J. A. KREGEL

- 📖 **My Story** Goh Tong Lim, 2004 This is a long-awaited book by one of Malaysia's most interesting entrepreneurs. How Tan Sri Lim Goh Tong built Genting Highlands into a world-class resort has been well-publicised. But this is the first time readers are offered an insight into his life and unique approach. His story is an inspiring one: beginning with nothing to his name, turning difficulties into opportunities, acting on brainwaves, taking calculated risks and confounding sceptics through sheer foresight and perseverance. Typically modest, Tan Sri Lim gives an account that is refreshingly original, wryly humorous and moving in its poignancy.
- 📖 **Appreciative Inquiry** David Cooperrider, Diana D. Whitney, 2005-10-10 Written by the two most recognized appreciative inquiry thought leaders a quick, accessible introduction to one of the most popular change methods today--proven effective in organizations ranging from Roadway Express and British Airways to the United Nations and the United States Navy Appreciative Inquiry (AI) is a model of change management uniquely suited to the values, beliefs, and challenges of organizations today. AI is a process that emphasizes identifying and building on strengths, rather than focusing exclusively on fixing weaknesses as most other change processes do. As the stories in this book illustrate, it results in dramatic improvements in the triple bottom line: people, profits, and planet. AI has been used to significantly enhance customer satisfaction, cost competitiveness, revenues, profits, and employee engagement, retention, and morale, as well as organizations' abilities to meet the needs of society. This book is a concise introduction to appreciative inquiry. It provides a basic overview of the process and principles of AI along with exciting stories illustrating how organizations have applied AI and the benefits they have gained as a result. It has been specifically designed to be accessible to a wide audience so that it can be handed out in organizations where AI is either being contemplated or being implemented. Written by two of the key figures in the development of appreciative inquiry, this is the most authoritative guide available to a change method that systematically taps the potential of human beings to make themselves, their organizations, and their communities more adaptive and more effective.
- 📖 **Towards Realization of the Higher Intent of Islamic Law** Gamal Eldin Attia, 2007-01-01 This book takes an important step towards the realization of the higher intents of the Islamic law. First, it opens the door towards the integration of contemporary values and worldview into the maqasid terminology. This is carried out via the sections on the role of reason and experience in identifying maqasid. Secondly, the book gives answers to the complex theoretical questions on the role of maqasid in ijtihad, juristic theorization (usul), and the Islamization of the human, social, and physical sciences. Last, but not least, the book highlights the role and the necessity of a 'maqasid-informed' mindset on the intellectual and communal levels, and takes a pioneering futuristic look into this very important branch of Islamic knowledge. Maqasid al-Shariah (Higher Intent of the Islamic Law) is the most promising tool for the 'contemporization' of Islamic law and its philosophical foundations. It is also - as this book reveals - a promising tool for the realization of Islamic values and principles in the realms of judiciary, society, and even science.
- 📖 **Dewan Budaya**, 2003
- 📖 **Tak Ada Jalan Pintas** Mohamad Sobary, 2003 Biography and political journey of Megawati Soekarnoputri, the fifth president of the Republic Indonesia.
- 📖 **Pretext for Mass Murder** John Roosa, 2006-08-03 In the early morning hours of October 1, 1965, a group calling itself the September 30th Movement kidnapped and executed six generals of the Indonesian army, including its highest commander. The group claimed that it was attempting to preempt a coup, but it was quickly defeated as the senior surviving general, Haji Mohammad Suharto, drove the movement's partisans out of Jakarta. Riding the crest of mass violence, Suharto blamed the Communist Party of Indonesia for masterminding the movement and used the emergency as a pretext for gradually eroding President Sukarno's powers and installing himself as a ruler. Imprisoning and killing hundreds of thousands of alleged communists over the next year, Suharto remade the events of October 1, 1965 into the central event of modern Indonesian history and the cornerstone of his thirty-two-year dictatorship. Despite its importance as a trigger for one of the twentieth century's worst cases of mass violence, the September 30th Movement has remained shrouded in uncertainty. Who actually masterminded it? What did they hope to achieve? Why did they fail so miserably? And what was the movement's connection to international cold war politics? In Pretext for Mass Murder, John Roosa draws on a wealth of new primary source material to suggest a solution to the mystery behind the movement and the enabling myth of Suharto's repressive regime. His book is a remarkable feat of historical investigation. Finalist, Social Sciences Book Award, the International Convention of Asian Scholars

Detailed ethnographic studies of a wide variety of specific situations, all involving real texts and lived practices, are balanced with general claims about the nature of literacy. Contributors address a coherent set of issues: * the visual and material aspects of literacy * concepts of time and space in relation to literacy * the functions of literacies in shaping and sustaining identities in communities of practice * the relationship between texts and the practices associated with their use the role of discourse analysis on literacy studies These studies, along with a foreword by Denny Taylor, make a timely and important contribution to literacy theory and suggest directions for the further development of the field.
