A Fair Country John Ralston Saul, 2009-09-22 In this startlingly original vision of Canada, renowned thinker John Ralston Saul argues that Canada is a Métis nation, heavily influenced and shaped by Aboriginal ideas: Egalitarianism, a proper balance between individual and group, and a penchant for negotiation over violence are all Aboriginal values that Canada absorbed. An obstacle to our progress, Saul argues, is that Canada has an increasingly ineffective elite, a colonial non-intellectual business elite that doesn't believe in Canada. It is critical that we recognize these aspects of the country in order to rethink it's future.

City Sustainability and Regeneration S. Mambretti, J. L. Miralles i Garcia, 2020-04-28 A set of new studies are included in this volume which provides solutions that lead towards sustainability. Contributions originate from a

diverse range of researchers, resulting in a variety of topics and experiences. Urban areas face a number of challenges related to reducing pollution, improving main transportation and infrastructure systems and these challenges can contribute to the development of social and economic imbalances and require the development of new solutions. The challenge is to manage human activities, pursuing welfare and prosperity in the urban environment, whilst considering the relationships between the parts and their connections with the living world. The dynamics of its networks (flows of energy matter, people, goods, information and other resources) are fundamental for an understanding of the evolving nature of today's cities. Large cities represent a productive ground for architects, engineers, city planners, social and political scientists able to conceive new ideas and time them according to technological advances and human requirements. The multidisciplinary components of urban planning, the challenges presented by the increasing size of cities, the amount of resources required and the complexity of modern society are all addressed.

How to Change Your Mind Michael

Pollan, 2019-05-14 Now on Netflix as a 4-part documentary series! "Pollan keeps you turning the pages . . . clear-eyed and assured." —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs-- and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have

surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's mental travelogue is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Alan Partridge: Nomad Alan Partridge, 2016-10-20
As seen on This Time with Alan Partridge on BBC One. THE SUNDAY TIMES BESTSELLER Praise for *Nomad*: 'Funniest book of the year' Sunday Telegraph 'Alan Partridge's *Nomad* is almost certainly the funniest book ever written' Caitlin Moran 'Sensationally funny. What brilliant writing' Richard Osman 'Sensational' Jenny Colgan 'Hilarious' Jon Ronson 'Brilliantly funny' Marcus Brigstocke In *ALAN PARTRIDGE: NOMAD*, Alan dons his boots, windcheater and scarf and embarks on an odyssey through a place he once knew - it's called Britain - intent on completing a journey of immense personal significance. Diarising his ramble in the form of a 'journey journal', Alan details the people and places he encounters, ruminates on matters large and small and, on a final leg fraught with danger, becomes - not a man (because he was one to start off with) - but a better, more inspiring example of a man. This deeply personal book is divided into chapters and has a colour photograph on the front cover. It is deeply personal. Through witty vignettes, heavy essays and nod-inducing pieces of wisdom, Alan shines a light on the nooks of the nation and the crannies of himself, making this a biography that biographs the biographer while also biographing bits of Britain.
