Titanic and Liverpool Alan Scarth,2009-01-01 If you had been behind the Titanic on that fateful night in 1912, the last word that flashed before your eyes as the great ship was lost to the sea would have been 'Liverpool'. The ship's loss, a national and international tragedy, was also a tragedy for its home port and this fascinating book explores the history and myths surrounding the sinking, highlighting for the first time new and extraordinary stories that link Europe's pre-eminent port and its most famous maritime loss. Using material from the White Star line archives, the extensive holdings of the Merseyside Maritime Museum, new illustrations and a variety of historical sources, Scarth unearths the full back story of key characters and companies: many of her key officers and crew were either from Liverpool or had strong links with the port, the ship's owners were based in the City, many of the most colourful tales emerging from the disaster relate to Liverpool people and here, where appropriate, we find out what happened to them after the sinking. **Titanic and Liverpool** will be compulsory reading for anyone interested in the Titanic and also for anyone hoping to understand Liverpool's role as the

great processing port of Europe and gateway to the US and Canada.

Pre-Raphaelite Treasures at National Museums Liverpool Laura MacCulloch,2013 A beautifully illustrated colour catalogue of the fine collection of Pre-Raphaelite paintings at National Museums Liverpool, including the work of Dante Gabriel Rossetti, John Everett Millais and William Holman Hunt.

Pre-Raphaelites: Beauty and Rebellion Christopher Newall,2016-01-26 Pre-Raphaelites: Beauty and Rebellion presents new research into Pre-Raphaelites in Northern England to accompany an exhibition of artworks of the same title at Liverpool's Walker Art Gallery from February 2016.

The Huxley Viking Hoard James Graham-Campbell,Robert A. Philpott,2009 In 2004 an important new Viking silver hoard was discovered near Huxley, Cheshire. This book brings together leading specialists on the Vikings to set out the latest research into Scandinavian settlement and activity in the North West and Wales, including archaeological evidence and the contribution of place names, historical research, and stone sculpture to our understanding of the period. These contributors also provide a definitive account of the objects themselves, their likely origin and date of manufacture, and

consider the intriguing questions of why the hoard was buried in England and by whom.

Courts and Alleys Elizabeth J. Stewart, Liz Stewart (Archaeologist), 2019 As Liverpool grew in the 18th and 19th centuries, there was high demand for new homes. High-density back-to-back housing around courtyards provided cramped, dark and often damp homes to Liverpool's working-class people. This book uses a range of historical and archaeological evidence to consider life in courts.

Polar the Titanic Bear Daisy Corning Stone Spedden, 2001-09-01 Written for her son by an American heiress whose family survived the 1912 sinking of the Titanic, this account of the Edwardian life and of the disaster is told through the eyes of the young boy's teddy bear. Illustrated with watercolors and family photographs, this book makes an ideal read-aloud.

The Midnight Watch David Dyer, 2016-04-05 As the Titanic and her passengers sank slowly into the Atlantic Ocean after striking an iceberg late in the evening of April 14, 1912, a nearby ship looked on. Second Officer Herbert Stone, in charge of the midnight watch on the SS Californian sitting idly a few miles north, saw the distress rockets that the Titanic fired. He alerted the captain, Stanley Lord,

who was sleeping in the chartroom below, but Lord did not come to the bridge. Eight rockets were fired during the dark hours of the midnight watch, and eight rockets were ignored. The next morning, the Titanic was at the bottom of the sea and more than 1,500 people were dead. When they learned of the extent of the tragedy, Lord and Stone did everything they could to hide their role in the disaster, but pursued by newspapermen, lawyers, and political leaders in America and England, their terrible secret was eventually revealed. The *Midnight Watch* is a fictional telling of what may have occurred that night on the SS Californian, and the resulting desperation of Officer Stone and Captain Lord in the aftermath of their inaction. Told not only from the perspective of the SS Californian crew, but also through the eyes of a family of third-class passengers who perished in the disaster, the narrative is drawn together by Steadman, a tenacious Boston journalist who does not rest until the truth is found. David Dyer's *The Midnight Watch* is a powerful and dramatic debut novel--the result of many years of research in Liverpool, London, New York, and Boston, and informed by the author's own experiences as a ship's officer and a lawyer.

Sea Liverpool Adrian Jarvis,2006

Cityscape Ann Bukantas,2008 *Cityscape: Ben Johnson's Liverpool* has been three years in the making and takes in Liverpool's famous skyline from a vantage point high above the River Mersey. It encompasses several thousand individual buildings and has taken Johnson and up to 11 assistants 24,000 person hours so far. *Cityscape: Ben Johnson's Liverpool* is both a breathtaking portrait of the city of Liverpool and part of Johnson's magnificent World Panoramas series. The artist works to the scale of a Renaissance painter, producing what The Guardian has called 'almost impossibly ambitious cityscapes' from around the world. -- Provided by publisher.

The Tudors Charlotte Bolland,2022 *Situating the Tudor dynasty, their court, and the country, in an international context*, this book will be highly illustrated and feature contemporary research in an accessible way. It will provide an overview of the ways in which the Tudors engaged with the world and were impacted by broader currents: the internationalism of court culture, religious shifts, trade, naval conflict and the expansion in the Americas. The introductory text will consider the legacies of the

Tudors, as the monarchs who reigned during the tumultuous years of the Reformation and the emergence of the transatlantic slave trade and English colonialism. Taking a thematic and biographical approach, the book will feature some of the most famous royal and court figures from the sixteenth century, from Henry VIII and Thomas Cromwell, to Elizabeth I and Walter Raleigh. The works shown will be explored from a multitude of perspectives, looking at the sitters' impact at home and abroad in Europe and the Americas. The international impact of the Tudors will be very evident the portraits featured, the artists of which came from Netherlands, Germany, France and Italy. Artworks will be arranged by the key themes of: court culture, religion, queenship, conflict, empire, piracy and trade, and translation. Each theme will feature an opening text from a range of voices exploring the historical contexts of the works and new research on the topics. It will include biographical sketches of individuals whose role in Tudor history has often been overlooked, such as the trumpeter John Blanke.

Titanic Philip Wilkinson,2012 Chronicles the history, inner workings, passengers, sinking, and impact of the legendary liner.

A Brief History of Slavery Jeremy Black,2011-08-18 A thought-provoking and important book that raises essential issues crucial not only for understanding our past but also the present day. In this panoramic history, Jeremy Black tells how slavery was first developed in the ancient world, and reaches all the way to the present in the form of contemporary crimes such as trafficking and bonded labour. He shows how slavery has taken many forms throughout history and across the world - from the uprising of Spartacus, the plantations of the West Indies, and the murderous forced labour of the gulags and concentration camps. Slavery helped to consolidate transoceanic empires and helped mould new world societies such as America and Brazil. Black charts the long fight for abolition in the nineteenth century, looking at both the campaigners as well as the harrowing accounts of the enslaved themselves. Slavery is still with us today, and coerced labour can be found closer to home than one might expect.

Titanic Hero Arthur H. Rostron,2011-08-15 The story of the Titanic in the words of the hero whose swift action saved the lives of 710 survivors.

Gilded Lives, Fatal Voyage Hugh Brewster, 2012-03-27 **Gilded Lives, Fatal Voyage** takes us behind the paneled doors of the Titanic's elegant private suites to present compelling, memorable portraits of her most notable passengers. The Titanic has often been called "An exquisite microcosm of the Edwardian era," but until now, her story has not been presented as such. In **Gilded Lives, Fatal Voyage**, historian Hugh Brewster seamlessly interweaves personal narratives of the lost liner's most fascinating people with a haunting account of the fateful maiden crossing. Employing scrupulous research and featuring 100 rarely seen photographs, he accurately depicts the ship's brief life and tragic denouement and presents compelling, memorable portraits of her most notable passengers: millionaires John Jacob Astor and Benjamin Guggenheim; President Taft's closest aide, Major Archibald Butt; writer Helen Churchill Candee; the artist Frank Millet; movie actress Dorothy Gibson; the celebrated couturiere Lady Duff Gordon; aristocrat Noelle, the Countess of Rothes; and a host of other travelers. Through them, we gain insight into the arts, politics, culture, and sexual mores of a world both distant and near to our own. And with them, we gather on the Titanic's sloping deck on that

cold, starlit night and observe their all-too-human reactions as the disaster unfolds. More than ever, we ask ourselves, “What would we have done?”

The Wreck of the Titan Morgan Robertson,1912

Liverpool and the Slave Trade Anthony Tibbles,2018 *Liverpool and the Slave Trade* is the first comprehensive account of the city's role in the slave trade. Drawing on recent research, contemporary documents and illustrations, it provides a detailed account of how the trade operated and was eventually brought to an end--

Art and the Sea Emma Roberts,2022-04-15 This edited collection re-examines the relationship between art and the sea, reflecting growing interest in the intersections between art and maritime

history. Artists have always been fascinated by and drawn to the sea and this book considers some of the themes and approaches in art that have evolved as a result of this captivation. The chapters consider how an examination of art can provide new insights into existing knowledge of port and maritime history, and are representative of a 'cultural turn' in port and maritime studies, which is becoming increasingly visible. In *Art and the Sea*, multiple perspectives are offered as a result of the contributors' individual positions and methodologies: some museological, others art historical or maritime-historical. Each chapter proposes a new way of building upon available interpretations of port and maritime history: whether this be to reject, support or reconsider existing knowledge. The book as a whole is a timely addition, therefore, to the developing body of revisionist texts in port and maritime history. The interdisciplinary nature of the volume relates to a current trend for interdisciplinarity in art history and will appeal to those with an interest in art history, geography, sociology, history and transport / maritime studies.
