Grammatica italiana Luca Serianni,Alberto Castelveccchi,2006

L'ora d'italiano Luca Serianni,2012-09-06T00:00:00+02:00 Luca Serianni difende lo studio e la lettura dei classici, anche a costo di torturare i quindicenni con i promessi sposi. Riccardo Chiaberge, il Fatto Quotidiano Un agile volume in cui si discutono alcuni importanti interrogativi che ruotano attorno all'insegnamento della lingua italiana e della letteratura, scritto da Luca Serianni, internazionalmente considerato un grande esperto di storia linguistica italiana. Nuccio Ordine, Corriere della Sera Luca Serianni affida alle stampe un libro prezioso per docenti, genitori e studenti. I suoi ragionamenti hanno il pregio fondamentale di mettere sul tappeto, ripulito di luoghi comuni e superficiali credenze, proposte didattiche forti, di immediata realizzabilità. Col sottinteso, però, che soltanto occhi nuovi possono portare mani nuove ad operare. Silverio Novelli, www.treccani.it/magazine Sappiamo ancora parlare la nostra lingua? Se non lo facciamo è responsabilità degli insegnanti o di un cambiamento culturale profondo? Quanto conta ancora l'ora di italiano? L'opinione di un linguista di eccellenza su un tema che riguarda tutti. Il professore di lettere si trova oggi tra due fuochi. Da un lato le polemiche, di grande risonanza mediatica, sulla scarsa preparazione dei ragazzi non soltanto rispetto all'ortografia e alla sintassi, ma anche sulla padronanza di quel lessico un po' più alto (velleitario, dirimere, faceto...) che può capitare di incontrare anche solo leggendo l'editoriale di un quotidiano; dall'altro, dopo decenni, il primato umanistico ha subito un complessivo ridimensionamento a favore delle materie scientifiche. L'italiano resta comunque l'asse portante di qualsiasi progetto didattico: sono in gioco la capacità di capire quel che si legge, di articolare un discorso efficace, di imparare il gusto della lettura e di accostarsi al patrimonio dei classici. Alla luce di una lunga esperienza e di una grande sensibilità didattica, Luca Serianni, tra i 'saggi' incaricati della supervisione dei nuovi programmi che entreranno in vigore nel settembre 2010, riflette a tutto campo sullo stato dell'italiano a scuola, guardando anche al latino, il tradizionale asse portante della cultura umanistica dall'Unità a oggi. Non si tratta di mettere sotto accusa qualcuno, men che meno gli insegnanti alle prese con un lavoro che viene scelto quasi sempre per vocazione ma deve fare i conti, oltre che con le ristrettezze di bilancio, con un precario riconoscimento sociale; si tratta di proporre riflessioni e suggerimenti operativi che rendano più efficace l'attività didattica, senza restare, per inerzia o per semplice omaggio alla tradizione, nel solco delle abitudini acquisite.

Manuale di linguistica italiana Luca Serianni, Giuseppe Antonelli, 2011 Nuova versione interamente rivista e aggiornata, ampliata di due capitoli e integrata con espansione on line, del volume di Serianni e Antonelli già uscito per Bruno Mondadori in due precedenti edizioni: *Stil.it. Storia ipertestuale della lingua italiana* (2002) e *L'italiano: istruzioni per l'uso* (2006). La trattazione, discorsiva e al contempo caratterizzata da un ordinato schema modulare, delinea la variegata fisionomia dell'italiano, ripercorrendone la storia dalle origini agli sviluppi attuali. Arricchito da schede di approfondimento, il libro riserva uno spazio significativo alle questioni grammaticali. Sul sito Internet dedicato sono disponibili analisi linguistiche svolte su testi di diverso tipo (brani letterari, giornalistici, parlari, trasmessi, canzoni) e una serie di esercizi. Un organico manuale di linguistica italiana per l'università, e una lettura consigliata a tutti i lettori interessati al passato e al presente della nostra lingua.

Prima lezione di storia della lingua italiana Luca Serianni, 2015-01-01T00:00:00+01:00 Dal latino all'italiano, dalla lingua popolare alla lingua poetica, dalla grammatica storica all'influenza dei contesti culturali e sociali. In questa Prima lezione, un grande maestro della linguistica guida il lettore in un percorso puntuale, sostanziato di fatti e di esempi (e perché no, di qualche curiosità), attraverso la disciplina fondamentale per capire la storia e l'evoluzione della nostra lingua.

Manual of Standardization in the Romance Languages Franz Lebsanft, Felix Tacke, 2020-01-20 Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present, and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric, in the Prague School, in the linguistic theory of Eugenio Coseriu, in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. Furthermore, the volume offers a discussion of the key issues regarding the standardization of the 'minor' Romance languages as well as Creoles.

Il verso giusto Luca Serianni, 2022-11-11T00:00:00+01:00 Valore assoluto, rappresentatività e, naturalmente, gusto personale sono i criteri che il grande storico della lingua Luca Serianni ha seguito nella scelta di cento poesie scritte 'in italiano' nell'arco di otto secoli di storia letteraria. Per quelli che non hanno familiarità con la poesia ma ne sono incuriositi, l'effetto è la sorpresa. A quelli che invece la praticano abitualmente, il verso giusto regala 'felicità mentale'. Dunque, tra sorpresa e felicità mentale, non si può chiedere di meglio. Paolo Di Stefano, Corriere della Sera Per chi ha amato la poesia a scuola e, magari a distanza di anni, avesse voglia di riscoprire i versi dei grandi poeti della tradizione lirica italiana, questo libro di Luca Serianni rappresenta un'occasione preziosa. Roberto Carnero, Avvenire Da Giacomo da Lentini a Petrarca, da Gaspara Stampa a Tasso, da Leopardi a Caproni e alla lirica femminile: cento tappe, cento testi - noti e meno noti - alla ricerca del 'verso giusto'.

The Social Dynamics of Pronominal Systems Paul Bouissac, 2019-07-15 Personal pronouns have a special status in languages. As indexical tools they are the means by which languages and persons intimately interface with each other within a particular social structure. Pronouns involve more than mere grammatical functions in live communication acts. They variously signal the gender of speakers as parts of utterances or in their anaphoric roles. They also prominently indicate with a range of degrees the kind of social relationships that hold between speakers from intimacy to indifference, from dominance to submission, and from solidarity to hostility. Languages greatly vary in the number of pronouns and other address terms they offer to their users with a distinct range of social values. Children learn their relative position in their family and in their society through the "correct" use of pronouns. When languages come into contact because of population migrations or through the process of translation, pronouns are the most sensitive zone of tension both psychologically and politically. This volume endeavours to probe the comparative pragmatics of pronominal systems as social processes in a representative set from different language families and cultural areas.

Le nuove grammatiche italiane Edgar Radtke, 1991

Interactions between Orality and Writing in Early Modern Italian Culture Luca Degl'Innocenti, Brian Richardson, Chiara Sbordoni, 2016-03-02

Investigating the interrelationships between orality and writing in elite and popular textual culture in early modern Italy, this volume shows how the spoken or sung word on the one hand, and manuscript or print on the other hand, could have interdependent or complementary roles to play in the creation and circulation of texts. The first part of the book centres on performances, ranging from realizations of written texts to improvisations or semi-improvisations that might draw on written sources and might later be committed to paper. Case studies examine the poems sung in the piazza that narrated contemporary warfare, commedia dell'arte scenarios, and the performative representation of the diverse spoken languages of Italy. The second group of essays studies the influence of speech on the written word and reveals that, as fourteenth-century Tuscan became accepted as a literary standard, contemporary non-standard spoken languages were seen to possess an immediacy that made them an effective resource within certain kinds of written communication. The third part considers the roles of orality in the worlds of the learned and of learning. The book as a whole demonstrates that the borderline between orality and writing was highly permeable and that the culture of the period, with its continued reliance on orality alongside writing, was often hybrid in nature.

Language Creativity Simone Casini, 2020-11-03 In *Language Creativity: A Semiotic Perspective*, Simone Casini aims to frame the concept of creativity within a linguistic dimension by developing a theoretical reflection with constant references to contact languages and to the educational plan. Semiotic creativity abandons the condition of the linguistic property *inter pares* and rises to the rank of theoretical and first principle by which languages define themselves, function and interact in the negotiation of meaning in relation to the social uses. Casini considers creativity as a premise for the rule changing of boundaries of meaning and creation of language and meaning. The work progresses starting from the historical-critical concept of creativity, discussing the most philosophical and linguistic theories in the North American and European context.

Gender Across Languages Marlis Hellinger, Hadumod Bußmann, 2002-04-10 This is the second of a three-volume comprehensive reference work on "Gender across Languages", which provides systematic descriptions of various categories of gender (grammatical, lexical, referential, social) in 30 languages of diverse genetic, typological and socio-cultural backgrounds. Among the issues discussed for each language are the following: What are the structural properties of the language that have an impact on the relations between language and gender? What are the consequences for areas such as agreement, pronominalisation and word-formation? How is specification of and abstraction from (referential) gender achieved in a language? Is empirical evidence available for the assumption that masculine/male expressions are interpreted as generics? Can tendencies of variation and change be observed, and have alternatives been proposed for a more equal linguistic treatment of women and men? This volume (and the previous two volumes) will provide the much-needed basis for explicitly comparative analyses of gender across languages. All chapters are original contributions and follow a common general outline developed by the editors. The book contains rich bibliographical and indexical material. Languages of Volume 2: Chinese, Dutch, Finnish, Hindi, Icelandic, Italian, Norwegian, Spanish, Vietnamese, Welsh.

Encyclopedia of Italian Literary Studies Gaetana Marrone, Paolo Puppa, 2006-12-26 The *Encyclopedia of Italian Literary Studies* is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The *Encyclopedia* is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The *Encyclopedia* also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Grammatical Replication and Borrowability in Language Contact Björn Wiemer, Bernhard Wälchli, Björn Hansen, 2012-07-04 The volume presents new insights into two basic theoretical issues hotly debated in recent work on grammaticalization and language contact: grammatical replication and grammatical borrowability. The key issues are: How can grammatical replication be distinguished from other, superficially similar processes of contact-induced linguistic change, and under what conditions does it take place? Are there grammatical morphemes or constructions that are more easily borrowed than others, and how can language contact account for areal biases in the borrowing (vs. calquing) of grammatical formatives? The book is a major contribution to the ongoing theoretical discussion concerning the relationship between grammaticalization and language contact on a broad empirical basis.

Reassessing the Role of the Syllable in Italian Phonology Kristie McCrary Kambourakis, 2020-11-26 This book evaluates the predictions of syllable-based analyses of Italian in three domains: native speaker intuition of consonant cluster syllabification, definite article allomorphy, and segment duration, and tests the claimed convergence of multiple phenomena on the same syllable structure.
