Archery Dawson Albert,2019-05-29 How To Hit A Bull's Eye In A Day With The Royal Discipline Of Archery "An archer cannot hit the bullseye if he doesn't know where the target is." Did you ever wish you could shoot arrows like Robin Hood, Hawkeye or Katniss Everdeen? Whenever you watch the Lord of the Rings, you imagine how powerful it must be to step in the shoes of Legolas... ..face your target ...draw back your bow ...and just shoot. Yet, you push the thought into the corner of stupid childhood dreams, knowing archery is just for entertaining movie scenes. You are wrong. The medieval way of hunting turned into a royal discipline for everyone who wants to improve their confidence and become quicker than the fastest animal in the world. Yes, your laser-sharp focus could even help you catch a cheetah. Yet, archery is much more than just a safari hunt. Archery was one of the first disciplines in the Olympic games and the latest gold medal winner Ku-Bon-Chan proves why it is a tough sport that needs practice and the right strategy. Becoming the next Legolas requires much more than randomly picking an arrow from your quiver. And even if you just want to rediscover your inner child, it is much more fun to shoot arrows in the woods if you know how to hit your target. No one wants to miss their goal. Good thing, if you follow this simple but effective plan to get to the next level, you can improve your skill set within just one practice. How many times have you started on something and given up within a week because you got frustrated? A lot of people share this story. They start a new thing without any knowledge and expect themselves to be perfect within the first couple of shots. Perfection might never be possible in the golden sports of archery. Yet, you can instantly succeed and hit your first target if you know how. In "Archery", you'll discover: - How to start your Legolas journey and bring Lord of the Rings into reality - What are the Do's and Don'ts to build a strong foundation in archery - How to make sure your arrow doesn't hit your neighbor's dog - Where to look for the

bullseye - How to practice without even touching your bow and arrow - 9 common mistakes to avoid and take the shortcut to success - Which bow will turn archery into a piece of cake - How to maintain your golden instrument - Tournaments for everyone from absolute beginner to Olympic star - How much pocket money you need to become an archer And much more. No matter if you want to go at your own pace and enjoy some exercise or if you want to become an Olympian. If you want to increase confidence, focus and quick response time, archery is your sport. Even if you are the most uncoordinated person in the world, the given strategies will help you to catch your perfect meal next time you are lost in the woods. Give it a shot, draw your bow and know how to shoot. Every childhood dream starts with the first action. Stop dreaming and start doing!

A Beginners Guide to Archery Form David Mullen,2017-07-14 Developing proper archery form is as critical as having a well tuned bow and the correct arrows. Even the best bow on the market will not perform with any great accuracy without proper form. There are many elements involved with archery form and as a beginner it can be quite frustrating at first but when practiced good archery form will become second nature to you. As a beginner, you may find yourself saying 'I did that shot the same as the last but the arrows are way off'. This is quite common and is it worth remembering that archery is unforgiving and even the slightest of error can cause your arrows to wander off target. This book will guide you through the key parts of archery form; stance, grip, finger position, preparing the shot, drawing the bow, anchoring, aiming, loosing and follow through. The book also contains common problems with form and consistent shooting, and how to resolve these issues. This is the best place to start for beginners and for those wishing to improve their form and find consistency in finding the center of the target.

Archery for Fun and Food Jill Underwood,2018-07-03 So you want to shoot a bow but don't know how. Do you find the whole idea of holding a bow in your hands intimidating and a little scary? Do you want to learn a new skill that will allow you to enjoy the great outdoors year-round with your spouse, family, or friends? This book is going to break down--in simple to understand terms--how you can get started with your new hobby. You'll learn what to look for in a bow and all the accessories that go with it. You'll learn terminology to assist you in your quest. This book is written for beginners to provide a basic understanding of bows, arrows, and fun. Shooting a bow will increase your confidence and improve your self-esteem. It'll bring you out of your shell and help you stop being such an introvert. I promise that if you follow through with the suggestions in this book, you'll be amazed at how much better you'll start to feel, both physically and mentally. Why wait? Beginners Guide to Recurve Archery Equipment David Mullen,2014-06-08 A beginners guide to recurve archery

equipment. The essential equipment required to get started in recurve archery and the difference in price, quality, materials and the impact on performance. Advice on purchasing your first bow, arrows, and all other accessories for those on a budget. Beginning recurve archery is an exiting journey, from taking the first steps in enrolling on a beginner's course, shooting your first arrows and eventually joining a local club and participating in competitions. Buying your first bow and equipment can be overwhelming for a beginner especially with the range of brands and accessories that are available. For example there are probably hundreds of finger tabs available from makes such as Soma, Cartel, Decut, Armex, Avalon and many more with prices ranging from as little as \$1.50 to as much as \$50.00 plus. But what is the difference between them? Will the cost/quality of a finger tab really affect your performance? The answer to these questions depends on another set of questions such as are you buying on a budget? And what do you want to achieve in archery? This book will review the equipment needed in archery, what the purpose and differences are, how this affects your performance and a rough guide to the price of the equipment. This E-Book is a great place for any beginner or intermediate archer to start and with provide you with knowledge and confidence to buy your own equipment.
