**Wenn Inhaftierung die Lebenssituation prägt** Lydia Halbhuber-Gassner, Barbara Kappenberg, Wolfgang Krell, 2017-09-15 Inhaftierung ist nicht nur ein gravierender Einschnitt in das Leben der verurteilten Person, sondern auch der Angehörigen: PartnerIn, Kinder, Eltern, Großeltern, Geschwister, enge Freunde. Diese werden häufig von der Inhaftierung überrascht. Neben dem Schock müssen sie auftretende psychische, soziale und materielle Probleme lösen und alleine die Erziehungsverantwortung und Alltagsbewältigung tragen. Aus Scham und Angst vor Ablehnung sowie sozialer Isolation wird die Inhaftierung vor der Familie und dem Umfeld häufig geheim gehalten. Das hindert die Betroffenen aber auch daran, sich vor Ort Unterstützung zu holen. Hier bietet die Online-Beratung eine gute Möglichkeit anonym, kostenlos sowie unabhängig von Ort und Zeit Fachleute um Rat zu fragen. Der Reader präsentiert neben Grundlagen zur Problematik der Angehörigen das breite Spektrum an Hilfeangeboten. Diese reichen von persönlicher Unterstützung, Gruppenarbeit in oder außerhalb der Haft bis zur Online-Beratung. Darüber hinaus werden viele Praxisbeispiele vorgestellt, die Orientierung und Anregung für alle in der Arbeit mit Inhaftierten und vor allem deren Angehörigen geben.

Alternative Strafvollzugsmodelle e.V. Seehaus, 2022-03-08 Alternative

Strafvollzugsmodelle aus der Vergangenheit, Gegenwart und Zukunft werden in diesem Band vorgestellt. Anlass ist der Rückblick auf 10 Jahre Strafvollzug in freien Formen in Sachsen. Seehaus e.V. betreibt seit 2011 mit dem Seehaus Leipzig einen Jugendstrafvollzug in freien Formen. Sachsen ist das erste Bundesland in dem nun auch Strafvollzug in freien Formen für Erwachsene möglich sein wird. In Ergänzung dazu zeigen andere Träger mit ihren Konzepten weitere Alternativen zum Strafvollzug auf. Auch der Blick ins Ausland liefert hierzu Anregungen und Ideen. Einen Ausblick geben Wissenschaftler und Politiker zu ihrer Vision eines Justizsystem der Zukunft und von Restorative Justice als Zukunftsperspektive für das Justizsystem.

Das Gefängnis auf dem Prüfstand Bernd Maelicke, Stefan Suhling, 2018-03-07  
Dieses Buch liefert eine Zwischenbilanz über die Situation des Strafvollzugs. Ziel des Behandlungsvollzugs ist die Befähigung der Gefangenen zu einem straffreien Leben. Die Autoren dieses Sammelbandes beleuchten deshalb unter anderem die Fragen: Wie leistungsfähig ist der Behandlungsvollzug? Welche Sicherheitsrisiken müssen bewältigt werden? Wie gestaltet sich die Zusammenarbeit mit anderen Akteuren der stationären und ambulanten Resozialisierung? Und welche weiteren Reformen sind mittel- und langfristig zu realisieren?

**Integration statt Ausgrenzung** Lydia Halbhuber-Gassner, Barbara Kappenberg, 2017-11-08 Die Entstehung der organisierten Straffälligenhilfe in Deutschland in der Zeit der Weimarer Republik ist Ausgangspunkt des

geschichtlichen Rückblicks. Die Arbeit der Katholischen Arbeitsgemeinschaft Straffälligenhilfe in den vergangenen Jahrzehnten bis zur Gegenwart wird aufgezeigt und beispielhafte Projekte aus der Praxis der beruflichen und freiwilligen/ehrenamtlichen Arbeit vorgestellt. Auch wird ein Überblick über wichtige kriminal- und sozialpolitische Positionierungen gegeben. Mit einem Ausblick in die Zukunft der freien Straffälligenhilfe und über den Tellerrand der nationalen Grenzen schließt dieses Buch ab. Dabei wird die ethische und fachliche Grundposition der Katholischen Bundes-Arbeitsgemeinschaft Straffälligenhilfe – Integration statt Ausgrenzung – Versöhnung statt Strafe – deutlich herausgestellt und an vielen Themenbereichen der Praxis der Straffälligenhilfe diskutiert.

#### **Resozialisierung durch Soziale Arbeit** Heinz Cornel, 2020-11-18

Resozialisierung ist Ziel und Auftrag der Sozialen Arbeit z.B. im Strafvollzug, in der Bewährungshilfe und in der Freien Straffälligenhilfe. Um dieses Ziel - die Reintegration in die Gesellschaft - zu erreichen, sind spezifische Kenntnisse und Kompetenzen sowie ethische Grundsätze und kriminalpolitische Orientierung notwendig. Das Buch zeigt, wie Fachkräfte der Sozialen Arbeit in enger Zusammenarbeit mit ihren Klientinnen und Klienten erfolgreich resozialisieren können. Neben der Auseinandersetzung mit dem Begriff, den Problemlagen und Handlungsmethoden werden institutionsbezogene Hilfearten vorgestellt. Das Lehr- und Lernbuch bietet dazu ein facettenreiches Fallbeispiel und ermöglicht so den Transfer des Wissens in

die Praxis.

Resozialisierung und Systemischer Wandel Bernd Maelicke, Christopher Wein, 2020-06-16 In Folge der weltweiten Corona-Krise gewinnen die Vorschläge zu einem Systemischen Wandel auch in der Kriminal-, Justiz- und Sozialpolitik neue Bedeutung. Dieser Band informiert über Masterpläne und Agenden der strategischen Steuerung von Innovationen in allen Arbeitsfeldern der Resozialisierung in einem Verbund von öffentlichen und privaten Trägern. In Österreich, der Schweiz und in Deutschland gibt es dazu konkrete Vorschläge von Fach- und Führungskräften und Experten der lokalen und nationalen Ebene, dies gilt auch für die internationale und europäische Dimension. Innovative Projekte weisen gesteigerte Wirksamkeit und Nachhaltigkeit von Gesamtkonzepten der ambulanten und stationären Resozialisierung nach. Maelicke und Wein fordern im Übergang in eine Zeitenwende eine Große Transformation und plädieren für einen nachhaltigen und wirkungsorientierten Umgang mit Tätern und Opfern.

*European Rules for Juvenile Offenders Subject to Sanctions Or Measures* Council of Europe, 2009-01-01 This book deals with the rules that are in force in Europe for juvenile offenders. The aim of the rules is to uphold the rights and safety of juvenile offenders subject to sanctions or measures and to promote their physical, mental and social well-being when subject to community sanctions or measures, or any form of deprivation of liberty. It is based on Recommendation Rec(2008)11 of the Committee of Ministers of the

Council of Europe on the European Rules for juvenile offenders subject to sanctions or measures, which was adopted on 5 November 2008. The first part of the book contains the text of the recommendation and is followed by a commentary which explains in finer detail the rules and the points raised by the text. The final section provides an analysis of the national replies to a questionnaire related to the treatment of juvenile offenders. This work will be of interest to human rights scholars, researchers and students of law, criminology and international relations.

*Offender Supervision in Europe* F. McNeill, K. Beyens, 2013-11-25 Offender supervision in Europe has developed rapidly in scale, distribution and intensity in recent years. However, the emergence of mass supervision in the community has largely escaped the attention of legal scholars and social scientists more concerned with the mass incarceration reflected in prison growth. As well as representing an important analytical lacuna for penology in general and comparative criminal justice in particular, the neglect of supervision means that research has not delivered the knowledge that is urgently required to engage with political, policy and practice communities grappling with delivering justice efficiently and effectively in fiscally straitened times, and with the challenges of communicating the meaning, legitimacy and utility of supervision to an insecure public. This book reports the findings from a survey of European research on this topic, undertaken during the first year of a European research network that spans

twenty countries. As such, it provides the first comprehensive review of research on offender supervision in Europe, opening up an important new field of enquiry for comparative social science, and offering the prospects of better informed democratic deliberation about key challenges facing contemporary justice systems, policymakers and practitioners, and the societies they seek to serve.

Mental Health and Work Sick on the Job? Myths and Realities about Mental Health and Work OECD,2012-01-17 This report aims to identify the knowledge gaps and begin to narrow them by reviewing evidence on the main challenges and barriers to better integrating people with mental illness in the world of work.

Down on Their Luck David A. Snow,Leon Anderson,1993-02-12 David Snow and Leon Anderson show us the wretched face of homelessness in late twentieth-century America in countless cities across the nation. Through hundreds of hours of interviews, participant observation, and random tracking of homeless people through social service agencies in Austin, Texas. Snow and Anderson reveal who the homeless are, how they live, and why they have ended up on the streets. Debunking current stereotypes of the homeless. Down on Their Luck sketches a portrait of men and women who are highly adaptive, resourceful, and pragmatic. Their survival is a tale of human resilience and determination, not one of frailty and disability.

*No Prison* Massimo Pavarini,2018-08-15 This book is different from most of

the academic and non-academic literature on prisons. It does not advocate prison reform. Instead, it makes the case for the prisons' abolition. According to the authors, prison amelioration is an illusion, but abolition is an option - a real possibility, and certainly an issue worth of public discussion and political action - urgently.

*Island Rivers* John R. Wagner, Jerry K. Jacka,2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we

describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

**Wildlife Trafficking** Gian Ege, Andreas Schloenhardt, Christian Schwarzenegger, 2020-10-09 Wildlife trafficking threatens the existence of many plant and animal species and accelerates the destruction of wildlife, forests, and other natural resources. It contributes to environmental degradation, destroys unique natural habitats, and deprives many countries and their populations of scarce renewable resources. Nevertheless, preventing and suppressing the illegal trade in wildlife, animal parts, and plants is presently not a priority in many countries and it remains overlooked and poorly researched. The chapters included in this volume address causes, characteristics, and actors of wildlife trafficking, analyse detection methods, and explore different international and national legal frameworks. **The Greater German Reich and the Jews** Wolf Gruner, Jörg Osterloh, 2015-01-01  
Between 1935 and 1940, the Nazis incorporated large portions of Europe into the German Reich. The contributors to this volume analyze the evolving anti-Jewish policies in the annexed territories and their impact on the Jewish population, as well as the attitudes and actions of non-Jews, Germans, and indigenous populations. They demonstrate that diverse anti-Jewish policies developed in the different territories, which in turn affected practices in other regions and even influenced Berlin's decisions. Having these systematic studies together in one volume enables a comparison - based on the most recent research - between anti-Jewish policies in the areas annexed by the Nazi state. The results of this prizewinning book call into question the common assumption that one central plan for persecution extended across Nazi-occupied Europe, shifting the focus onto differing regional German initiatives and illuminating the cooperation of indigenous institutions.

**The Three Worlds of Welfare Capitalism** Gosta Esping-Andersen, 2013-05-29  
Few discussions in modern social science have occupied as much attention as the changing nature of welfare states in western societies. Gosta Esping-Andersen, one of the most distinguished contributors to current debates on this issue, here provides a new analysis of the character and role of welfare states in the functioning of contemporary advanced western societies. Esping-Andersen distinguishes several major types of welfare state, connecting these with variations in the historical development of different western countries.

Current economic processes, the author argues, such as those moving towards a post-industrial order, are not shaped by autonomous market forces but by the nature of states and state differences. Fully informed by comparative materials, this book will have great appeal to everyone working on issues of economic development and post-industrialism. Its audience will include students and academics in sociology, economics and politics.

*Chaga Childhood* Otto Friedrich Raum, 1996 This account of traditional education among the Chaga, a Bantu-speaking people of Tanzania, was one of the earliest studies of indigenous education. The first part of the book is an historical survey of existing literature on the subject in English, French and German; the second and main part of the book is a description of the informal education of the Chaga child in the family; the self-educative process in play group and age class; the formal training received during the rites leading up to circumcision, initiation and the preparation for marriage; and the changes in relationship between parents and children as they grow older, from the infant stage of biological dependence to the point at which the child fills the place occupied by the parent through descent, inheritance and succession. Psychological, anthropological, linguistic and pedagogical problems are discussed, including the development of speech during infancy, the extension of classificatory terms in the kinship group, the significance of the rites of development, and the differentiation of behaviour according to age, sex and rank of the children by means of taboos,

punishments, songs and proverbs. The third part of the book offers practical conclusions from this study of indigenous education, in particular with regard to education policy, teaching methods and school organisation in Tropical Africa.

*Reading Graphic Novels* Achim Hescher, 2016-02-22 This monograph presents a prototype theory-based approach to the graphic novel as a narrating genre. After a historical contextualization, the graphic novel is defined through the core feature of complexity and seven gradable subcategories. With regard to narration, the author challenges concepts from classical narratology like the 'narrator' and 'focalization' to finally discuss aspects of subjectivity, a focal paradigm in the latest research.
