Stephen Lewis, Evan Slawson

Infinite Mind Valerie V Hunt,2023-05-30 Understand the science behind vibrations of human consciousness, based on the acclaimed work of Valerie Hunt and her pioneering experiments in bioenergy, physiology medicine, electronic field research, and human extrasensory capacities.

**Infinite Mind** Valerie V. Hunt,1996

*Mind Mastery Meditations* Valerie V. Hunt,Hunt,1997-02

**Life on Land** Emilie Conrad,2012-04-10 Emilie Conrad's approach to movement education, health, and healing is as varied and deeply textured as her life story. In *Life on Land*, she interweaves the story of her Brooklyn childhood and discovery of dance with the psychic and physical collapse that led to the development of Continuum, her groundbreaking movement and self-realization technique. Readable, poignant, and ultimately triumphant, the book melds Conrad's unique theories of the body-mind frontier with fearless discussions of Jewish heritage, sexuality, female identity, and social pressures.

*Sanctuary* Stephen Lewis,Evan Slawson,2002-09-18 More than half a century after Einstein first described the energetic unity of the world in his famous equation,  $E=mc^2$ , we are finally beginning to understand the spiritual and mystical implications of his discovery. *Sanctuary: The Path to Consciousness* is about the miraculous possibilities that emerge when we see the universe as a matrix of frozen light, the spiritual manifestation of our intuitive consciousnesses. In this remarkable novel, you will find a new energetic model of the body, the spirit, and the nature of the physical world. It points the way to unlimited possibilities of absolute, eternal transformation, and you will find out that it is readily available now! After

reading this book, you too can take advantage of the techniques of energetic Quantum-Consciousness Evaluation, and be able to identify and remove subtle-energy imbalances to attain and integrate physical, emotional, and spiritual harmony!

*The Secret of Life* Georges Lakhovsky, 1996-09 1936 Cosmic rays & radiations & radiations of living beings. Contents: Problem of Instinct of Special Sense in Animals; Auto-Electrification in Living Beings; Universal Nature of Radiation in Living Beings; on Radiations in General & on Electro-Magn.

**Margins of Reality** Robert G. Jahn, Brenda J. Dunne, 2009-04 WHAT HAS MODERN SCIENCE SWEEPED UNDER THE RUG? This pioneering work, which sparked intense controversy when it was first published two decades ago, suggests that modern science, in the name of rigor and objectivity, has arbitrarily excluded the role of consciousness in the establishment of physical reality. Drawing on the results of their first decade of empirical experimentation and theoretical modeling in their Princeton Engineering Anomalies Research (PEAR) program, the authors reach provocative conclusions about the interaction of human consciousness with physical devices, information-gathering processes, and technological systems. The scientific, personal, and social implications of this revolutionary work are staggering. MARGINS OF REALITY is nothing less than a fundamental reevaluation of how the world really works.

**Infinite Mind: A Scientific and Spiritual Exploration: Building a Bridge Between Inner and Outer Worlds** Nuri Hassumani, 2019-10-24 Every sentence in Nuri's book left me breathless and ready for more --

Cyndi Dale, bestselling author on energy medicine and healing Have you ever known what a stranger was about to say before he said it? Have you suddenly known that a loved one miles away was in imminent danger? Has an image of an object popped into your mind, and then the object itself appeared moments later? Nuri Hassumani had all of these experiences, a near-death experience, and more. Thus began his quest to learn how such impossible phenomena could occur in an ordinary life. Probing modern science, quantum physics, and ancient spiritual wisdom, he was led to explore the nature of consciousness itself--with astonishing results. His conclusions? That science and ancient spiritual texts reveal remarkable similarities, and that consciousness is fundamental. That infinite consciousness creates the matter and energy of the universe. We are all part of this infinite mind, capable of tapping into it and transforming ourselves and our surroundings in extraordinary ways--and perhaps even saving the planet. With engaging storytelling and fascinating case studies, *Infinite Mind* captures the key steps that yielded these understandings, and reveals a central truth: Consciousness is you, and you are consciousness: You are That.

**Sound Unseen** Brian Kane,2014 'Sound Unseen' explores acousmatic sound - a sound that one hears without seeing its cause. Pierre Schaeffer, the inventor of musique concr ete, in his *Trait e des objets musicaux*, first popularized the term 'acousmatic'. After an introduction, the first chapter provides a thorough exegesis of Schaeffer's theory of acousmatics. It also presents three objections to Schaeffer's theories (myth, phantasmagoria, and ontology) around which the book is structured.

**The Secrets of the Heart** Kahlil Gibran,2011-12-20 An early collection of Kahlil Gibran's writings, showcasing the many styles of this prolific thinker, all profoundly beautiful Kahlil Gibran reveals his vision

of the soul and understanding of the world—past, present, and future—in this rich sampling of more than twenty works. Prose tales, fables, and poems evoke the mystic East and form a world at once powerful, tender, joyous, and melancholy. This collection, penned when Gibran was still a young writer, reveals many of the themes and styles plumbed throughout his life, including his lifelong struggle against injustice in “The Crucified,” his heart-wrenching lament for a Lebanon shackled by tradition and politics in “My Countrymen,” and his masterful use of symbolism and simile in “The Secrets of the Heart.” A writer with infinite abilities, Gibran continually seeks true beauty, no matter the form.

**Alien Empathy** Lyle Mays, 2021-04-15 Awakened by a sound he didn't hear, Alan Spenser is also dramatically awakened to a threat posed by alien manipulation. Alan, a computer science professor, is drawn into the mystery and intrigue of a search for extraterrestrial intelligence. He finds that intelligence embedded in powerful passions, which reveal a worldwide conspiracy hiding in the depth of previously unknown feelings. From the Nevada desert, an emotionally crippled billionaire seeks to find healing for our world by providing a more balanced way of feeling. Astrophysics, cyber-linguistics, biochemistry, and poetry all play a part in unraveling the scheme. Rage, terror, hatred, and love are a small part of the enigma of human emotions exposed by the alien presence.

Sag Harbor Colson Whitehead, 2009-04-28 NATIONAL BESTSELLER • PEN/FAULKNER AWARD FINALIST • From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*: a hilarious and supremely original novel set in the Hamptons in the 1980s, a tenderhearted coming-of-age story fused with a sharp look at the intersections of race and class" (The New York Times). Benji Cooper is one of the few Black students at an elite prep school in Manhattan. But every summer, Benji escapes to the Hamptons, to Sag Harbor, where a small community of Black professionals have built a world of their own. The summer of '85 won't be without its usual trials and tribulations, of course. There will be complicated new handshakes to fumble through and state-of-the-art profanity to master. Benji will be tested by contests big and small, by his misshapen haircut (which seems to have a will of its own), by the New Coke Tragedy, and by his secret Lite FM addiction. But maybe, just maybe, this summer might be one for the ages. Look for Colson Whitehead's new novel, *Crook Manifesto*, coming soon!

*Sophie's World* Jostein Gaarder, 2007-03-20 One day Sophie comes home from school to find two questions in her mail: Who are you? and Where does the world come from? Before she knows it she is

enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

**Holographic Universe** Michael Talbot,1992-05-06 Examines a new theory of reality, based on holography, that explains the paranormal abilities of the mind, the latest frontiers of physics, and the unsolved riddles of the brain and body.

**The Infinite Mind** Betty Shine,2000 The evidence for the existence of the Mind as something distinct from the Brain. Betty Shine's new book centres on the Mind/Brain phenomenon and an argument that has dogged the scientific community for years. With a quarter of a century of experience of mediumship behind her, Betty Shine has the proof required to demonstrate the existence of Mind Energy as something which survived the physical death of the Brain. Drawing on survival evidence through many interesting and intriguing stories, this book is the first attempt by anyone to distinguish between Mind and Brain. Betty Shine can not only see it - she can prove it. From out-of-body and near-death experience to clairvoyant contact and meditation, THE INFINITE MIND will inspire both individuals and the world of science to re-examine their beliefs.

Light Emerging Barbara Ann Brennan,2011-03-16 Barbara Ann Brennan continues her ground-breaking exploration of the human energy field, or aura—the source of our experience of health or illness. Drawing on many new developments in her teaching and practice, she shows how we can be empowered as both patients and healers to understand and work with our most fundamental healing power: the light that emerges from the very center of our humanity. In a unique approach that encourages a cooperative

effort among healer, patient, and other health-care providers, Light Emerging explains what the healer perceives visually, audibly, and kinesthetically and how each of us can participate in every stage of the healing process. Presenting a fascinating range of research, from a paradigm of healing based on the science of holography to insights into the hara level and the core star, Light Emerging is at the leading edge of healing practice in our time.

*PEMF - The Fifth Element of Health* Bryant A. Meyers, 2013-08-19 You probably know that food, water, sunlight, and oxygen are required for life, but there is a fifth element of health that is equally vital and often overlooked: The Earth's magnetic field and its corresponding PEMFs (pulsed electromagnetic fields). The two main components of Earth's PEMFs, the Schumann and Geomagnetic frequencies, are so essential that NASA and the Russian space program equip their spacecrafts with devices that replicate these frequencies. These frequencies are absolutely necessary for the human body's circadian rhythms, energy production, and even keeping the body free from pain. But there is a big problem on planet earth right now, rather, a twofold problem, as to why we are no longer getting these life-nurturing energies of the earth. In this book we'll explore the current problem and how the new science of PEMF therapy (a branch of energy medicine), based on modern quantum field theory, is the solution to this problem, with the many benefits listed below: • eliminate pain and inflammation naturally • get deep, rejuvenating sleep • increase your energy and vitality • feel younger, stronger, and more flexible • keep your bones strong and healthy • help your body with healing and regeneration • improve circulation and heart health • plus many more benefits
