Constant Comedy Art Bell,2022-12-06 Discover the riveting, hilarious true story of the birth of Comedy Central in what New York Times bestselling author, Dan Lyons, calls the “funniest behind-the-scenes memoir I’ve ever read, full of crazy characters, plot twists, and suspense.” Award-Winning Finalist in the Narrative: Non-Fiction category of the 2020 Best Book Awards sponsored by American Book Fest In 1988, a young, mid-level employee named Art Bell pitched a novel concept—a television channel focused 100% on just one thing: comedy—to the chairman of HBO. The station that would soon become Comedy Central, with celebrated programs like South Park, Chapelle’s Show, The Daily Show, and The Colbert Report, was born. Constant Comedy takes readers behind the scenes into the comedy startup on its way to becoming one of the most successful and creative purveyors of popular culture in the United States. From disastrous pitch meetings with comedians to the discovery of talents like Bill Maher and Jon Stewart, this intimate biography peers behind the curtain and reveals what it’s really like to work, struggle, and ultimately succeed at the cutting edge of show business.

Thermal Systems Ivan CK Tam,Brian Agnew,2021-04-07 We live in interesting times in which life as we know it is being threatened by manmade changes to the atmosphere in which we live. On the global scale, concern is focused on climate change due to greenhouse gas emissions, and on a national scale, atmospheric pollution produced by combustion processes is of concern. A possible approach is through the development of new ideas and innovative processes to the current practices. Among the available options, multi-generation processes such as the trigeneration cycle, battery storage system, solar power plants and heat pumps have been widely studied, as they potentially allow for greater efficiency, lower costs, and reduced emissions. On the other hand, some researchers had been working to increase the potential of energy generation process through heat recovery under the steam generator, organic Rankine cycle, and absorption chillers. In this Special Issue on Thermal Systems” of fundamental or applied and numerical or experimental investigation, many new concepts in thermal systems and energy utilization were explored and published as original research papers in this “Special Issue”.

The Camera Assistant's Manual David E. Elkins, SOC,2013-06-26 Excel as an Assistant Cameraman (AC) in today’s evolving film industry with this updated classic. Learn what to do—and what NOT to do—during production and get the job done right the first time. The Camera Assistant’s Manual, Sixth Edition covers the basics of cinematography and provides you with the multi-skill set needed to maintain and transport a camera, troubleshoot common problems on location, prepare for job interviews, and work with the latest film and video technologies. Illustrations, checklists, and tables accompany each chapter and highlight the daily workflow of an AC. This new edition has been updated to include: A fresh chapter on the entry level camera positions of Camera Trainee/Production Assistant Coverage of emerging iPhone apps that are used by filmmakers and ACs on set An updated companion website offering online tutorials, clips, and techniques that ACs can easily access while on location (www.cameraassistantmanual.com) All new sample reports and forms including AC time cards, resumé templates, a digital camera report, and a non-prep disclaimer Instruction and custom forms to help freelance filmmakers keep track of daily expenses for tax purposes The Camera Assistant’s Manual, Sixth Edition is an AC's bible for success and a must-have for anyone looking to prosper in this highly technical and ever-changing profession.

TMS 2016 Supplemental Proceedings The Minerals, Metals & Materials Society (TMS),2016-02-09 The TMS 2016 Annual Meeting Supplemental Proceedings is a collection of papers from the TMS 2016 Annual Meeting & Exhibition, held February 14-18 in Nashville, Tennessee, USA. The papers in this volume represent 21 symposia from the meeting. This volume, along with the other proceedings volumes published for the meeting, and archival journals, such as Metallurgical and Materials Transactions and Journal of Electronic Materials, represents the available written record of the 67 symposia held at TMS2016. This proceedings volume contains both edited and unedited papers; the unedited papers have not necessarily been reviewed by the symposium organizers and are presented “as is.” The opinions and statements expressed within the papers are those of the individual authors only, and no confirmations or endorsements are intended or implied.

Nation Branding Keith Dinnie,2015-08-27 Nation Branding: Concepts, Issues, Practice was the ground-breaking first textbook to provide an overview of this recently established but fast-growing practice, in which the principles of brand management are applied to countries rather than companies. Many governments have invested in nation branding in order to strengthen their country's influence, improve its reputation, or boost tourism, trade and investment. This new edition has been comprehensively revised and its influential original framework modified to reflect the very latest changes to this still-developing field. It remains an accessible blend of theory and practice rich with international examples and contributions. Updates to this edition: New international cases of countries as diverse as China, United Arab Emirates, Ghana, Cuba, India, Great Britain and many more; New contributions from distinguished scholars, diplomats and businesspeople providing a range of case studies, practitioner insights and academic perspectives; New Companion Website to support the book featuring instructor aids such as PowerPoint presentations for each chapter and an instructor manual; This much-anticipated update to an influential book is an essential introduction to nation branding for students and policy makers.

Soft Power Joseph S. Nye, Jr.,2009-04-28 Joseph Nye coined the term soft power in the late 1980s. It is now used frequently—and often incorrectly—by political leaders, editorial writers, and academics around the world. So what is soft power? Soft power lies in the ability to attract and persuade. Whereas hard power—the ability to coerce—grows out of a country's military or economic might, soft power arises from the attractiveness of a country's culture, political ideals, and policies. Hard power remains crucial in a world of states trying to guard their independence and of non-state groups willing to turn to violence. It forms the core of the Bush administration's new national security strategy. But according to Nye, the neo-conservatives who advise the president are making a major miscalculation: They focus too heavily on using America's military power to force other nations to do our will, and they pay too little heed to our soft power. It is soft power that will help prevent terrorists from recruiting supporters from among the moderate majority. And it is soft power that will help us deal with critical global issues that require multilateral cooperation among states. That is why it is so essential that America better understands and applies our soft power. This book is our guide.

Magnesium Technology 2016 Alok Singh,Kiran Solanki,Michele Manuel,Neale Neelameggham,2016-12-12 The Magnesium Technology Symposium, the event on which this collection is based, is one of the largest yearly gatherings of magnesium specialists in the world. Papers represent all aspects of the field, ranging from primary production to applications to recycling. Moreover, papers explore everything from basic research findings to industrialization. Magnesium Technology 2016 covers a broad spectrum of current topics, including alloys and their properties; cast products and processing; wrought products and processing; forming, joining, and machining; corrosion and surface finishing; ecology; and structural applications. In addition, there is coverage of new and emerging applications.

Lighting for Video Gerald Millerson,2016-03-31 Enables readers to produce top-grade results whether they are lighting off-the-cuff with a portable compact kit or tackling a major project with an extensive heavy-duty rig. It does not assume technical knowledge or previous experience and after covering basics it guides readers towards the most effective ways of tackling particular projects, and shows typical professional solutions to everyday situations.

Competitive Identity Simon Anholt,2006-11-13 Ever since Simon Anholt coined the phrase 'Nation Branding, there has been more and more interest in the idea that countries, cities and regions can build their brand images. This authoritative book considers how commercial brand management can really be applied to places and shows how places can build and sustain their competitive identity.

Licht - Raum Wolfgang Rang, Christian Bartenbach, 2014 The goal of this book is to develop temporary light spaces that re-interpret the existing urban environment on a seasonal basis or over a cycle of several years. As a result, the city will literally appear in a new light. Strollers in the city streets will experience their familiar environment in a new way. Illuminated planes interlacing with planes made by linear fields of light beams will create immaterial material space experiences: still lifes of light within which one can move about and light choreographies that move barely noticeably, creating still lifes in motion. The discourse in this book starts with essays introducing aspects of light spaces and concludes with documents on light spaces by Wolfgang Rang collected over a period of 30 years showing how these light spaces were regarded in the writings of contemporaries.

The New Public Diplomacy J. Melissen, 2005-11-22 After 9/11, which triggered a global debate on public diplomacy, 'PD' has become an issue in most countries. This book joins the debate. Experts from different countries and from a variety of fields analyze the theory and practice of public diplomacy. They also evaluate how public diplomacy can be successfully used to support foreign policy.

Nation Branding in Europe João Freire (Editor), 2021-08 This book provides an explanation of nation branding theory and practice within the European context, exploring how countries build and manage their reputations globally. Each chapter focuses on a specific European country, selected from a cross-section of large, medium-sized and small countries to provide a breadth of cases from across the continent. The chapters are written from a wide range of academic and practitioner perspectives. Nation Branding in Europe is valuable supplementary reading for advanced undergraduate, postgraduate and doctoral students interested in nation branding and will appeal to students from marketing, communications, and international relations disciplines. Outside of academia, the book will be of interest to those working in the areas of public diplomacy and strategic communications, as well as public relations and branding practitioners involved in designing nation branding campaigns--
