Always a Commando: The Life of Singapore Army Pioneer Clarence Tan Thomas A. Squire, 2018-10-15 Best known for his role in helping to establish the Singapore Armed Forces Commando Formation and as the unit's first commanding officer, Lieutenant-Colonel (Retired) Clarence Tan was born on his family's rubber plantation, just ten months before the Japanese invasion of British Malaya in 1941. As with those of his generation, his life spans the dramatic, often tumultuous years of Singapore's evolution from a primarily rural British colony to the world class cosmopolis it is today. From leading a platoon during racial riots in Singapore to searching for communist insurgents and Indonesian infiltrators in the jungles of Malaysia during the Emergency and the Confrontation, LTC (Rtd) Tan was part of both the British and Malaysian armies before becoming a pioneer officer in Singapore's defence force. For as surely as there are makers of history, there are those too who are made by history. *Always A Commando* is at once a compelling chronicle of one man's life from kampong kid to red beret and a rich evocation of the country he served through turbulent and uncertain times.

U.S. Army Special Operations in World War II (Paperback format only) , CMH 70-42. Army Special Publication. Discusses a variety of commando and guerrilla operations that were conducted on the plains of Europe and in the jungles of the Pacific to harass the Axis armies, to gather intelligence, and to support the more conventional Allied military efforts, yet their significance was a matter of dispute. Hogan examines the critical issues underlying special operations and shows how American leaders employed commandos - rangers in Army parlance - and guerrillas extensively, if not systematically, during the war. American Military History, Volume II , 2010 From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library.

Victory in Papua Samuel Milner, 2015-07-11 This is a companion volume to the one on Guadalcanal in the series on the war in the Pacific. Both record the operations designed to halt the advance of the enemy toward the vital transpacific line of communications with Australia and secure Australia as a base. Success in Papua and Guadalcanal, achieved in February 1943, put the Allied forces in a position to neutralize Rabaul and, this accomplished, to advance to the Philippines. The present volume concentrates on the action of one United States Army division. In telling the story of a comparatively limited number of troops, the author has been able to present the combat experience of small units in sharper focus than has been possible in most of the other full-scale campaign volumes. The campaign abounds in lessons. Of these one of the most vital is the frequent necessity for all commanders to evaluate their own actions by asking themselves this question: How could I have helped, how should I have helped, how can I help my subordinates to accomplish their assigned tasks?

Biennial Reports of the Chief of Staff of the United States Army to the Secretary of War United States. War Department. Provides a comprehensive picture of global war as seen from the perspective of the Chief of Staff George C. Marshall. Includes Marshall's comments on such topics as: technology; the 90-division gamble; the replacement system; troop morale and the citizen-soldier; and demobilization.

Advice and Support Ronald H. Spector, 2015-10-14 *Advice and Support: The Early Years, 1941-1960* describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate postwar years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam.

Over the Beach Donald W. Boose, Combat Studies Institute, 2010 Contains the definitive history of the extensive but little known U.S. Army amphibious operations during the Korean War, 1950-1953. Provides insights to modern planners crafting future joint or combined operations in that part of the world. Originally published in 2008. Illustrated.

Bringing Order to Chaos Peter J Schifferle Editor, Peter Schifferle, 2018-10-12 Volume 2, *Bringing Order to Chaos: Combined Arms Maneuver in Large Scale Combat Operations*, opens a dialogue with the Army. Are we ready for the significantly increased casualties inherent to intensive combat between large formations, the constant paralyzing stress of continual contact with a peer enemy, and the difficult nature of command and control while attempting division and corps combined arms maneuver to destroy that enemy? The chapters in this volume answer these questions for combat operations while spanning military history from 1917 through 2003. These accounts tell the challenges of intense combat, the drain of heavy casualties, the difficulty of commanding and controlling huge formations in contact, the effective use of direct and indirect fires, the need for high quality leadership, thoughtful application of sound doctrine, and logistical sustainment up to the task. No large scale combat engagement, battle, or campaign of the last one hundred years has been successful without being better than the enemy in these critical capabilities. What can we learn from the past to help us make the transition to ready to fight tonight?

The Real North Korea Andrei Lankov, 2015 In *The Real North Korea*, Lankov substitutes cold, clear analysis for the overheated rhetoric surrounding this opaque police state. Based on vast expertise, this book reveals how average North Koreans live, how their leaders rule, and how both survive

The Praetorian STARShip : the untold story of the Combat Talon , 2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

A Military History of South Africa Timothy J. Stapleton, 2010-04-09 This work offers the first one-volume comprehensive military history of modern South Africa. *A Military History of South Africa: From the Dutch-Khoi Wars to the End of Apartheid* represents the first comprehensive military history of South Africa from the beginning of European colonization in the Cape during the 1650s to the current postapartheid republic. With particular emphasis on the last 200 years, this balanced analysis stresses the historical importance of warfare and military structures in the shaping of modern South African society. Important themes include military adaptation during the process of colonial conquest and African resistance, the growth of South

Africa as a regional military power from the early 20th century, and South African involvement in conflicts of the decolonization era. Organized chronologically, each chapter reviews the major conflicts, policies, and military issues of a specific period in South African history. Coverage includes the wars of colonial conquest (1830-69), the diamond wars (1869-81), the gold wars (1886-1910), World Wars I and II (1910-45), and the apartheid wars (1948-94).

A Historical Perspective on Light Infantry Scott Ray McMichael, 1987 This study seeks to clarify the nature of light infantry. General characteristics of light infantry forces are identified, and an analysis of how light forces operate tactically and how they are supported is presented. In the process, the relationship of the light infantry ethic to its organization is evaluated, and the differences between light infantry and conventional infantry is illuminated. For the purpose of this study, the term conventional infantry refers to modern-day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II, the Korean War, and the Vietnam War. The study concludes that light infantry is unique and distinct. A light infantry ethic exists and manifests itself in a distinctive tactical style, in a special attitude toward the environment, in a freedom from dependence on fixed lines of communication, and in a strong propensity for self-reliance. The study is based on a historical analysis of 4 light infantry forces employed during and since World War II: The Chindits, in the 1944 Burma campaign against the Japanese; The Chinese communist Forces during the Korean War; British operations in Malaya and Borneo 1948-66; and the First Special Service Force in the mountains of Italy 1942-44. -- p.
