**The Insanely Easy Guide to Galaxy Tab S** Scott La Counte, 2022-08-24 When most people think about a tablet, the first thing that comes to mind is the iPad. The iPad may have changed the way people think about tablets, but it's not the only tablet in town. There are countless Android tablets, but one that arguably beats them all: the Samsung Galaxy Tab S. The Tab S is a powerhouse that can outperform many laptop computers. And running Samsung DeX, the tablet can even turn into a desktop-like experience. If you are new to the Tab S, there's a lot to uncover and this guide will walk through all the basics of the operating system that you need to know. It's based on the latest version of the Tab S—the Tab S 8—but aside from hardware features, the Tab S 7 and 6 are almost identical, so you'll be fine if you have a cheaper tablet. Almost everything in this guide also applies to the A series (the budget line of tablets). It's going to cover only what most people want to know—so if you are looking for something highly technical that teaches you how to set up private virtual networks, then keep looking. But if you want something that teaches you all kinds of cool tricks and helps you get started, then this book is for you. You'll learn about:

- Setting up your tablet
- Using Samsung DeX to turn your tablet into a desktop-like experience
- Installing apps and widgets
- Connecting to Wi-Fi
- Changing themes and wallpaper
- Using Gestures
- Using the camera
- Surfing the Internet
- Changing system settings
- Using Samsung Kids mode
- And much more!

Ready to get started? Let's Go! Note: This book is not endorsed by Samsung, Inc, and should be considered unofficial.

**Samsung Galaxy Tab a Complete Manual** Scott Brown, 2019-08-05 A Complete Guide Of Getting The Most Out Of Your Samsung Galaxy Tab A 10.1 10.5 & 8.0!The

Samsung Galaxy Tab A 10.1 2019 and Samsung Galaxy Tab A 8.0 with S Pen (are two very interesting tablets that got great scores in our reviews. One reason why I like them is their Android 9 Pie and One UI software. Both tablets are up to date software wise, look modern, and pack tons of features. However, with all those features Samsung implemented it can be a bit overwhelming for beginners. If you have the old Tab A 10.1 or you have just bought the new Samsung Galaxy Tab A 10.1 or the Tab A 8.0, this guidebook will help you to make the most of your device. Samsung Galaxy Tab A Complete Manual is a must-have reading for anyone who wants to go beyond the basics and take their device to the next level and get more out of their tablet. Assyrian Dictionary University of Chicago. Oriental Institute, 1956 The CAD project was initiated in the early 1920s, not long after James Henry Breasted founded the Oriental Institute in 1919, and barely one hundred years after the decipherment of the cuneiform script. This initial decipherment, and the soon-to-follow achievements in understanding the languages in which the hundreds of thousands of clay tablets were inscribed, opened an unsuspected treasure-house for the study and appreciation of one of the world's oldest civilizations. The Chicago Assyrian Dictionary was conceived to provide more than lexical information alone, more than a one-to-one equivalent between Akkadian and English words. By

presenting each word in a meaningful context, usually with a full and idiomatic translation, it recreates the cultural milieu and thus in many ways assumes the function of an encyclopedia. Its source material ranges in time from the third millennium b.c. to the first century a.d., and in geographic area from the Mediterranean Sea in the west to the Zagros Mountains in the east. With sixteen of the projected twenty-one volumes published and the remaining volumes in various stages of preparation, with close to two million file cards - a database which is continually updated and which is accessible to scholars and students who wish to consult it - the Chicago Assyrian Dictionary has become an invaluable source for the study of the civilizations of the ancient Near East, their political and cultural history, their achievements in the sciences of medicine, astronomy, mathematics, and linguistics, and not least the timeless beauty of their poetry. - Publisher.

#### Assyrian and Babylonian Scholarly Text Catalogues

Ulrike Steinert, 2018-06-11 The reconstruction of ancient Mesopotamian medical, ritual and omen compendia and their complex history is still characterised by many difficulties, debates and gaps due to fragmentary or unpublished evidence. This book offers the first complete edition of the Assur Medical Catalogue, an 8th or 7th century BCE list of therapeutic texts, which forms a core witness for the serialisation of medical compendia in the 1st millennium BCE. The volume presents detailed analyses of this and several other related catalogues of omen series and rituals, constituting the corpora of divination and healing disciplines. The contributions discuss links between catalogues and textual sources, providing new insights into the development of compendia between serialization, standardization and diversity of local traditions. Though its a novel corpus-based approach, this

volume revolutionizes the current understanding of Mesopotamian medical texts and the healing disciplines of conjurer and physician. The research presented here allows one to identify core text corpora for these disciplines, as well as areas of exchange and borrowings between them.

**The Three Stars Each** Wayne Horowitz, 2014 This book discusses the history and impact of the Astrolabe group of cuneiform texts and tablets on Mesopotamian and world civilization.

**Sumerian Loanwords in Old Babylonian Akkadian** S. Lieberman, 2019-05-27

**The Seal of the Sangas** Michel Tanret, 2010 This study assembles and examines all available documentation on the first and second sangas of ama of the Ebabbar temple in Old Babylonian Sippar as well as on those in the Edikuda temple in neighbouring Sippar-Amn num. Their succession, family links and the length of their careers are discussed and newly completed drawings of their seals are provided, described and analyzed. The author addresses the evolving patterns of sealing and the changes in the seal legends, which yield information on the growing influence of the Marduk circles and thus of the kings of Babylon. The seal stones have been reconstructed from the impressions and conclusions are drawn concerning the choice of seal scenes by the different sangas as well as the use of family seals.

**Ur III Texts in the Schøyen Collection** Jacob L. Dahl, 2020-12-11 Judging from the sheer amount of textual material left to us, the rulers of ancient Ur were above all else concerned with keeping track of their poorest subjects, who made up the majority of the population under their jurisdiction. Year after year, administrators recorded, in frightening detail, the whereabouts of the poorest individuals in monthly and yearly rosters, assigning tiny

parcels of land to countless prebend holders and starvation rations to even more numerous estate slaves. The texts published in this volume—dating from the time of the Third Dynasty of Ur (ca. 2100–2000 BC)—attest to the immense investment of the ancient rulers in managing their subjects. This volume presents editions of two hundred and twenty-four cuneiform tablets selected from the Schøyen Collection, the vast majority of which have not been previously published. The ancient provenience for these texts is primarily Umma, with other core provinces represented in smaller numbers, such as notable contributions from ancient Adab, which is underrepresented in the published record. In order to provide a fuller picture of the administration of the Ur III state, a number of texts from other collections, both published and unpublished, have been integrated into this volume. Accompanied by Jacob L. Dahl’s precise translations, extensive commentary, and exhaustive indexes, this volume presents extensive new data on prosopography, economy, accounting procedures, letters, contracts, technical terminology, and agriculture that adds significantly to our knowledge of society and the economy during the Third Dynasty of Ur. An important contribution to the study of the Ur III period, in particular for Assyriology, this volume will serve as a useful handbook for scholars and students alike.

*Letters in the Louvre* Veenhof, 2005-12-01 This book is the fourteenth volume in the series *Altbabylonische Briefe in Umschrift und Übersetzung*, which aims to make the many — often dispersed — letters from the Old Babylonian period available in transliteration and translation. Volume 14 collects 226 Old Babylonian letters from The Louvre.

**The Pantheon of Uruk During the Neo-Babylonian Period** Paul-Alain Beaulieu, 2021-11-08 This book is about

the pantheon of the Babylonian city of Uruk, between the 9th and 5th centuries BC. It is a careful analysis of the archive of the Eanna temple in Uruk, the sanctuary of the goddess Ishtar, containing well over 8,000 cuneiform tablets in the Akkadian language. The tablets date in their majority to the Neo-Babylonian and early Achaemenid period. Paul-Alain Beaulieu sheds light on the hierarchy of the local pantheon, providing a wealth of data concerning the cult of each deity, such as identity and theology, ornaments and clothing of the divine image, offerings ceremonies, temples, and cultic personnel. An important contribution to our knowledge of the functioning of religion in Neo-Babylonian society.

*Opening the Tablet Box* Sarah Melville, Alice Slotsky, 2010-08-09 With topics ranging from social and economic history to literature, language, and to art history and archaeology, the essays in his book reflect the broad spectrum of interests of its honoree, Benjamin R. Foster.

**Elementary Education in Early Second Millennium BCE Babylonia** Alhena Gadotti, Alexandra Kleinerman, 2021-09-02 In this volume, Alhena Gadotti and Alexandra Kleinerman investigate how Akkadian speakers learned Sumerian during the Old Babylonian period in areas outside major cities. Despite the fact that it was a dead language at the time, Sumerian was considered a crucial part of scribal training due to its cultural importance. This book provides transliterations and translations of 715 cuneiform scribal school exercise texts from the Jonathan and Jeanette Rosen Ancient Near Eastern Studies Collection at Cornell University. These tablets, consisting mainly of lexical texts, illustrate the process of elementary foreign-language training at scribal schools during the Old Babylonian period. Although the tablets are all without provenance, discrepancies between

these texts and those from other sites, such as Nippur and Ur, strongly suggest that the texts published here do not come from a previously studied location. Comparing these tablets with previously published documents, Gadotti and Kleinerman argue that elementary education in Mesopotamia was relatively standardized and that knowledge of cuneiform writing was more widespread than previously assumed. By refining our understanding of education in southern Mesopotamia, this volume elucidates more fully the pedagogical underpinnings of the world's first curriculum devised to teach a dead language. As a text edition, it will make these important documents accessible to Assyriologists and Sumerologists for future study.

Sons and Descendants John P. Nielsen, 2010-10-05  
Drawing primarily on evidence from legal documents from the early Neo-Babylonian period (747-626 B.C.), the book examines the presence of large, named kin groups at the major Babylonia cities, considering their origins and the important roles their members played as local elites in city governance and temple administration.
