*The Hite Report on Male Sexuality* Shere Hite, 1982 Over 7,000 men, ages thirteen to ninety-seven, speak out about: What they think of women - as wives, lovers, and friends; why a majority of men like marriage but are not faithful; what they think about love - and why they often distrust it.

**The Hite Report** Shere Hite, 2011-01-04 A reproduction of the classic text, unavailable now for more than a decade, with a new introduction by the author. The Hite Report, first published in 1976, was a sexual revolution in six hundred pages. To answer sensitive questions dealing with the most intimate details of women's sexuality, Hite's innovation was simple: she asked women, a lot of them, everything--and published the results. One hundred thousand women, ages fourteen to seventy-eight, were asked what they do and don't like about sex; how orgasm really feels, with and without intercourse; how it feels not to have an orgasm during sex; the importance of clitoral stimulation and masturbation; and to name the greatest pleasures and frustrations of their sexual lives, among many other questions. The Hite Report declares that orgasm is easy and strong for women, given the right stimulation; that most women have orgasm most easily during masturbation or clitoral stimulation by hand; that sex as we define it is a cultural institution, not a biological one; and that attitudes must change to include the stimulation women desire.

**The Hite Report on the Family** Shere Hite, 1996-04 In this major study, groundbreaking researcher Shere Hite challenges established views on the family, arguing that it is not collapsing--as advocates of traditional family values would have us believe--but instead shifting from a rigid, patriarchal formula to increasingly egalitarian, custom-tailored variations. **The Shere Hite Reader** Shere Hite, 2011-01-04 The Shere Hite Reader presents wide-ranging analysis on the individual and society from a renowned thinker on psychosexual development. The book includes new science in addition to previously published material, reflecting Hite's three decades of work probing the roots of human identity through questionnaires and theory. For the first time Hite formalizes her thinking on male adolescence, that boys

feel tortured by the new social role they are forced to assume at puberty requiring a show of superiority toward females. In new detail Hite advances her understanding that sex is political, linking the expectation on women to achieve orgasm through coitus with broader patterns of oppression. Hite discusses new research on female adolescence, challenging the virgin hymen concept, and documenting that sexual awakening often precedes puberty. Hite also argues that pornography misrepresents male sexuality (not to mention female sexuality), depicting it as singular and silly instead of full of intriguing, nuanced behavior involving the entire body, not just the penis. The authoritative collection of her work, *The Shere Hite Reader* challenges the reader to a new way of seeing.

*The Hite Report on Women Loving Women* Shere Hite, 2007 In this latest Hite Report the friendship between women and the societal definitions of such, friendship are examined: what are the limits, does it include sex, its historical context, and other, pressing issues.
