**Interventional Pain** Agnes R. Stogicza, André M. Mansano, Andrea M. Trescot, Peter S. Staats, 2020-12-11 This comprehensive book serves as a review for the Fellow of Interventional Pain Practice (FIPP) exam and functions as a concise guide for all interventional pain doctors. Through educational initiatives, it helps to promote consensus-building among experts on the effectiveness of existing techniques and avenues for advancement of therapeutic performances. The book is divided into four sections (head and neck, thoracic, lumbar and sacral/pelvic), and each chapter is devoted to the safe, standardized approach to interventional procedures. To prepare both the examiner and the examinee for the FIPP examination, each chapter contains the relevant C-arm images and outlines the most common reasons for “unacceptable procedures performance” and “potentially unsafe procedures performance.” Distinguishing it from many of the previous guides, it also includes labeled fluoroscopic high quality images and focuses on the current FIPP-examined procedures with all accepted approaches. Written and edited by world leaders in pain, *Interventional Pain* guides the reader in study for FIPP Exam and offers a consensus on how interventional procedures should be performed and examined.

Sweeping across four decades, *Goodbye, Mr Chips* features an extraordinary period of history, from the Franco-Prussian War of the 1870s to Hitler's rise to power in the 1930s, and demonstrates that, through it all, love and a good sense of humour can make all the difference. *Goodbye, Mr Chips* is the beloved classic of generations of readers, and sure to delight people of all ages.
