The Magic Box Rob Young,2021-08-03 A LOUDER THAN WAR BOOK OF THE YEAR A riveting journey into the psyche of Britain through its golden age of television and film; a cross-genre feast of moving pictures, from classics to occult hidden gems, *The Magic Box* is the nation's visual self-portrait in technicolour detail. 'The definition of gripping. Truly, a trove of wyrd treasures.'

BENJAMIN MYERS 'A lovingly researched history of British TV [that] recalls the brilliant, the bizarre and the unworldly.' GUARDIAN 'A reclamation, not just of a visual 'golden age', but of Britain as a darkly magical place.' THE SPECTATOR 'A feat of argument, description and affection.' FINANCIAL TIMES 'Young unearths the ghosts of TV past - and Britain's dark psyche.' HERALD 'Highly entertaining . . . [A] fabulous treasure trove.' SCOTSMAN 'Young is a phenomenal scholar.' OBSERVER 'Impassioned.' THE CRITIC Growing up in the 1970s, Rob Young's main storyteller was the wooden box with the glass window in the corner of the family living room, otherwise known as the TV set. Before the age of DVDs and Blu-ray discs, YouTube and commercial streaming services, watching television was a vastly different experience. You switched on, you sat back and you watched. There was no pause or fast-forward button. The cross-genre feast of moving pictures produced in Britain between the late 1950s and late 1980s - from Quatermass and Tom Jones to The Wicker Man and Brideshead Revisited, from A Canterbury Tale and The Go-Between to Bagpuss and Children of the Stones, and from John Betjeman's travelogues to ghost stories at Christmas - contributed to a national conversation and collective memory. British-made sci-fi, folk horror, period drama and televisual grand tours played out tensions between the past and the present, dramatised the fractures and injustices in society and acted as a portal for magical and ghostly visions. In The Magic Box, Rob Young takes us on a fascinating journey into this influential golden age of screen and discovers what it reveals about the nature and character of Britain, its uncategorisable people and buried histories - and how its presence can still be felt on screen in the twenty-first century. '[A] forensic dissection . . . this tightly packed

treatise takes pains to illustrate how what we view affects how we view ourselves.' TOTAL FILM

Signor Marconi's Magic Box Gavin

Weightman, 2009-06-16 The world at the turn of the twentieth century was in the throes of Marconi-mania-brought on by an incredible invention that no one could quite explain, and by a dapper and eccentric figure (who would one day win the newly minted Nobel Prize) at the center of it all. At a time when the telephone, telegraph, and electricity made the whole world wonder just what science would think of next, the startling answer had come in 1896 in the form of two mysterious wooden boxes containing a device one Guglielmo Marconi had rigged up to transmit messages through the ether. It was the birth of the radio, and no scientist in Europe or America, not even Marconi himself, could at first explain how it worked -- it just did. And no one knew how far these radio waves could travel, until 1903, when a message from President Theodore Roosevelt to the king of England flashed from Cape Cod to Cornwall clear across the Atlantic. Here is a rich portrait of the man and his era-and a captivating tale of science and scientists, business and businessmen. There are stories of British blowhards, American con artists-and Marconi himself: a character par excellence, who eventually winds up a virtual prisoner of his worldwide fame and fortune.

Big Magic for Little Hands Joshua Jay,2014-10-21 Kids love magic. They love to see it, and they love to do it. Enter Joshua Jay, who started doing magic when he was 7 and was named champion at the World Magic Seminar (the Olympics of magic) by the time he was 16. His Big Magic for Little Hands is packed with 25 astonishing illusions for kids ages 7 and up. In other words, it's sleight of hand for the small of hand. These are tricks that require little prep time and dexterity yet are guaranteed to deliver a big payoff. The large format, oversized ext, and black-and-white vintage-style illustrations make Big Magic particularly easy to follow and kid-friendly. Here's how to levitate your sibling several feet off a bed. Escape Houdini-like from tightly bound ropes. There are also impromptu effects that can be performed anytime, anywhere, like Spook-Key, in which an antique key mysteriously rotates in your hand. Each easy-to-perform feat is clearly illustrated with step-by-step drawings and accompanied by insider tips. Joshua Jay is a master who guides his apprentices through every aspect of the magician's art, from the first step—taking the Magician's Oath—to how to minimize nervousness (Rule #1: Rehearse. A lot).
