers away from the perspective that people with disabilities are sick, passive, and deviant. Part II looks at groupings of disabilities placed within the context of the social definition of disability. Part III discusses human service practice with people with disabilities. Authors Mackelprang, Salsgiver, and Parrey establish the historical and societal context in which those living with disabilities are marginalized while offering a social ecological model and its three--biosocial, psychosocial, and social--cultural dimensions that students and instructors can employ. Readers will also be introduced to universal diversity theory, which draws from feminist, race, disability, and queer theories for an approach that is applicable across all diverse groups. Written from a North American perspective, the book also addresses disability laws, policies, and practices globally. Learning objectives guide students' reading and discussion questions highlight key ideas while text boxes and personal narratives bring the book to life.

Staying Put Susan Lanspery, Joan Hyde, 2018-12-20 Most existing housing offers a poor fit for older people and people with disabilities, and new construction adds less than 2 per cent to the housing each year. Ninety-nine percent of the housing that will be in use in the year 2000 exists today. The long-needed anthology *Staying Put: Adapting the Places Instead of the People* emphasizes the disabilities and abilities of environments instead of individuals. With contributions from leading authorities, it integrates a wide range of theoretical and practical ideas about housing adaptation for researchers, students, consumers, policymakers, and practitioners in human services and the building trades.

**Life on Wheels** Gary Karp, 2008-08-27 There are 1.7 million regular wheelchair users in the United State. Like anyone else, they work, marry, have children, travel, play sports, and are full members of their community. *Life on Wheels* makes sure they take full advantage of every available opportunity. It is the A-Z guide for all you need to know about every aspect of living with mobility impairment. This unique book offers an initial road map to the lifelong, complex, and fascinating road of the disability experience. *Life on Wheels* is primarily a guidebook for those with a mobility disability, offering practical information on how to: adapt your home choose a wheelchair explore your sexuality take care of your body and much more!

*Disability as a Fluid State* Sharon N. Barnartt, 2010-11-10 Disability is often described in a way that suggests it is a permanent, relatively stable state. This volume argues that the relationship between impairment (physical state) and disability is neither fixed nor permanent but is fluid and not easily predicted.

**ReThinking DisAbility** René Gadacz, 1994 This volume provides case studies of the contemporary independent living/disabled consumer movement from the perspective of New Social Movement theory. It describes the organizational strategies by which disabled people pursue the goal of integrated community living, and focuses on the work of several movement organizations.

**Arts and Humanities** Brenda Jo Brueggemann, 2012-08-23 One of eight volumes in the cross-disciplinary and issues-based SAGE Reference Series on Disability, this volume explores the arts and humanities within the lives of people with disabilities.

**The Disability Business** Gary L. Albrecht, 1992-05-14 This comprehensive volume examines the 'big business', such as health care corporations and insurance companies, that has grown up around rehabilitation of the disabled in the United States, and the impact that this has had on care. Albrecht discusses how the quality of care is influenced by income, income potential and insurance cover and traces how the financial growth in this industry has changed the nature of the care provided. He also presents a realistic assessment of the policy options and solutions available to a society that values equity in ensuring that quality rehabilitation services are equally available to all.

*Encyclopedia of Feminist Theories* Lorraine Code, 2002-06-01 The path-breaking Encyclopedia of Feminist Theories is an accessible, multidisciplinary insight into the complex field of feminist thought. The Encyclopedia contains over 500 authoritative entries commissioned from an international team of contributors and includes clear, concise and provocative explanations of key themes and ideas. Each entry contains cross references and a bibliographic guide to further reading; over 50 biographical entries provide readers with a sense of how the theories they encounter have developed out of the lives and situations of their authors.

Disability Harassment Mark C. Weber, 2007-03 Building on the insights of both disability studies and civil rights scholars, Mark C. Weber frames his examination of disability harassment on the premise that disabled people are members of a minority group that must negotiate an artificial yet often damaging environment of physical and attitudinal barriers. The book considers courts' approaches to the problem of disability harassment, particularly the application of an analogy to race and sex harassment and the development of legal remedies and policy reforms under the Americans with Disabilities Act (ADA). While litigation under the ADA has addressed discrimination in public accommodations, employment, and education, Weber points out that the law has done little to combat disability harassment. He recommends that arguments based on unused provisions of the ADA should be developed and new legal remedies advanced to address the problem. Disability Harassment also draws on case law to explore special problems of harassment in the public schools, and closes with an appeal to judges and lawmakers for expanded legal protection against harassment.

*Disability* Romel Mackelprang, Richard Salsgiver, 2015-04-06 The third edition of *Disability* remains an indispensable tool for human service practitioners in understanding disability from an empowerment perspective. The authors address policy, theory, description, and practice, stressing the difference of disability rather than the dysfunction of disability. The text is illustrated with in-depth personal narratives by those living with disability and thought-provoking sidebars that ask readers to consider the implications of their own reactions to disability. Mackelprang and Salsgiver establish the historical and societal context in which those with disabilities are marginalized, discuss the major groupings of disabilities, and finally offer a model for assessment and practice that human service practitioners can adopt. The book develops a contemporary perspective in which people with disabilities are considered valuable and contributing members of society. Using this book, students will find not only a prescription for professional assessment and practice, but also the necessary understanding of common issues those with disabilities face, the social contexts in which they live, and the tools to work with people with disabilities as equals and partners.

*Telethons* Paul K. Longmore, 2016 Marshaling two decades' worth of painstaking research, Paul Longmore's book provides the first cultural history of the telethon, charting its rise and profiling the key figures-- philanthropists, politicians, celebrities, corporate sponsors, and recipients--involved--

*The Oxford Handbook of Disability History* Michael Rembis, Catherine J. Kudlick, Kim Nielsen, 2018-06-19 Disability history exists outside of the institutions, healers, and treatments it often brings to mind. It is a history where disabled people live not just as patients or cure-seekers, but rather as people living differently in the world-- and it is also a history that helps define the fundamental concepts of identity, community, citizenship, and normality. The Oxford Handbook of Disability History is the first volume of its kind to represent this history and its global scale, from ancient Greece to British West Africa. The twenty-seven articles, written by thirty experts from across the field, capture the diversity and liveliness of this emerging scholarship. Whether discussing disability in modern Chinese cinema or on the American antebellum stage, this collection provides new and valuable insights into the rich and varied lives of disabled people across time and place.
