**Mordecai Z. Dzikansky, Robert Slater**

**Terrorist Cop** Mordecai Dzikansky, Robert Slater, 2015-12-07 The biography of New York cop Morty Dzikansky, who has travelled the world to monitor and to help prevent terrorism. *Terrorist Cop* is a colourful, haunting and highly graphic tale of New York City homicide detective Morty Dzikansky. Post 9/11, the NYPD sent Dzikansky to Israel to monitor suicide bombings as part of Commissioner Ray Kelly's plan to protect New York from further terror, which led him to become an expert on suicide bombings. A riveting police biography as well as an insider's view on the War on Terror.

**Terrorist Cop** Mordecai Z. Dzikansky, Robert Slater, 2010 Post 9/11, the NYPD sent homicide detective Dzikansky to Israel to monitor suicide bombings as part of Commissioner Ray Kelly's plan to protect New York from further terror, which led to him becoming an expert on suicide bombings.

*Rookie Cop* Richard Rosenthal, 2000 The Jewish Donnie Brasco An untrained New York City cop infiltrates Meir Kahane's Jewish Defense League.

*Terrorist Suicide Bombings* Mordecai Dzikansky, Gil Kleiman, Robert Slater, 2011-10-10 Urban environments are prime targets for suicide bombings over the next decade. While the threat may be ever-present, measures are available that can empower law enforcement personnel to thwart attacks, or at least mitigate the effects by reducing casualties. Written by professionals with first-hand experience, *Terrorist Suicide Bombings: Attack Interdiction, Mitigation, and Response* helps first responders, law enforcement, and

homeland security professionals grapple with this increasing threat, offering best practices in the field and lessons learned. Advance preparation The authors provide specific instructions on how to fortify possible suicide bombing targets, suggesting measures that—if implemented—will reduce casualties. They explain how suicide bombers operate and what weapons they are likely to employ. They also debunk common myths about suicide bombers that jeopardize successful interdiction. Actual case studies Including graphic photos depicting the aftermath of actual bombing scenes, the book projects the reader into the chaos of a bomb scene. Chapters describe what one encounters at a site immediately after a bombing and explain what each first responder should and should not do. Case studies throughout enhance the text, explaining why certain suicide bombings succeed while others fail. Psychological effects The book also explores how terrorists seek to exploit the media and describes government and media efforts to diffuse the bombers' self-promotion. A full chapter is devoted to post-traumatic stress disorder (PTSD), a condition that commonly affects many first responders. Finally, the book closes with recommendations aimed at helping law enforcement defend against suicide bombers.

*Jihad in Brooklyn* Samuel M. Katz, 2005-01-04 The true story of a potentially devastating terrorist plot in New York City—and the heroes who risked their lives to prevent it. On the morning of July 31, 1997, two young Palestinian men living in Brooklyn, New York, were prepared to sacrifice

themselves as martyrs to their bloody cause. Their plan—to board a subway filled with commuters, wait until the train was traveling through the tunnel under the East River, and then detonate a shrapnel-covered explosive belt they had built in their tenement apartment. The attack would have killed hundreds, possibly even thousands, while sending the city—and the country—into a state of panic. This is the inspiring, startling, and frightening true story of how the NYPD learned of the impending attack and made a daring predawn raid on the terrorist hideout. The gripping series of events began with an Egyptian immigrant who, learning of the plan, alerted the police. Coordinating an assault with limited resources and manpower, seven brave members of the NYPD moved in—reaching the terrorists when they literally had their fingers on the trigger—saving countless lives, preventing a disaster that would have paralyzed New York City, and alerting the nation that, in today's world, violence and terror could begin at home.

Jews in Blue Jack Kitaeff, 2006 This is the first book to describe the significant and critical contributions of Jewish Americans to law enforcement and police work beginning as early as 1657 in New Amsterdam. It portrays Jewish American men and women in the police departments of New York City and Los Angeles, the Drug Enforcement Agency, and the Department of Homeland Security who stepped forward in momentous times to save the nation from peril. Combining first hand interviews with penetrating contextual research, this book illuminates the heroes of the past and present who

share a common Jewish America heritage. Hailed as an invaluable resource, a special hardcover edition of this book is also available that includes a Foreword by Dr. Harvey Schlossberg, Associate Professor of Criminal Justice, St. John's University.

*Enemies Within* Matt Apuzzo, Adam Goldman, 2014-09-16 Reveal the strengths and weaknesses of the nation's counterterrorism measures by tracing New York Police Commissioner Ray Kelly's antiterrorist plan for the city, and concludes that the nation has yet to develop effective strategies.

**Brooklyn to Baghdad** Christopher Strom, Jerome Preisler, Michael Benson, 2019 The true story of a retired NYPD intelligence sergeant who applies his street-cop tactics and interrogation skills against a lethal insurgency that had infected Iraq--

Seven Shots Jennifer C. Hunt, 2010-09-15 On July 31, 1997, a six-man Emergency Service team from the NYPD raided a terrorist cell in Brooklyn and narrowly prevented a suicide bombing of the New York subway that would have cost hundreds, possibly thousands of lives. *Seven Shots* tells the dramatic story of that raid, the painstaking police work involved, and its paradoxical aftermath, which drew the officers into a conflict with other rank-and-file police and publicity-hungry top brass. Jennifer C. Hunt draws on her personal knowledge of the NYPD and a network of police contacts extending from cop to four-star chief, to trace the experience of three officers on the Emergency Service entry team and the two

bomb squad detectives who dismantled the live device. She follows their lives for five years, from that near-fatal day in 1997, through their encounters inside the brutal world of departmental politics, and on to 9/11, when they once again put their lives at risk in the fight against terrorism, racing inside the burning towers and sorting through the ash, debris, and body parts. Throughout this fast paced narrative, Hunt maintains a strikingly fine-grained, street-level view, allowing us to understand the cops on their own terms—and often in their own words. The result is a compelling insider's picture of the human beings who work in two elite units in the NYPD and the moral and physical danger and courage involved. As gripping as an Ed McBain novel—and just as steeped in New York cop culture and personalities—*Seven Shots* takes readers on an unforgettable journey behind the shield and into the hearts of New York City police.

Bomb Squad Richard Esposito, 2010-07-05 An unprecedented behind-the-scenes look at the men who protect us from the most frightening prospect of life in the age of terrorism In my mind it's all business; I don't worry about my family, I don't worry about a function that I'm doing after work, I just worry about what's at hand. And what's at hand is that package. --Detective First Grade Joe Putkowski, NYPD Bomb Squad The New York City Police Department Bomb Squad is the oldest such squad in the nation, founded in 1903. Each year its thirty-three members make more than two hundred stress-filled bomb runs, in which they

check suspicious briefcases, defuse hand grenades, and even respond to art projects constructed with real explosives. The public rarely sees these men--and when they do, it's usually from a distance, telephoto pictures of helmeted figures in ninety-pound suits of Kevlar armor. Starting on December 31, 2003, in the heart of the New Year's Eve action in Times Square, journalists Richard Esposito and Ted Gerstein had exclusive access to the nation's most elite police unit for an entire year. Their often chilling, never-before-told tales from the front line provide an extraordinary view of the domestic war on terrorism.

Securing the City Christopher Dickey, 2009-02-03  
The NYPD is the best and most ambitious antiterror operation in the world. Its seat-of-the-pants intelligence is the gold standard for all others. Christopher Dickey, who has reported on international terrorism for more than twenty-five years, takes readers into the secret command center of the New York City Police Department's counterterrorism division, then onto the streets with cops ready for the toughest urban combat the twenty-first century can throw at them. But behind the tactical shows of force staged by the police, there lies a much more ambitious and controversial strategy: to go anywhere and use almost any means to keep the city from becoming, once again, Ground Zero. This is the story of the coming war in America's cities and New York's shadow war, waged around the globe to stop it before it begins. Drawing on unparalleled access to Police Commissioner Ray Kelly and other top officials, Dickey explores the most ambitious intelligence

operation ever organized by a metropolitan police department. Headed by David Cohen, who ran the CIA's operations inside the United States in the 1980s and its global spying in the 1990s, the NYPD's counterterrorism division had uptothemminute details of new attacks set in motion to target Manhattan in 2002 and 2003. New York's finest are now seen by other police chiefs in the United States as the gold standard for counterterrorism operations and a model for even the FBI and the Department of Homeland Security. Yet as New Yorkers have come to feel safer, they've also grown worried about the NYPD's methods: sending its undercover agents to spy on Americans in other cities, rounding up hundreds of protesters preemptively before the 2004 Republican convention, and using confidential informants who may be more adept at plotting terror than the people they finger. Securing the City is a superb investigative reporter's stunning look inside the real world of cops who are ready to take on the world and at the ambiguous price we pay for the safety they provide.

**Terror in Black September** David Raab, 2007-09-04  
On Sunday, September 6, 1970, the Popular Front for the Liberation of Palestine (PFLP) hijacked four airliners bound from Europe for New York. One, a brand new Pan Am 747, was taken to Cairo and blown up only seconds after its passengers escaped. The attempt to hijack a second plane, an El Al flight, was foiled and the plane landed safely in the UK. Two other planes, one TWA and one Swissair, were directed to the desert floor

thirty-five miles northeast of Amman, Jordan, where a twenty-five day hostage drama began. With the additional hijacking of a British airliner, over four hundred and fifty hostages had landed in the Jordanian desert. David Raab was on the TWA flight with his mother and siblings but was separated from them and taken to a refugee camp and then to an apartment in Amman where he was held hostage through a civil war. This is his story.

*COP HUNTER* Vincent Murano, William Hoffer, 1990-07-15 Murano presents the dramatic story of his undercover investigations for the NYPD Internal Affairs Department and reveals for the first time the chilling amount of corruption he found.

*The NYPD's Flying Circus* Vic Ferrari, 2019-06-25 Did you know that NYPD stands for New York Police Department? Of course you did! But did you know that there was once a legendary detective named El Diablo whose out-of-control lifestyle included stealing a horse and carriage for a wild ride through Central Park? Or the rookie cop whose unusual talent of farting on demand disrupted the police academy? How about the handcuffed Houdini crackhead who escaped from the back seat of a police car? The New York City Police Department is the largest police agency in the United States, with over 35,000 members. A police force that large is going to have more than a few colorful characters and unbelievable stories. Retired NYPD Detective Vic Ferrari takes you behind the scenes

as he peels back the onion, revealing the good, the bad, and the ugly of the New York City Police Department. The NYPD's Flying Circus picks up where NYPD: Through the Looking Glass left off in this controversial tell-all sequel. The NYPD's Flying Circus is an introspective, behind-the-scenes look into the New York City Police Department. Cops, crime and chaos are sarcastically woven together through the eyes of a retired NYPD detective, exposing the funnier side of the NYPD—a fascinating history lesson wrapped in personal anecdotes covering a twenty-year law enforcement career. If you enjoy Live PD, are fascinated with police work, or ever wondered what it was like to be a member of the NYPD, you've picked up the right book.

**Lone-Actor Terrorism** Jacob C. Holzer, Andrea J. Dew, Patricia R. Recupero, Paul Gill, 2022  
Contemporary lone-actor terrorism is a complex, multi-dimensional process, involving different contexts, ideologies, geographic regions, circumstances, drives, individuals, and modes of violence. Despite the complexity behind a violent incident, the outcome unfortunately is quite simple - harm and devastation to victims, families, and society. The purpose of this book is to explore lone-actor terrorism from different but complementary vantage points. One important focus is on the variability of clinical and forensic mental health concerns. In addition, this book explores other aspects of lone-actor terrorism, including law enforcement and homeland security, risk and threat assessment, geography, ethical

considerations, and legal issues. Lone-actor terrorism does not happen in a vacuum. In the context of a given set of conditions, stressors, and rhetoric, many people will think about acting in some form of opposition, vocalize their disagreement or outrage, protest, and vote, in order to effect change. A very small number of individuals, however, think they have to 'take matters in their own hands' and act violently in order to effect change--
