Paediatric Handbook Kate Thomson, Dean Tey, Michael Marks, 2011-08-31 The Royal Children's Hospital, Melbourne is a leading clinical and training centre in paediatrics. This Handbook is a highly popular, succinct guide to managing common and serious disorders in childhood. It is used far beyond the hospital by medical, nursing, and allied health professionals caring for children. It emphasizes the community-based approach to the management of children's problems along with clinical management by the doctor of first contact. This new 8th edition has been updated in line with the Hospital's Clinical Practice Guidelines and features clear illustrations and diagnostic and management algorithms. The must have management guide for all paediatric clinicians and students With today's busy clinician requiring an reliable, 'one-stop-shop' to questions on important paediatric conditions, who better to present the latest edition of a popular paediatric handbook than the team at The Royal Children's Hospital, Melbourne, long-regarded as the leading clinical and training centre for Paediatric Medicine in Australia? Some of the exciting new features of the 8th edition include: • New chapters on sleep, continence, slow weight gain (failure to thrive) and obesity • Extensively revised chapters on renal conditions, pain management and immigrant health • New topics on continuous subcutaneous insulin infusion (pumps), cystic fibrosis, stroke and management of illicit drug poisoning • Links to useful internet websites are now included, indicated by a www symbol in the text margins • A new supplementary website at www.rchhandbook.org • Resuscitation guide and Australian Immunisation schedule on inside covers Besides being a clinical management guide to paediatrics, this is also an excellent supplemental handbook for students, junior medical staff and any medical practitioners needing a tool to enable fast decisions at point of care. Review of the previous edition " This is an excellent handbook, which is most comprehensive and easy to use. It is highly recommended for all resident and registrar staff in paediatric hospitals and paediatric units. " - Journal of Paediatric Child Health

The Suicidal Patient Bruce Michael Bongar, 1991 Patient suicide is not a rare event in psychological practice; it should be considered a real personal and occupational hazard by those psychologists involved in direct patient care. The Suicidal Patient : Clinical and Legal Standards of Care reviews the theoretical and empirical literature in this high-risk patient population, combining clinical knowledge with legal and statutory information. This book proposes a working model for the assessment, management, and treatment of the suicidal patient (in both inpatient and outpatient contexts) that combines suggestions for optimal clinical practice with sophisticated risk management strategies in the context of suicide prevention and postvention. ... This volume will become a standard reference in the area of psychological practice. (PsycINFO Database Record (c) 2004 APA, all rights reserved).

The Dialogical Self Theory in Education Frans Meijers, Hubert Hermans, 2017-10-20 This edited volume offers cross-country and cross-cultural applications of Dialogical Self Theory within the field of education. It combines the work of internationally recognized authors to demonstrate how theoretical and practical innovations emerge at the highly fertile interface of external and internal dialogues. The Theory, developed by Hubert Hermans and his colleagues in the past 25 years, responds fruitfully to the issue of educational experts hitherto working in splendid isolation and does so by combining two aspects of Dialogical Self Theory: the dialogue among individuals as well as dialogical processes within individuals, in this context students and teachers. It is the first book in which Dialogical Self Theory is applied to the field of education. In 13 chapters, authors from different cultures and continents produce theoretical considerations and a wide variety of practical procedures showing that this interface is an ideal ground for the production of new theoretical, methodological, and practical approaches that enrich the work of educational researchers and specialists. Academics, practitioners, and postgraduate students in the field of education, particularly those who are interested in the innovative and community-enhancing potentials of dialogue, will find this book valuable and informative. Ultimately the work presented here is intended to inspire more self-reflection and creative ways to engage in new conversations that can respond to real-world issues and in which education can play a more vital role.

Telehealth in the Developing World Richard Wootton, 2009-02-24 A new addition to the successful telehealth series, Telehealth in the Developing World aims to balance the relative lack of published information on successful telehealth solutions in the developing world.

Clinical Guidelines for Chronic Conditions in the European Union Helena Legido-Quigley, 2013 A new study by a team of European researchers examines for the first time the various national practices relating to clinical guidelines. It looks at the situation in 29 European countries (the EU27, plus Norway and Switzerland) and concludes that while some countries might have made progress many others are still relying on sporadic and unclear processes. There are, however, tried and tested examples which, if shared, could assure and improve the quality of health care across Europe.--Publisher's website.

Promoting Community Health Sidney L. Kark, Emily Kark, 1999 Describes the earlier history of community health in SA, and the efforts to transfer and promote the Community Oriented Primary Health Care (COPC) concept to Israel.

Physician Assistant: A Guide to Clinical Practice E-Book Ruth Ballweg, 2017-02-20 Entering its 6th edition, Physician Assistant: A Guide to Clinical Practice is the only text that covers all aspects of the physician assistant profession, the PA curriculum, and the PA's role in clinical practice. It is designed as a highly visual and practical resource to be used across the spectrum of lifelong learning, enabling students and practicing PAs to thrive in a rapidly changing health care system. Teaches how to prepare for each core clinical rotation and common electives, as well as how to work with atypical patient populations such as homeless patients and patients with disabilities. A succinct, bulleted writing style; convenient tables; practical case studies; and clinical application questions throughout enable you to master key concepts and clinical applications. Helps you master all the core competencies needed for certification or recertification. Addresses all six Physician Assistant

Competencies, as well as providing guidance for the newly graduated PA entering practice. Includes quick-use resources, such as objectives and key points sections for each chapter, tip boxes with useful advice, abundant tables and images, and 134 updated case studies. Features chapters for the 7 core clinical rotations and 5 common electives, with key guidance on how to prepare effectively and what to expect. Provides updated health policy information, expanded information about international programs, cultural competencies, and pearls and pitfalls on working internationally as a PA. Outlines the basic principles of Interprofessional Education – an important new trend in medical education nationally. New chapters cover: Maximizing Your Education, Future of the Profession, Principles of PA Education, Managing Stress and Burnout, and many other topics.

Clinical Practice Handbook for Safe Abortion World Health Organization, 2014 The Clinical practice handbook for safe abortion care is intended to facilitate the practical application of the clinical recommendations from the second edition of Safe abortion: technical and policy guidance for health systems (World Health Organization [WHO] 2012). While legal, regulatory, policy and service-delivery contexts may vary from country to country, the recommendations and best practices described in both of these documents aim to enable evidence-based decision-making with respect to safe abortion care.

Reducing Mortality in Acute Kidney Injury Giovanni Landoni, Antonio Pisano, Alberto Zangrillo, Rinaldo Bellomo, 2018-05-31 This book describes the techniques, strategies, and drugs that have been demonstrated by at least one paper published in a peer-reviewed journal to significantly influence survival in patients with or at risk for acute kidney injury. Each chapter focuses on a specific intervention. The scope is accordingly wide, with coverage of topics as diverse as the type, timing, and dose of renal replacement therapy (RRT), anticoagulation and specific indications for RRT, perioperative hemodynamic optimization, fluid balance, diuretics, colloids, fenoldopam, terlipressin, N-acetylcysteine, and vasopressin. A variety of settings are considered, including critically ill patients, cardiac surgery, and hepatic and hematologic disorders. The topic selection was made using a democracy-based approach in which hundreds of specialists from dozens of countries expressed, via the web, whether they agreed with these topics and whether they used the techniques in their daily clinical practice. The clear text is supported by how to do sections and key point boxes that provide easily accessible practical information. The book will be of interest for a wide variety of specialists, including intensivists, nephrologists, emergency doctors, and anesthesiologists.

Medical Negligence Litigation Ciaran Craven, William Binchy, 2008 Irish law. Medical negligence litigation has grown hugely in importance in recent years. Courts are now faced with complex questions on such matters as informed consent to treatment, causation and proof and the liability of hospitals. The book contains a series of papers addressing all of these issues written by experts in their field. Coverage includes: Causation and proof Damages Limitation of actions Liability of hospitals Informed consent Dunne principles relating to diagnosis and treatment Please note Bloomsbury Professional acquired this title from First Law in July 2010.

Cerebral Palsy, 1999 Discusses the different types of cerebral palsy, the causes of cerebral palsy, some associated problems, and the range of treatments available.

National EHealth Strategy Toolkit World Health Organization, 2012 Worldwide the application of information and communication technologies to support national health-care services is rapidly expanding and increasingly important. This is especially so at a time when all health systems face stringent economic challenges and greater demands to provide more and better care especially to those most in need. The National eHealth Strategy Toolkit is an expert practical guide that provides governments their ministries and stakeholders with a solid foundation and method for the development and implementation of a national eHealth vision action plan and monitoring fram.

Out-patients department, 2004 Addresses the planning and design of outpatient accommodation. The guidance is principally for use in connection with departments that are attached to, or form part of, an acute hospital or treatment centre, although the advice will be equally relevant to facilities provided elsewhere. This guidance is primarily intended for project and design teams, estates directors and their staff and PFI consortia. It contains guidance on the planning and design of an OPD providing accommodation suitable for a variety of clinical uses.

States of Mind Julie Parle, 2007 This study of the history of mental illness and its cures in colonial and immediately post-Union Natal and Zululand (South Africa) investigates westernized treatments of insanity at the Natal Government Asylum, as well as less well-known routes back to health via African and Indian modes of healing. Author Julie Parle writes of the amandiki, bands of frenzied women who explained their illness as caused by possession by a male ancestor. She discusses frauds, medicines for hysteria and drunkenness, faith healers of different kinds, and suicide in all communities. Finally, she considers how mental health services became centralized under state control from Pretoria, with important consequences for the future of psychiatry and mental health services in modern South Africa.

The People's Hospital Julie Parle, Vanessa Noble, 2017-08-09 This is a history of the religious, health, medical and political contexts of Natal and South Africa from the late 1800s to the 1970s.

Chatsworth Ashwin Desai, Goolam H. Vahed, 2013 In 1960, apartheid's planners created the 'Indian' township of Chatsworth, evicting people from established neighborhoods around Durban and forcibly settling them into the grid of a modern racial ghetto. Making a home within this architecture of exclusion, along streets without names, tens of thousands of new residents began building new lives and new communities, developing an urban space with a unique cultural vibrancy born of creativity and economic struggle. With the dismantling of 'Group Areas' legislation from 1990, and within South Africa's continually changing political landscape, the Chatsworth township has witnessed innovations of livelihood, shifting boundaries of identity, and protracted social challenges. This book brings together an exhilarating mix of voices that collectively tell the story of Chatsworth's origins, transformations, and ongoing rhythms of daily life. Its narrative richness is further enhanced with classic photographs, some dating back to the period of early settlement, as well as a contemporary photo essay by distinguished photographer, Jenny Gordon.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers

in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
