

Strokes Of Genius Federer Nadal And The Greatest M

Brad Hutchins

Strokes of Genius L. Jon Wertheim, 2009-06-01 The executive editor of Sports Illustrated offers an in-depth analysis and behind-the-scenes look at the historic 2008 match between tennis titans. In the 2008 Wimbledon men's final, Centre Court was a stage set worthy of Shakespearean drama. Five-time champion Roger Federer was on track to take his rightful place as the most dominant player in the history of the game. He just needed to cling to his trajectory. So, in the last few moments of daylight, Centre Court witnessed a coronation. Only it wasn't a crowning for the Swiss heir apparent but for a swashbuckling Spaniard. Twenty-two-year-old Rafael Nadal prevailed, in five sets, in what was, according to the author, "essentially a four-hour, forty-eight-minute infomercial for everything that is right about tennis—a festival of skill, accuracy, grace, strength, speed, endurance, determination, and sportsmanship." It was also the encapsulation of a fascinating rivalry, hard fought and of historic proportions. In the tradition of John McPhee's classic *Levels of the Game*, *Strokes of Genius* deconstructs this defining moment in sport, using that match as the backbone of a provocative, thoughtful, and entertaining look at the science, art, psychology, technology, strategy, and personality that go into a single tennis match. With vivid, intimate detail, Wertheim re-creates this epic battle in a book that is both a study of the mechanics and art of the game and the portrait of a rivalry as dramatic as that of Ali-Frazier, Palmer-Nicklaus, and McEnroe-Borg. "Deftly touches on all the

defining factors of contemporary tennis.” –San Francisco Chronicle “Illuminates a kingdom changing hands. An engrossing book.” –Bud Collins

Strokes of Genius L. Jon Wertheim, 2009 In 2008 Wimbledon was a stage set for an epic battle and a rivalry as dramatic as that of Ali–Frazier, Palmer–Nicklaus, and McEnroe–Borg. Five-time champion, Roger Federer, was on track to take his rightful place as the greatest tennis player ever. But in the last few minutes of daylight after a glorious festival of tennis, a coronation was witnessed that was not the heir apparent, but instead the swashbuckling, 22-year-old Nadal. The match had been a four-hour, forty-eight minute infomercial for everything that is right about tennis: a festival of skill, accuracy, grace, strength, speed, endurance and determination. In this fascinating recreation of the game, Wertheim follows Nadal from his cold pre-match shower and insistence on carrying his tennis racket (though surrendering his bag to be carried) onto the court, and a very different, calm, Kit-Kat-eating Federer strolling on in his limited edition cardigan. Not just a battle of two of the greatest tennis players ever, it was a battle of two very different characters. *Strokes of Genius* deconstructs this defining moment in sport, using the match as the backbone of a provocative, thoughtful, and entertaining look at the science, art, psychology, technology, strategy, and personality that go into a single tennis match. For fans of the art of amazing competition in sport, this is a compelling study of the mechanics and art of a legendary game. L. Jon Wertheim is a

senior writer for Sports Illustrated and the author of five books. His work has been featured in The Best American Sports Writing numerous times.

Roger Federer and Rafael Nadal Sebastián Fest, 2018-07-10 Since 2004, two names have dominated men's tennis: Rafael Nadal and Roger Federer. Each player is legendary in his own right. The Spanish Nadal is the winner of sixteen Grand Slam titles, including five consecutive French Open singles titles from 2010-2014, and is the only player ever to win a Grand Slam for ten straight years. Federer, from Switzerland, has spent over three hundred weeks of his career ranked as the number-one player in the world and has won twenty Grand Slam titles and two Olympic medals. But neither player's career would have been nearly as successful without the decade-long rivalry that pushed them to rise to the peak of tennis excellence. Nadal and Federer have met thirty-eight times over the course of their careers, and have shared the distinction of being ranked the two best players in the world for an astounding six years in a row from 2005-2009. In *Roger Federer and Rafael Nadal*, international sports journalist Sebastian Fest uses information gleaned from his numerous interviews with both players over the last decade to narrate the rivalry, and its impact not only on the players, but on the sport itself. Documenting their respective wins and losses, hopes and disappointments, and relationships with their rivals, Fest formulates a unique biography of two of the greatest players of tennis. Skyhorse

Scorecasting Tobias Moskowitz, L. Jon Wertheim, 2012-01-17 In *Scorecasting*, University of Chicago behavioral economist Tobias Moskowitz teams up with veteran Sports Illustrated writer L. Jon Wertheim to overturn some of the most cherished truisms of sports, and reveal the hidden forces that shape how basketball, baseball, football, and hockey games are played, won and lost. Drawing from Moskowitz's original research, as well as studies from fellow economists such as bestselling author Richard Thaler, the authors look at: the influence home-field advantage has on the outcomes of games in all sports and why it exists; the surprising truth about the universally

accepted axiom that defense wins championships; the subtle biases that umpires exhibit in calling balls and strikes in key situations; the unintended consequences of referees' tendencies in every sport to swallow the whistle, and more. Among the insights that Scorecasting reveals: • Why Tiger Woods is prone to the same mistake in high-pressure putting situations that you and I are • Why professional teams routinely overvalue draft picks • The myth of momentum or the hot hand in sports, and why so many fans, coaches, and broadcasters fervently subscribe to it • Why NFL coaches rarely go for a first down on fourth-down situations--even when their reluctance to do so reduces their chances of winning. In an engaging narrative that takes us from the putting greens of Augusta to the grid iron of a small parochial high school in Arkansas, Scorecasting will forever change how you view the game, whatever your favorite sport might be.

You Cannot Be Serious John McEnroe, James Kaplan, 2002-06-10 A no-holds-barred, intimate memoir by John McEnroe--the bad boy of professional tennis. John McEnroe stunned the tennis elite when he came out of nowhere to make the Wimbledon semifinals at the age of eighteen--and just a few years later, he was ranked number one in the world. *You Cannot Be Serious* is McEnroe at his most personal, an intimate examination of Johnny Mac, the kid from Queens, and his "wild ride" through the world of professional tennis at a boom time when players were treated like rock stars. In this "bracing serve-and-volley autobiography" (The Boston Globe) he candidly explores the roots of

his famous on-court explosions; his ambivalence toward the sport that made him famous; his adventures (and misadventures) on the road; his views of colleagues from Connors to Borg to Lendl; his opinions of contemporary tennis; his marriages to actress Tatum O'Neal and pop star Patty Smyth; and his roles as husband, father, senior tour player, and often-controversial commentator.

Fedegraphica: A Graphic Biography of the Genius of Roger Federer Mark Hodgkinson, 2018-05-24

FEDERER is almost universally recognised as the greatest tennis player of all time; he might also be the greatest athlete. Adored around the world, Federer has become one of sport's most iconic and popular figures. In this innovative graphic biography, Federer's genius is explored and celebrated like never before, with beautiful infographics looking at his serving patterns, the speed of his shots, the spin he generates, his movement, as well as his performance in high-pressure situations such as tiebreaks and Grand Slam finals. Federer's astonishing records - no man has won more majors, or spent more weeks as the world number one - are also showcased against his rivals and the legends of the game. Drawing on his conversations with Federer, as well as exclusive interviews with those close to the Swiss, Mark Hodgkinson tells the story of how a young hothead from Basel transformed himself into a calm and poised athlete who came to dominate tennis. And who, while deep in his thirties, has continued to seek improvements, to challenge men many years younger than him and to contend for the sport's biggest prizes. The infographics, stunning

photography and insight and analysis - from Federer's rivals, idols, coaches and members of his inner circle - will give you a new appreciation of his greatness and how his tennis has moved so many people.

The Greatest Tennis Matches of All Time Steve Flink, 2012 Looks at the history of some of the best tennis matches, focusing on breaking down, analyzing, and putting historical context into each match.

A Champion's Mind Pete Sampras, Peter Bodo, 2009-05-26 In *A Champion's Mind*, the tennis great who so often exhibited visible discomfort with letting people "inside his head" finally opens up. An athletic prodigy, Pete resolved from his earliest playing days never to let anything get in the way of his love for the game. But while this determination led to tennis domination, success didn't come without a price. Here for the first time Pete speaks freely about the personal trials he faced—including the death of a longtime coach and confidant—and the struggles he gutted his way through while being seemingly on top of the world. Among the book's most riveting scenes are the devastating early loss that led Pete to make a monastic commitment to the game; fierce on-court battles with Andre Agassi; and the triumphant last match of Pete's career at the finals of the 2002 U.S. Open. A thoroughly compelling read that really probes the hard drive of a champion...All the emotion and insight that Sampras seems reluctant to express during his playing days come spilling forth. —Jon Wertheim, senior writer, *Sports Illustrated*

The Roger Federer Story Rene Stauffer, 2007 Regarded by many as the greatest tennis player in the history of the sport, this authoritative biography is based on many exclusive interviews with Federer and his family as well as the

author's experience covering the international tennis circuit for many years. Completely comprehensive, it provides an informed account of the Swiss tennis star from his early days as a temperamental player on the junior circuit, through his early professional career, to his winning major tennis tournaments, including the U.S. Open and Wimbledon. Readers will appreciate the anecdotes about his early years, revel in the insider's view of the professional tennis circuit, and be inspired by this champion's rise to the top of his game.

The Circuit Rowan Ricardo Phillips, 2018-11-20 Winner of the 2019 PEN/ESPN Award for Literary Sports Writing "The Circuit is the best sports book I've read in years, maybe ever." –Rich Cohen, author of *The Chicago Cubs and Monsters* "As sports writing goes, *The Circuit* is unusual in the very best way. Rowan Ricardo Phillips writes with such fluidity, and packs the book with bursts of brilliance. This is a compulsively readable guide to one truly Homeric year of professional tennis." –John Green, author of *The Fault in Our Stars* An energetic, lyrical, genre-defying account of the 2017 tennis season. In *The Circuit: A Tennis Odyssey*, the award-winning poet—and Paris Review sports columnist—Rowan Ricardo Phillips chronicles 2017 as seen through the unique prism of its pivotal, revelatory, and historic tennis season. The annual tennis schedule is a rarity in professional sports in that it encapsulates the calendar year. And like the year, it's divided

into four seasons, each marked by a final tournament: the Grand Slams. Phillips charts the year from winter's Australian Open, where Roger Federer and Rafael Nadal renewed their rivalry in a match for the ages, to fall's U.S. Open. Along the way, Phillips paints a new, vibrant portrait of tennis, one that captures not only the emotions, nerves, and ruthless tactics of the point-by-point game but also the quicksilver movement of victory and defeat on the tour, placing that sense of upheaval within a broader cultural and social context. Tennis has long been thought of as an escapist spectacle: a bucolic, separate bauble of life. The Circuit will convince you that you don't leave the world behind as you watch tennis—you bring it with you.

Blood in the Cage L. Jon Wertheim, 2009 Based on unlimited access to the Ultimate Fighting Championship and its rival leagues, *Blood in the Cage* peers through the chain-link Octagon into the frighteningly seductive world of mixed martial arts.

A Terrible Splendor Marshall Jon Fisher,2010-04-20 Before Federer versus Nadal, before Borg versus McEnroe, the greatest tennis match ever played pitted the dominant Don Budge against the seductively handsome Baron Gottfried von Cramm. This deciding 1937 Davis Cup match, played on the hallowed grounds of Wimbledon, was a battle of titans: the world's number one tennis player against the number two; America against Germany; democracy against fascism. For five superhuman sets, the duo's brilliant shotmaking kept the Centre Court crowd—and the world—spellbound. But the match's significance extended well beyond the immaculate grass courts of Wimbledon. Against the backdrop of the Great Depression and the brink of World War II, one man played for the pride of his country while the other played for his life. Budge, the humble hard-working American who would soon become the first man to win all four Grand Slam titles in the same year, vied to keep the Davis Cup out of the hands

of the Nazi regime. On the other side of the net, the immensely popular and elegant von Cramm fought Budge point for point knowing that a loss might precipitate his descent into the living hell being constructed behind barbed wire back home. Born into an aristocratic family, von Cramm was admired for his devastating good looks as well as his unparalleled sportsmanship. But he harbored a dark secret, one that put him under increasing Gestapo surveillance. And his situation was made even more perilous by his refusal to join the Nazi Party or defend Hitler. Desperately relying on his athletic achievements and the global spotlight to keep him out of the Gestapo's clutches, his strategy was to keep traveling and keep winning. A Davis Cup victory would make him the toast of Germany. A loss might be catastrophic. Watching the mesmerizingly intense match from the stands was von Cramm's mentor and all-time tennis superstar Bill Tilden—a consummate showman whose double life would run in ironic counterpoint to that of his German pupil. Set at a time when sports and politics were inextricably linked, *A Terrible Splendor* gives readers a courtside seat on that fateful day, moving gracefully between the tennis match for the ages and the dramatic events leading Germany, Britain, and America into global war. A book like no other in its weaving of social significance and athletic spectacle, this soul-stirring account is ultimately a tribute to the strength of the human spirit.

His stories from life on the road capture the adventures and mishaps that come with following the world's best tennis players and partying in a new country every week. But like card counters in casinos, court-siders are despised by the tennis establishment. The more time Brad spends at tournaments, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from matches. The resulting cat-and-mouse chases will appeal to anyone who loves the roguish spirit of *The Wolf of Wall Street* or *Catch Me If You Can*. Brad Hutchins spent his youth playing sports and travelling the world, before finding his dream job as a tennis trader. Born and raised in Brisbane, he has lived and worked in the UK and Canada, and now teaches primary school students on the Gold Coast. *Game, Set, Cash!* is his first book.
