📖 **THE BILLIONAIRE BOONDOGGLE** PAT GAROFALO, 2019-03-12 Why do our politicians let the entertainment industry and individuals like Donald Trump bilk taxpayers, hijack public policy and hurt economic investment? It is widely believed, that a city in possession of a fortune must be in want of a partner who will drive economic development and thus be worth a substantial dowry of tax abatements, subsidies, and grants. These partners always prove faithless, though, especially when it comes to the entertainment industry. Never date an actor, as they say. From stadiums and movie productions to casinos and mega-malls to convention centers and hotels, cities and states have paid out billions of dollars to the world's corporate titans in an attempt to boost their economies, create new and better jobs, and lure well-known events such as the Olympics and the Super Bowl to within their borders, not to mention give officials a chance to have their pictures taken with celebrities. That big entertainment drives bigger economies is a myth, however, one that has nonetheless permeated every facet of policy making despite the overwhelming evidence that it results in a raw deal for the taxpaying public. In *The Billionaire Boondoggle*, Garofalo takes readers on a tour of publically-subsidized corporate America to explain how that myth came to be, how much money America's elected officials throw away, and why courting big entertainment just courts disaster.

📖 **HIGHER EDUCATION PATHWAYS** PAUL ASHWIN, M. CASE, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies? What conditions are required for this impact to occur? What are the pathways from an undergraduate education to the public good, including inclusive economic development? These questions have particular resonance in the South African higher education context, which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent. Higher education is recognised in core legislation as having a distinctive and crucial role in building post-apartheid society. Undergraduate education is seen as central to addressing skills shortages in South Africa. It is also seen to yield significant social returns, including a consistent positive impact on societal institutions and the development of a range of capabilities that have public, as well as private, benefits. This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues.

📖 **THE WIRELESS AGE**, 1921

📖 **POLICY GUIDELINES FOR THE DEVELOPMENT AND PROMOTION OF OPEN ACCESS** SWAN, ALMA, UNESCO, 2012-04-10 UNESCO issued this publication to demystify the concept of open access (OA) and to provide concrete steps on putting relevant policies in place. Its focus is on scientific research from peer-reviewed journal articles. Building capacities in member states for open access is a necessary but not sufficient condition for promotion of the concept. Creating an enabling policy environment for OA is therefore a priority. This publication will serve the needs of OA policy development at the government, institutional and funding agency level. The overall objective of the Policy Guidelines is to promote open access in member states by facilitating understanding of all relevant issues related to open access. The guidelines are not prescriptive in nature, but are suggestive to facilitate knowledge-based decision-making to adopt OA policies and strengthen national research systems.
