**Come from Away** Genevieve Graham,2018-04-24 From the bestselling author of Tides of Honour and Promises to Keep comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. *Come from Away* is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

**Samsung Rising** Geoffrey Cain,2020-03-17 An explosive exposé of Samsung that "reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior" (The Wall Street Journal). **LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in *Samsung Rising*, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple's chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple's 80,000 and Google's 48,000). The company's revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea's exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company's headlong attempt to overtake Apple at any cost. A sweeping insider account, *Samsung Rising* shows how a determined and fearless Asian competitor has become a force to be reckoned with.

*Death of a Showman* Mariah Fredericks,2021-04-13 In Mariah Fredericks's *Death of a Showman*, the fourth in this absorbing series set in Gilded Age New York, lady's maid Jane Prescott is thrust into the world of show business, where a killer is stalking Broadway. "A lively upstairs/downstairs mystery."—New York Times Book Review on *A Death of No Importance* It is the summer of 1914 and lady's maid Jane Prescott is back in New York with the Tylers after a glittering society wedding in Europe. On their return, Jane learns another wedding has taken place. Her old dancing partner, Leo Hirschfeld, has married a chorus girl in his new Broadway musical. Jane and Louise Tyler are pulled into the sparkling and scandalous world of Broadway, as a star struck Louise invests in Leo's show, and Jane chaperones her at rehearsals. But behind the glittering facade of the theater, there are rivalries, secret romances, and some very dodgy business practices. When the show's abusive producer, Sidney Warburton, is murdered, the list of suspects is long. Was it the comedic star or her gambler boyfriend? The disgruntled costume designer? The beautiful, blond dancer, her jealous husband? Or was it Leo himself, who had more reason than anyone to hate Sidney Warburton? As the First World war looms in the distance, Jane and tabloid reporter Michael Behan must strip back the masks of these consummate performers before one of them kills again.

*Life According to Monty Dogge* Mt Sanders,2021-09 When Monty the Newfoundland puppy arrived at his new home, it's fair to say he immediately created a big impression. At seven weeks old, he was almost the same size as the rest of his canine family, the three Cocker Spaniels Molly, Poppy and Bailey. For Monty's 'hoomans', who were experiencing life with a giant breed for the first time, everything was about to change. In what seemed like the blink of an eye, he went from cute fluffy puppy to hormone-fuelled hooligan. Every day brought a new - and often chaotic - escapade. It was at this point, back in 2011, that hooman Dad Mark decided to document Monty's life in a Facebook blog. This wasn't just a normal blog, though; this was Monty's world through his eyes. This was life according to Monty Dogge...

**Samsung Electronics** Jack Boepple,2017 Samsung Electronics had experienced a series of quality-related problems, including the recall of one of its LCD TV models. Unfortunately for quality director Kevin Sarni, there was no single root cause behind these problems: Samsung's supply chain management, product design, and testing/quality assurance functions all played a role. Sarni regularly worked with quantitative data from Samsung's customer complaint database, but recently he had been shown comments about Samsung products posted on the website ConsumerAffairs.com. The number and emotional tone of the website postings concerned him; he worried these kinds of complaints might touch off a social media--fueled public relations firestorm that would make his job more difficult. He wanted to analyze this feedback, but had no experience with qualitative data. An internal Six Sigma Black Belt consultant suggested he start by creating an affinity diagram and use that to create a Pareto chart to determine which issues to address first. Once Sarni completed the unfamiliar diagrams he had still another task ahead of him: examining the results to see if they justified taking short-term action to address the quality problems raised in the complaints. After analyzing the case, students should be able to: - Organize and analyze qualitative data using affinity diagrams - Identify priorities using Pareto charts The case reinforces the importance of approaching problem solving in a methodical and data-driven manner and demonstrates the power of visual (vs. table-driven) tools.
