Bosiljka Raditsa

A Common Art Margit Thøfner, 2007 This richly illustrated and ground-breaking volume reassesses the relationship between art, material culture and politics in the early modern period. Focusing on festivals and processions, it shows that these played a highly significant role in the life of early modern city-dwellers. In particular, there was a flourishing of urban ceremony in the southern Low Countries, in the great cities of Brabant, in the wake of the Dutch Revolt. This book traces the origins of that flourishing in the political ructions of the 1560-1580s. It also shows that, contrary to received scholarly opinion, early modern urban festivals simultaneously involved and appealed to ordinary people. It was a common and collaborative art form, a way of soliciting broad popular support for civic and princely governments alike.

Culture and Diplomacy Reinhard Eisendle, Suna Suner, Hans Ernst Weidinger, 2023-12-22 Diplomats had multiple tasks: not only negotiating with the representatives of other states, but also mediating culture and knowledge, and not least elaborating reports on their observations of politics, society, and culture. Culture, according to the studies featured in this book, is defined as a complex sphere including aspects like systems of communication, literature, music, arts, education, and the creation of knowledge. This edition containing contributions from six conferences held in Vienna and Istanbul by the Don Juan Archiv Wien focuses on the complex diplomatic and cultural relations between the Ottoman Empire and Europe from the time of the early embassies to Istanbul up to Tanzimat.

Parody and Festivity in Early Modern Art David R. Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike, the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art. The concept of 'carnival' supplies the main thread connecting these essays. Bound as festivity often is to popular culture, not all the topics fit the canons of high art, and some of the art is distinctly low-brow and occasionally ephemeral; themes include grobianism and the grotesque, scatology, popular proverbs with ironic twists, and a wide range of comic reversals, some quite profound. Many hinge on ideas of the world upside down. Though the chapters most often deal with Northern Renaissance and Baroque art, they spill over into other countries, times, and cultures, while maintaining the carnivalesque air suggested by the book's title.

The Look of the Past Ludmilla Jordanova, 2012-09-27 How can we use visual and material culture to shed light on the past? Ludmilla Jordanova offers a fascinating and thoughtful introduction to the role of images, objects and buildings in the study of past times. Through a combination of thematic chapters and essays on specific artefacts – a building, a piece of sculpture, a photographic exhibition and a painted portrait – she shows how to analyse the agency and visual intelligence of artists, makers and craftsmen and make sense of changes in visual experience over time. Generously illustrated and drawing on numerous examples of images and objects from 1600 to the present, this is an essential guide to the skills that students need in order to describe, analyse and contextualise visual evidence. *The Look of the Past* will encourage readers to think afresh about how they, like people in the past, see and interpret the world around them.

Spectacular Rubens Alejandro Vergara, Anne T. Woollett, 2014-10-14 The six glorious scenes that make up the Triumph of the Eucharist series by Peter Paul Rubens (1577–1640) are highlights of the Museo Nacional del Prado's superb collection of Flemish paintings. Completed in 1626, these brilliantly detailed sketches were painted at the behest of the Infanta Isabel Clara Eugenia in preparation for a series of monumental tapestries that are now considered among the finest made in Europe in the seventeenth century. Unfortunately, additions to the wooden supports, introduced after the paintings were created, made the panels considerably larger than Rubens intended and over time caused serious damage to the original sections. With the aid of the Getty Foundation's Panel Paintings Initiative, the panels have been restored and returned to their original dimensions by the Prado, and the magnificent oil sketches can once again be placed on public view. This lushly illustrated and illuminating volume provides new insight into the

history of the Eucharist series of paintings and tapestries and attests to Rubens's exhilarating art. Spectacular Rubens is published on the occasion of an exhibition of the paintings, on view at the Museo Nacional del Prado from March 25 through June 29, 2014, and at the J. Paul Getty Museum from October 14, 2014, through January 4, 2015.

Kuriere, Kunstagenten und Mäzene Theresa Häusl,2024-05-15 Die rasante Karriere der Thurn und Taxis im Umfeld der Habsburger ist intensiv erforscht. Und doch eröffnet die Analyse ihrer Strategien zur Imagekonzeption und Kunstförderung neue Perspektiven auf ihren sozialen Aufstieg. Die Ausweitung der habsburgischen Territorien, die Explosion des Schriftgebrauchs, die Internationalisierung des Wissenstransfers, der Konkurrenzdruck auf dem eben entstehenden Kunstmarkt – all das machte den raschen Transport von Nachrichten zu einer hochtaxierten Währung der Herrschaftssicherung, mit welcher die Postmeisterdynastie gleichsam handelte. Unverrückbar wurde sie so selbst Teil der weitläufigen Netzwerke der Gelehrten und Mächtigen ihrer Zeit, wie anhand von bislang unveröffentlichtem Quellen- und Bildmaterial spannungsreich rekonstruiert werden kann.

One Place after Another Miwon Kwon,2004-02-27 A critical history of site-specific art since the late 1960s. Site-specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality. Throughout the 1970s and 1980s, as site-specific art intersected with land art, process art, performance art, conceptual art, installation art, institutional critique, community-based art, and public art, its creators insisted on the inseparability of the work and its context. In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces. One Place after Another offers a critical history of site-specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations. Informed by urban theory, postmodernist criticism in art and architecture, and debates concerning identity politics and the public sphere, the book addresses the siting of art as more than an artistic problem. It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism. The book addresses the work of, among others, John Ahearn, Mark Dion, Andrea Fraser, Donald Judd, Renee Green, Suzanne Lacy, Inigo Manglano-Ovalle, Richard Serra, Mierle Laderman Ukeles, and Fred Wilson.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert,Erma Hermens,Marja Peek,1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Luxury Arts of the Renaissance Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her

favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

The Beguines of Medieval Paris Tanya Stabler Miller,2014-05 In the thirteenth century, Paris was the largest city in Western Europe, the royal capital of France, and the seat of one of Europe's most important universities. In this vibrant and cosmopolitan city, the beguines, women who wished to devote their lives to Christian ideals without taking formal vows, enjoyed a level of patronage and esteem that was uncommon among like communities elsewhere. Some Parisian beguines owned shops and played a vital role in the city's textile industry and economy. French royals and nobles financially supported the beguinages, and university clerics looked to the beguines for inspiration in their pedagogical endeavors. The Beguines of Medieval Paris examines these religious communities and their direct participation in the city's commercial, intellectual, and religious life. Drawing on an array of sources, including sermons, religious literature, tax rolls, and royal account books, Tanya Stabler Miller contextualizes the history of Parisian beguines within a spectrum of lay religious activity and theological controversy. She examines the impact of women on the construction of medieval clerical identity, the valuation of women's voices and activities, and the surprising ways in which local networks and legal structures permitted women to continue to identify as beguines long after a church council prohibited the beguine status. Based on intensive archival research, The Beguines of Medieval Paris makes an original contribution to the history of female religiosity and labor, university politics and intellectual debates, royal piety, and the central place of Paris in the commerce and culture of medieval Europe.

The Annotated Mona Lisa Carol Strickland,John Boswell,2007-10 Like music, art is a universal language. This second edition of Carol Strickland's The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern offers an illustrated tutorial of prehistoric to post-modern art from cave paintings to video art installations to digital and Internet media. * Featuring succinct page-length essays, instructive sidebars, and more than 300 photographs, The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern takes art history out of the realm of dreary textbooks, demystifies jargon and theory, and makes art accessible-even at a cursory reading. * From Stonehenge to the Guggenheim and from Holbein to Warhol, more than 25,000 years of art is distilled into five sections covering a little more

than 200 pages.

This book relates Floris's hybridizing art to the social, religious, and political crises reshaping his society.
