**The Korean Automotive Industry, Volume 2** A.J. Jacobs,2023-09-25 This volume chronicles the maturation of the South Korean auto industry and its native automakers, from the 1997 Asian Crisis to 2019. After examining the context for domestic vehicle production in South Korea, the author presents multiple case studies for all five Korean automakers: General Motors Korea/Daewoo Motors, Kia, Hyundai, Ssangyong and Renault Samsung. This includes coverage of Hyundai-Kia's foreign plants in North America, Europe, India, China, and Emerging Asia. The book closes by assessing the five-to-ten-year future outlooks for Korean automakers at home and abroad. This important work will prove informative to scholars of business, management, automotive history, international development, Asian studies, and public administration.

**Moon and the Mars** Kia Corthron,2021-09-07 An exploration of NYC and America in the burgeoning moments before the start of the Civil War through the eyes of a young, biracial girl—the highly anticipated new novel from the winner of the Center for Fiction's First Novel Prize. Corthron, a true heir to James Baldwin, presents a startlingly original exposure of the complex roots of American racism. —Naomi Wallace, MacArthur Genius Playwriting Fellow and author of *One Flea Spare* In *Moon and the Mars*, set in the impoverished Five Points district of New York City in the years 1857-1863, we experience neighborhood life through the eyes of Theo from childhood to adolescence, an orphan living between the homes of her Black and Irish grandmothers. Throughout her formative years, Theo witnesses everything from the creation of tap dance to P.T. Barnum's sensationalist museum to the draft riots that tear NYC asunder, amidst the daily maelstrom of Five Points work, hardship, and camaraderie. Meanwhile, white America's attitudes towards people of color and slavery are shifting—painfully, transformationally—as the nation divides and marches to war. As with her first novel, *The Castle Cross the Magnet Carter*, which was praised by Viet Thanh Nguyen, Robin D.G. Kelley, and Angela Y. Davis, among many others, Corthron's use of dialogue brings her characters to life in a way that only an award-winning playwright and scriptwriter can do. As Theo grows and attends school, her language and grammar change, as does her own vocabulary when she's with her Black or Irish families. It's an extraordinary feat and a revelation for the reader. *Moon and the Mars*, [Corthron's] latest masterpiece, is an absorbing story of family and community, of Africans and Irish, of settler and native, of slavery and abolition, of a city and a nation wracked by Civil War and racist violence,

of love won and lost. –Robin D. G. Kelley, author of *Thelonious Monk: The Life and Times of an American Original*

**How to Play Against 1e4** Neil McDonald, It's not easy finding a good opening to play against 1 e4, especially if you don't have endless time available to study the latest theoretical developments. If you choose fashionable openings, it's often a necessity to keep pace with modern theory if you want to succeed with Black. This book provides a solution. Neil McDonald advocates his favourite opening - the very popular French Defence - but chooses a repertoire for Black that requires only the minimum amount of move memorization. The lines he selects are very easy to learn and play - perfect for those who are unwilling to be slaves to opening theory. But there's also something here for more experienced players, as McDonald goes on to offer a second repertoire based on counter-attacking lines against 3 Nc3 and 3 Nd2. \*An easy-to-learn defence against 1 e4\*Provides solutions to all of White's options\*Written by a world-renowned expert on the French\*Ideal for improvers, club players and tournament players English Grandmaster Neil McDonald is an experienced and successful player on the international chess circuit. He is a respected chess coach, who has trained many of the UK's strongest junior players. McDonald is also a talented chess writer and has many outstanding works to his name.

Will she finally find her happily ever after—and her own voice? “A delightful debut, perfect for any person who’s ever created their own place to belong.”—Casey McQuiston, bestselling author of *Red, White & Royal Blue* and *One Last Stop* FINALIST FOR THE LAMBDA LITERARY AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Book Riot Amy, a semicloseted queer baker and bartender in mid-2010s Oklahoma, has spent a lifetime putting other people’s needs before her own. Until, that is, she’s fired from her job at a Christian bakery and turns her one-off gig subbing in for a bridesmaid into a full-time business, thanks to her baking talents, crafting skills, and years watching rom-coms and *Say Yes to the Dress*. Between her new gig and meeting Charley, the attractive engineer who’s just moved to Tulsa, suddenly Amy’s found something—and someone—she actually wants. Her tight-knit group of chosen family is thrilled that Amy is becoming her authentic self. But when her deep desire to please kicks into overdrive, Amy’s precarious balancing act strains her relationships to the breaking point, and she must decide what it looks like to be true to herself—and if she has the courage to try.

**Take It Back** Kia Abdullah, 2020-12-08 From author Kia Abdullah, *Take It Back* is a harrowing and twisting courtroom thriller that keeps you guessing until the last page is turned. One victim. Victims like Jodie Wolfe. When Jodie, a sixteen-year-old girl with facial deformities, accuses four boys in her class of an unthinkable crime, the community is torn apart. After all, these four teenage defendants are from hard-working immigrant families and they all have proven alibis. Even Jodie's best friend doesn't believe her. But Zara does—and she is determined to fight for Jodie—to find the truth in the face

of public outcry. And as issues of sex, race and social justice collide, the most explosive criminal trial of the year builds to a shocking conclusion.

**Researching with Care** Tula Brannelly, Marian Barnes, 2022-10-24 What are the implications of caring about the things we research? How does that affect how we research, who we research with and what we do with our results? Proposing what Joan C. Tronto has called a 'paradigm shift' in research thinking, this book invites researchers across disciplines and fields of study to do research that thinks and acts with care. The authors draw on their own and others' experiences of researching, the troubles they encounter and the opportunities generated when research is approached as a caring practice. Care ethics provides a guide, from starting out, designing and conducting projects to thinking about research legacies. It offers a way in which research can help repair harms and promote justice.

**Modeling and Forecasting of Staffing in Civil Aviation** Anzhela Borzova, Yuri Chinyuchin, Vadim Vorobyov, Dmitry Zatuchny, 2022-12-12 This book highlights issues related to the organization and improvement of the efficiency of training system in technical operation of radio-electronic equipment currently used in civil aviation. The increasing intensity of air traffic around the world leads to a quantitative increase in old problems and the emergence of qualitatively new ones that can only be solved by trained

people, whose training process should be carried out on a systematic basis. Modern approaches to improving the human resources potential of civil aviation, as a rule, are based only on modernizing the management mechanisms of the training system. One of the main advantages of this book is the unique integrated approach to building a system for training aviation personnel in the field of technical operation of radio-electronic equipment and air traffic control, which consists in taking into account various factors that affect the training of specialists, promising areas of development of civil aviation based on the analysis of various guidance documents and the construction of mathematical models that give a qualitative assessment of existing methods and the proposed new methodology. The book contains a large amount of visual illustrative material showing the existing structure of the system of training in the field of civil aviation.

**Visages of Geodiversity and Geoheritage** L. Kubalíková, P. Coratza, M. Pál, Z. Zwoliński, P.N. Irapta, B. van Wyk de Vries, 2023-07-06 Geodiversity and geoheritage are emerging topics within the geosciences that are increasingly interconnected to biodiversity research and the humanities through the intersection between Earth and culture. Understanding, recognizing and conserving geodiversity is important for various domains, including geology, geomorphology, geography, ecology, conservation and land management. Geodiversity helps preserve Earth's geoheritage, support biodiversity, manage geohazards and promote sustainable land use. Geoheritage also connects with

geotourism development and is integral to territorial development studies. This volume showcases theoretical research and case studies prepared by a stimulating selection of early career scientists alongside experienced researchers. The first part of this book is dedicated to conceptual chapters on geodiversity that consider its links to other studies. The second and third sections present an integrated view of geodiversity, geoheritage and landscape through their management and conservation. This volume charts the diversity of research and those working in the field of geodiversity and geoheritage. Through these multidisciplinary perspectives, we invite emerging and early researchers to continue the conversation and strengthen this dynamic field of study.

*Environmental Issues and Social Inclusion in a Sustainable Era* R. Iqbal Robbie, Ali Roziqin, Shannaz Mutiara Deniar, Ardik Praharjo, Kenny Roz, 2023-10-24 The Sustainable Development Goals (SDG) and the Paris Climate Agreement are examples of initiatives where countries show recognition of their interconnected interests and goals. This is particularly evident in the case of global environmental issues because they require global decision-making. The emergence of global environmental issues such as climate change, marine pollution and biodiversity loss has brought new challenges to governance and requires political support and innovation of global public policies. In addition, many social problems arise because of the environmental crisis. *Environmental Issues and Social Inclusion in a Sustainable Era* discusses environmental and social inclusion in a socio-economic perspective. The contributions analyse the management of global environmental problems at local, national and international levels, with a special focus on multilevel governance, innovative public policies, and economic development finance and business. **South Korea's Origins and Early Relations with the United States** Hyeonji Cha, Hyun Jin Kim, 2022-04-28 Bringing a fresh perspective to an understudied area, this book offers a critical, source-based examination and assessment of the roles of the Provisional Government of the Republic of Korea (KPG) and the US during World War II in the rebirth of Korea as a nation state. Presenting original research from contemporary Korean and American sources, the first half of this book explores how the US policy regarding the independence of the Korean peninsula was articulated by the US, and how it aimed to prevent the domination of Korea by either China or the Soviets. Chapters 4 and 5 introduce the US's policy of utilizing Korean soldiers on the battlefield against Japan, and examines whether the KPG's strategies of military diplomacy were effective or otherwise. Finally, Chapter 6 assesses the impact of the joint military training for the Eagle Project involving the Korean independence Army and the US Office of Strategic Services, and its impact on the development of the US-South Korea alliance. Throughout the book, parallels can be drawn from this geopolitical struggle with a more contemporary one – that between China and the US, which shows how the lessons learned in the 1940s are just as relevant to researchers and policy-makers today. This is an illuminating read for students and scholars of Korean modern history, political science and geopolitics of the Asia-Pacific region more generally. The book will also appeal to public servants in the area of

foreign affairs and military strategy.

*Transient Techniques in Electrochemistry* Digby Macdonald, 2012-12-06 The study of electrochemical reactions by relaxation or transient techniques has expanded rapidly over the last two decades. The impetus for the development of these techniques has been the desire to obtain quantitative data on the rates of fast electrochemical processes, including those coupled to homogeneous chemical reactions in solution. This has necessarily meant the development of techniques that are capable of delineating the effects of mass transport and charge transfer at very short times. The purpose of this book is to describe how the various transient techniques may be used to obtain the desired information. Emphasis is placed upon the detailed mathematical development of the subject, since this aspect is the most frequently ignored in other texts in this field. In any relaxation or transient technique for the study of rate processes, it is necessary to disturb the reaction from equilibrium or the steady state by applying a perturbing impulse to the system. The system is then allowed to relax to a new equilibrium or steady-state position, and the transient (i. e. , the response as a function of time) is analyzed to extract the desired kinetic information. In electrochemical studies the heterogeneous rate constants are, in general, dependent upon the potential difference across the interface, so that the perturbing impulse frequently takes the form of a known variation in potential as a function of time.

Words of Wonder Nicholas Evans, 2022-06-02 A gripping and moving text which explores the wealth of human language diversity, how deeply it matters, and how we can best turn the tide of language endangerment In the new, thoroughly revised second edition of *Words of Wonder: Endangered Languages and What They Tell Us, Second Edition* (formerly called *Dying Words: Endangered Languages and What They Have to Tell Us*), renowned scholar Nicholas Evans delivers an accessible and incisive text covering the impact of mass language endangerment. The distinguished author explores issues surrounding the preservation of indigenous languages, including the best and most effective ways to respond to the challenge of recording and documenting fragile oral traditions while they're still with us. This latest edition offers an entirely new chapter on new developments in language revitalisation, including the impact of technology on language archiving, the use of social media, and autodocumentation by speakers. It also includes a number of new sections on how recent developments in language documentation give us a fuller picture of human linguistic diversity. Seeking to answer the question of why widespread linguistic diversity exists in the first place, the book weaves in portraits of individual "last speakers" and anecdotes about linguists and their discoveries. It provides access to a companion website with sound files and embedded video clips of various languages mentioned in the text. It also offers: A thorough introduction to the astonishing diversity of the world's languages Comprehensive exploration of how the study of living languages can help us understand deep human history, including the decipherment of unknown texts in ancient languages Discussions of the intertwining of language, culture and thought, including both fieldwork and experimental studies An introduction to the dazzling beauty and variety of oral literature across a range of endangered languages In-depth examinations of the transformative effect of new technology on language documentation and revitalisation Perfect for undergraduate and graduate students studying

language endangerment and preservation and for any reader who wants to discover what the full diversity of the world's languages has to teach us, *Words of Wonder: Endangered Languages and What They Tell Us, Second Edition*, will earn a place in the libraries of linguistics, anthropology, and sociology scholars with a professional or personal interest in endangered languages and in the full wealth of the world's languages.

**Whisper** Yu-Ko Chang, 2021-10-15 Victims all describe hearing a voice before they die gruesomely. Sometimes it's singing an old Taiwanese song, sometimes it's in Japanese, and sometimes it's an anguished call for help from a loved one. Can Wu Shih-Sheng, a degenerate taxi driver in Taipei, hunt down the source of the voice that killed his wife before he becomes the next victim? *Whisper* is a plot-driven, Taiwanese horror story. As well as being a chilling read, Chang Yu-Ko cleverly combines Taiwanese folklore, the Japanese occupation of Taiwan, and the long-term mistreatment of the country's aboriginal people into a story of how the past can still kill.

Sunday Times Crime Club "An enthralling, heartbreaking and thrilling courtroom drama that had me shouting out loud and gripped until the last page." Nadine Matheson, author of *The Jigsaw Man*
