Have You Seen My... Umm... Memory? Miller Caldwell, 2004-11 Everyone has had the frustrating experience of putting something down and then forgetting where. Although there are many factors that contribute to the ability to remember; it is also a simple fact that some people are better at remembering than others. Outside influences like stress, hormone problems, or even the side-effects of medications can make people absentminded and forgetful. But what if your memory is simply getting progressively worse? Are you frequently embarrassed at not being able to remember someone's name? Have you ever driven away from a petrol station and genuinely forgotten to pay? Are these episodes of memory loss driving you to despair? If so, then this book by Miller Caldwell is not only going to amuse and entertain you, but it will provide you with many serious tips and self-help exercises that will help you train your brain all over again! Mr Caldwell begins by explaining his own diagnosed condition called mild cognitive impairment (MCI) and the frustration he felt at having to retire early because of short-term memory loss. He explains in simple terms how the human brain processes our thoughts and then stores them in preparation for recall. He explains how in most people, sharp thinking and reasoning skills are unaffected by short-term memory decline and suggests that, if an older person learns information in the right way, he or she is just as likely to remember it as a younger counterpart. Each helpful tip and suggested exercise comes with an anecdote from Caldwell's many varied and fascinating life experiences, including how he almost married the wrong woman! Presented in a delightful and straightforward format, this book will be an invaluable companion to those of us who are just a little bit forgetful or, equally, to those in the early stages of dementia. Oh, and just in case you forget, the charming cover illustration of an elephant with a knot in its trunk will remind you to pick up a copy of your own.

American English File 3E Level 5 Student Book Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, 2020-07-28 American English File Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language + motivation = opportunity. With grammar, vocabulary, and pronunciation practice in every lesson, students are equipped with a solid foundation for successful speaking. Plus - an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.

The Distance Zoë Folbigg, 2018-06-18 Every love story has a beginning, it's how you get the end that counts... Under the midnight sun of Arctic Norway, Cecilie goes online looking for friends, and stumbles across Hector Herrera. They start chatting and soon realise that 'love at first word' might just be possible. But there are two big problems: Hector lives thousands of miles away in Mexico. And he's about to get married. Cecilie's whole life has been anchored by sticking to what she knows, and her job at the cafe in the town in which she grew up. Can she really change her whole life for someone she's never met? And will Hector escape his turbulent past, not to mention his imminent marriage, and make a leap of faith to change the path he's on? This is a story of two people, living two very different lives, and whether they can cross a gulf, ocean, sea and fjord to give their love a chance.
