Albanian: Teoria e Artit Islam: Koncepti Estetik dhe Struktura Epistemike (The Theory of Islamic Art: Aesthetic Concept and Epistemic Structure)

Professor Idham Mohammed, 2022-01-01 Divine oneness as the principle of beauty is perhaps quintessentially Islamic artistic expression and experience and what it celebrates. Why has Islamic art evolved as it has, what forms does it take, what is the logic underlying it? What message is the Muslim artist attempting to convey, what emotion is he seeking to evoke? This work views Islamic art as a subject of archeological study and treats its evolution as part of the historical study of art in the broader sense. At the same time, it paves the way for an epistemological shift from viewing Islamic art as a material concept having to do with beautiful rarities and relics that have grown out of Islamic cultural and artistic creativity, to a theoretical concept associated with a vision, a principle, a theory and a method. This theoretical concept provides the intellectual and cultural foundation for a critical philosophical science of Islamic artistic beauty to which we might refer as 'the science of Islamic art,' or 'the Islamic aesthetic' that evaluates visual artistic creations in terms of both beauty and practical usefulness. In the process the study also explores orientalist misconceptions, challenging some of the premises with which it has approached Islamic art, with judgement rooted in a cultural framework alien to the spiritual perspective of Islam.

Public Diplomacy Charles Wolf, Brian Rosen, 2004 This paper sharply distinguishes marketing encompassed in public diplomacy from the marketing of commercial products, focusing instead on the central roles of constituencies and adversaries. The authors argue that the antipathy for the U.S. government was aroused by some U.S. policies of outsourcing some aspects of public diplomacy.

The Yankee Comandante Gani Jakupi, 2019-06-12T00:00:00+02:00 This is the true story of William Alexander Morgan, the Yankee Comandante, an idealistic young American who found fame fighting in the Cuban Revolution. The blond American didn't speak a word of Spanish, but he felt his rightful place was among the guerilleros of the Escambray Mountains, fighting to bring down dictator Fulgencio Batista. Morgan was among Havana's liberators in 1959, an act that led FBI director Edgar Hoover to strip him of his American citizenship. There was a time when Morgan was international front-page news, on a level with Che Guevara. Yet el comandante yanqui has largely disappeared from the history of the Cuban Revolution. Author Gani Jakupi recounts a forgotten tale from one of the greatest military and political events of the 20th century.
