The Silk Road Rediscovered Anil K. Gupta,Girija Pande,Haiyan Wang,2014-04-07 A roadmap for understanding the business challenges and opportunities in China By 2025, China and India will be two of the world's four largest economies. By then, economic ties between them should also rank among the ten most important bilateral ties worldwide. Their leaders are well aware of these emerging realities. In May 2013, just two months after taking charge, Premier Li Keqiang left for India on his first official trip outside China, a clear signal of China's foreign policy priorities. The Silk Road Rediscovered is the first book ever to analyze the growing corporate linkages between India and China. Did you know that: India's Mahindra is the fifth largest tractor manufacturer in China? Tata Motors' Jaguar Land Rover unit is the fastest growing luxury auto seller in China? India's NIIT is the most influential IT training brand in China? China's Huawei has its second largest R&D center in Bangalore and employs over 5000 people in India? Shanghai Electric earns its largest revenues outside China from India? As these developments illustrate, pioneering Indian and Chinese companies are rediscovering the fabled Silk Road which joined their nations in ancient times. Winning in each other's markets is also making them stronger and whetting their appetite for further global expansion. This book examines how Indian companies such as Tata Consultancy Services, Mahindra Tractors, NIIT, Tata Motors/Jaguar Land Rover and Sundaram Fasteners have figured out how to win in China. Their experiences may inspire and offer lessons to other Indian companies. The book also examines how Chinese pioneers such as Lenovo, Huawei, TBEA, Haier and Xinxing have made a strong commitment to India and are beginning to realize the fruits of this commitment. The key lessons that emerge from these analyses are: the odds of success go up dramatically when executives adopt a global rather than local-for-local perspective and are skillful at learning on the ground.

Global Strategies for Emerging Asia Anil K. Gupta,Toshiro Wakayama,U. Srinivasa Rangan,2012-05-23 The multinational corporate guide for thriving in the Asian marketplace Led by China and India, the rise of emerging Asia is transforming the structure of the global economy. By 2025, if not sooner, China will almost certainly overtake the U.S. to become the world's largest economy. By then, India is likely to have overtaken Japan to become the world's third largest economy, after China and the U.S. Besides China and India, Asia also includes other fast-growing economies such as Indonesia, Malaysia, Philippines, Thailand, and Vietnam. Added together, by 2025, these developments are likely to make Asia's economy larger than those of the U.S. and Europe combined. It is clear that, for every large company, leadership in Asia is rapidly becoming critical for leadership globally. This important resource brings together the latest ideas and in-depth case analyses from leading academics and practitioners to provide a comprehensive guide to succeeding in Asia. Explores how to develop a strategy to benefit from new patterns of 21st century trade Explains how companies can fight and win against low-cost competition from Asian companies Shows how to transfer homegrown management practices to Asia Reveals how to safeguard the company's intellectual property in China Brings to light how to leverage India as a platform to revitalize the company's innovation capabilities A resource for competing in today's international market, this book offers executives and managers a guide for navigating the new global reality—that of Asia as the world's emerging center of gravity.

The HP Way David Packard,2013-10-15 In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.

The Quest for Global Dominance Anil K. Gupta,Vijay Govindarajan,Haiyan Wang,2015-01-12 Anil K. Gupta, Vijay Govindarajan, and Haiyan Wang are among the most distinguished experts in the field of globalization. In *The Quest for Global Dominance* they present the lessons from their twenty-year study of over two hundred corporations. They argue that, in order for a company to create and maintain its position as a globally dominant player, executives must ensure that their company leads its industry in the following four essential tasks: Identifying market opportunities worldwide and pursuing them by establishing the necessary presence in all key markets Converting global presence into global competitive advantage by identifying and developing the opportunities for value creation that global presence offers Cultivating a global mindset by viewing cultural and geographic diversity as an opportunity, not just a challenge Leveraging the rise of emerging markets especially China and India to transform the company's growth prospects, global cost structure, and pace of innovation

A Time to Deceive Ronan Farrell,2019-03 Two men with interlaced secrets, both with a need to deceive. One keeps a low profile concealing his deepest secrets, the least of which is a cadaver in his freezer. The other, the British Prime Minister, against a background of increasing global political crisis, must keep his subterfuge from the world, the stakes are too high.

Non-Governmental Organizations and the State in Latin America Anthony Bebbington,Graham Thiele,2023-06-09 This presents twenty specially commissioned case studies of farmer participatory approaches to agricultural innovation initiated by NGOs in Latin America. Beginning with a broad review of institutional activity at the grassroots, the authors set the case material within the context of NGO relations with the State and their contribution to democratisation and the consolidation of rural civil society. Specific questions are raised: how good/bad are NGOs at promoting technological innovation and addressing constraints to change in present agriculture?; how effective are NGOs at strengthening grassroots organizations? and how do/will donor pressures influence NGOs and their links to the State? This title is part of a series on Non-Governmental Organizations co-ordinated by the Overseas

Development Institute. To complete this comprehensive review and critique there are two other regional case study volumes on Asia and Africa and an overview volume, *Reluctant Partners?*

The Motivation Assessment Scale (MAS) V. Mark Durand, Daniel B. Crimmins, 1992-06-01

Chelsea Chelsea Bang Bang Chelsea Handler, 2010-04-01 In these personal essays, the hilarious comedian and Chelsea Lately host reflects on family, love life, and the absurdities of adulthood with cheeky candor and signature wit (*Philadelphia Inquirer*). Life doesn't get more hilarious than when Chelsea Handler takes aim with her irreverent wit. Who else would send all-staff emails to smoke out the dumbest people on her show? Now, in this new collection of original essays, the #1 bestselling author of *Are You There, Vodka? It's Me, Chelsea* delivers one laugh-out-loud moment after another as she sets her sights on the ridiculous side of childhood, adulthood, and daughterhood. Family moments are fair game, whether it's writing a report on Reaganomics to earn a Cabbage Patch doll, or teaching her father social graces by ordering him to stay indoors. It's open season on her love life, from playing a prank on her boyfriend (using a ravioli, a fake autopsy, and the Santa Monica pier) to adopting a dog so she can snuggle with someone who doesn't talk. And everyone better duck for cover when her beach vacation turns into matchmaking gone wild. Outrageously funny and deliciously wicked, *Chelsea Chelsea Bang Bang* is good good good! Chelsea Handler on . . . Being unpopular: My parents couldn't have been more unreasonable when it came to fads or clothes that weren't purchased at a pharmacy. Living with her boyfriend: He's similar to a large toddler, the only difference being he doesn't cry when he wakes up. Appreciating her brother: He's a certified public accountant, and I have a real life. Arm-wrestling a maid of honor: It wasn't her strength that intimidated me. It was the starry way her eyes focused on me, like Mike Tyson getting ready to feed.

Getting China and India Right Anil K. Gupta, Haiyan Wang, 2009-03-30 This book is the first strategic guide for multi-national corporations (MNCs) who are contemplating expanding into both China and India. Gupta and Wang explain how many MNCs view China and India solely from the lens of off-shoring and cost-reduction, and focusing their marketing strategies on only the top 5-10% of the population. This is a missed opportunity. China and India are the only two countries that constitute four realities that are strategically crucial for the global enterprise: Both provide mega-markets for almost every product and service Both have platforms that will dramatically reduce the company's global cost structure Both have platforms that will significantly boost the company's global technology and innovation base Both are springboards for the emergence of new fearsome global competitors. This book aims to shed light on the brutal competition for markets and resources in China and India as well as lays out the strategic action implications for those companies who want to emerge as the global players of tomorrow.

Explorers and the New World Eugene M. Wait, 2002 Being an explorer is not for the squeamish and exploring the new world brought front and centre particular types of characters. Each of the explorers described in this work was quite different, yet they shared the yearning to find something new and if necessary, to risk everything on the venture. Even though history records them as explorers they most likely considered themselves as adventurers. This engaging volume lifts us effortlessly through the centuries to a day when verve and daring were called for on a daily basis.

Shortest Way Home Pete Buttigieg, 2019-06-13 'The best American political biography since Obama's *Dreams from My Father*' *Guardian* NEW YORK TIMES BESTSELLER A mayor's inspirational story of a Midwest city that has become nothing less than a blueprint for the future of American renewal. Once described by the *Washington Post* as the most interesting mayor you've never heard of, Pete Buttigieg, the thirty-seven-year-old mayor of South Bend, Indiana, has now emerged as one of America's most visionary politicians. With soaring prose that celebrates a resurgent American Midwest, *Shortest Way Home* narrates the heroic transformation of a dying city (*Newsweek*) into nothing less than a shining model of urban reinvention. Elected at twenty-nine as the nation's youngest mayor, Pete Buttigieg immediately recognized that great cities, and even great nations, are built through attention to the everyday. As *Shortest Way Home* recalls, the challenges were daunting: whether confronting gun violence, renaming a street in honour of Martin Luther King Jr., or attracting tech companies to a city that had appealed more to junk bond scavengers than serious investors. None of this is underscored more than Buttigieg's audacious campaign to reclaim 1,000 houses, many of them abandoned, in 1,000 days and then, even as a sitting mayor, deploying to serve in Afghanistan as a Navy officer. Yet the most personal challenge still awaited Buttigieg, who came out in a *South Bend Tribune* editorial, just before being re-elected with 78 percent of the vote, and then finding Chasten Glezman, a middle-school teacher, who would become his partner for life. While *Washington* reels with scandal, *Shortest Way Home*, with its graceful, often humorous, language, challenges our perception of the typical American politician. In chronicling two once-unthinkable stories, that of an Afghanistan veteran who came out and found love and acceptance, all while in office, and that of a revitalized Rust Belt city no longer regarded as flyover country Buttigieg provides a new vision for America's shortest way home.
