I Fear My Pain Interests You Stephanie Lacava,2022-09-27 A punky, raw novel of millennial disaffection, trauma and 1960s cinema Margot is the child of renowned musicians and the product of a particularly punky upbringing. Burnt-out from the burden of expectation and the bad end of the worst relationship yet, she leaves New York and heads to to the Pacific Northwest. She's seeking to escape both the eyes of the world and the echoing voice of that last bad man. But a chance encounter with a dubious doctor in a graveyard, and the discovery of a dozen old film reels, opens the door to a study of both the peculiarities of her body and the absurdities of her famous family. A literary take on cinema du corps, Stephanie LaCava's new novel is an audaciously sexy and moving exploration of culture and connections, bodies and breakdowns.

Syria and Lebanon Under the French Mandate Idir Ouahes,2018-07-30 French rule over Syria and Lebanon was premised on a vision of a special French protectorate established through centuries of cultural activity: archaeological, educational and charitable. Initial French methods of organising and supervising cultural activity sought to embrace this vision and to implement it in the exploitation of antiquities, the management and promotion of cultural heritage, the organisation of education and the control of public opinion among the literate classes. However, an examination of the first five years of the League of

Nations-assigned mandate, 1920-1925, reveals that French expectations of a protectorate were quickly dashed by widespread resistance to their cultural policies, not simply among Arabists but also among minority groups initially expected to be loyal to the French. The violence of imposing the mandate 'de facto', starting with a landing of French troops in the Lebanese and Syrian coast in 1919 - and followed by extension to the Syrian interior in 1920 - was met by consistent violent revolt. Examining the role of cultural institutions reveals less violent yet similarly consistent contestation of the French mandate. The political discourses emerging after World War I fostered expectations of European tutelages that prepared local peoples for autonomy and independence. Yet, even among the most Francophile of stakeholders, the unfolding of the first years of French rule brought forth entirely different events and methods. In this book, Idir Ouahes provides an in-depth analysis of the shifts in discourses, attitudes and activities unfolding in French and locally-organised institutions such as schools, museums and newspapers, revealing how local resistance put pressure on cultural activity in the early years of the French mandate.

The Superrationals Stephanie Lacava, 2020-10-13 An erotic and darkly comic novel about female friendship, set at the intersection between counterculture and the multimillion dollar art industry. Over the course of a few days in the fall of 2015, the sophisticated and awkward, wry and beautiful Mathilde upends her tidy world. She takes a short leave from her job at one of New York's leading auction houses and follows her best friend Gretchen on an impromptu trip to Paris. While there, she confronts her late mother's hidden life, attempts to rein in Gretchen's encounters with an aloof and withholding sometime-boyfriend, and faces the traumatic loss of both her parents when she was a teenager. Reeling between New York, Paris, Munich London, and Berlin, *The Superrationals* is an erotic and darkly comic story about female friendship, set at the intersection between counterculture and the multimillion dollar art industry. Mathilde takes short, perceptive notes on artworks as a way to organize her own chaotic thoughts and life. Featuring a bitchy

gossip chorus within a larger carousel of voices, *The Superrationals* coolly surveys the international art and media worlds while exploring game theory, the uncanny, and psychoanalysis. Written in the “Young Girl” tradition of Michelle Bernstein's *All The King's Horses*, Bernadette Corporation's *Reena Spaulings* and Natasha Stagg's *Surveys*, *The Superrationals* confronts the complexity of building narrative in life and on the page and the instability that lies at the heart of everything.

The Ocean Economy in 2030 OECD, 2016-04-27 This report explores the growth prospects for the ocean economy, its capacity for future employment creation and innovation, and its role in addressing global challenges. Special attention is devoted to the emerging ocean-based industries.
