Advice and Support Ronald H. Spector, 2015-10-14 *Advice and Support: The Early Years, 1941-1960* describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate postwar years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam.

Dragon Operations Thomas P Odom, Frederick M. Franks, Combat Studies Institute, 2010-12-01 In August 1964, thousands of Simba rebels attacked and captured the city of Stanleyville in the newly independent Republic of the Congo and took more than 1,600 European and American residents as hostages, threatening to kill them if any attempt was made to recapture the city. In November of that year, after months of increasingly tense and complex discussions among the governments whose nationals were being held, an airborne assault by Belgian paracommandos dropped by American Air Force planes, combined with a CIA-piloted air strike against the Stanleyville airport, liberated most of the hostages, but only after a Simba-initiated massacre. *Dragon Operations: Hostage Rescues in the Congo, 1964-1965* provides both the political background to these events and a detailed account of the actual operations: *Dragon Rouge*, the operations in Stanleyville, and *Dragon Noir*, focused on the city of Paulis, several hundred miles away. The book highlights the difficulties in organizing an international rescue effort with insufficient joint planning and inadequate command and control among the Belgian and American forces, as well as their differing political ideas and goals. The ad hoc nature of the planning was exemplified by an initial American Special Forces plan to air drop its forces east of Stanleyville and float down the river to Stanleyville. This plan was aborted when it was pointed out that the existence of Stanley Falls between the drop zone and the city was an insuperable obstacle. The operation also suffered from the Belgian commander's colonial-era contempt for the numerical strength of the Simbas and American fears of what was in reality a non-existent Communist element in the rebel movement. *Dragon Operations* demonstrates that, despite the slapdash nature of their planning and communications aspects, as well as the distance involved, the austere support, the large number of hostages, and a lack of intelligence data, they were remarkably successful in rescuing most of the hostages. Although less than ideal, the operations worked better than expected, given the conditions under which they were conducted. This important study of an almost forgotten episode of the Cold War has much to offer to military strategists and tacticians, political scientists and students of contemporary history alike. Sicily and the Surrender of Italy Lieutenant Albert Garland, Howard Smyth, 2015-07-16 (Includes maps) This volume, the second to be published in the Mediterranean Theater of Operations subseries, takes up where George F. Howe's *Northwest Africa: Seizing the Initiative in the West* left off. It integrates the Sicilian Campaign with the complicated negotiations involved in the surrender of Italy. The Sicilian Campaign was as complex as the negotiations, and is equally instructive. On the Allied side it included American, British, and Canadian soldiers as well as some Tabors of Goums; major segments of the U.S. Army Air Forces and of the Royal Air Force; and substantial contingents of

the U.S. Navy and the Royal Navy. Opposing the Allies were ground troops and air forces of Italy and Germany, and the Italian Navy. The fighting included a wide variety of operations: the largest amphibious assault of World War II; parachute jumps and air landings; extended overland marches; tank battles; precise and remarkably successful naval gunfire support of troops on shore; agonizing struggles for ridge tops; and extensive and skillful artillery support. Sicily was a testing ground for the U.S. soldier, fighting beside the more experienced troops of the British Eighth Army, and there the American soldier showed what he could do. The negotiations involved in Italy's surrender were rivaled in complexity and delicacy only by those leading up to the Korean armistice. The relationship of tactical to diplomatic activity is one of the most instructive and interesting features of this volume. Military men were required to double as diplomats and to play both roles with skill.

The Conservation of Cave 85 at the Mogao Grottoes, Dunhuang Neville Agnew, Lori Wong, 2014-02-01 The Mogao Grottoes, a World Heritage Site in northwestern China, are located along the ancient caravan routes—collectively known as the Silk Road—that once linked China with the West. Founded by a Buddhist monk in the late fourth century, Mogao flourished over the following millennium, as monks, local rulers, and travelers commissioned hundreds of cave temples cut into a mile-long rock cliff and adorned them with vibrant murals. More than 490 decorated grottoes remain, containing thousands of sculptures and some 45,000 square meters of wall paintings, making Mogao one of the world's most significant sites of Buddhist art. In 1997 the Getty Conservation Institute, which had been working with the Dunhuang Academy since 1989, began a case study using the Late-Tang dynasty Cave 85 to develop a methodology that would stabilize the deteriorating wall paintings. This abundantly illustrated volume is the definitive report on the project, which was completed in 2010.

When Scotland Was Jewish Elizabeth Caldwell Hirschman, Donald N. Yates, 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Back Door to War Charles Callan Tansill, 2023-05-22 Using a vast array of official documents

secured at the highest levels of the US Government, official US Senate historian and history professor Charles Tansill delves deep into the origins of American involvement in the Second World War, and comes to a startling conclusion: that, despite public pronouncements to the contrary, the Franklin Delano Roosevelt Administration actively sought to participate in that conflict. To that end, Professor Tansill shows, US diplomacy in the 1930s was focussed exclusively on forcing first the Japanese Empire into firing the first shot, and in Europe, helping Britain to generate a war fever through solemn undertakings of support (such as those made to Poland) which, the author shows, the US Administration was well aware had no hope whatsoever of being fulfilled. Thus, the author shows, that the Roosevelt Administration sought to provoke Japan into an attack on American territory, knowing that such an even would inevitably involve Japan's Axis allies, and in this way, America would enter the war through the back door.
