*Artificial Intelligence in Structural Engineering* Ian Smith,1998-07-15 This book presents the state of the art of artificial intelligence techniques applied to structural engineering. The 28 revised full papers by leading scientists were solicited for presentation at a meeting held in Ascona, Switzerland, in July 1998. The recent advances in information technology, in particular decreasing hardware cost, Internet communication, faster computation, increased bandwidth, etc., allow for the application of new AI techniques to structural engineering. The papers presented deal with new aspects of information technology support for the design, analysis, monitoring, control and diagnosis of various structural engineering systems.

The Marine Corps Tanks Collection Oscar E. Gilbert,2018-09-18 "Together these books provide the definitive history of the USMC's tank forces . . . Very highly recommended" (Military Modelcraft International). **Marine Corps Tank Battles in Korea:** A detailed and gripping account of the little-known Marine tank engagements during the Korean War, from the valiant defense at Pusan and the bitter battles of the Chosin Reservoir to the bloody stalemate along the Jamestown Line. Oscar E. Gilbert unfolds the unique role played by tanks in the destruction of the ill-fated Task Force Drysdale, how Marine armor was a key factor in the defense of Hagaru, and how a lone tank made it to Yudamni and then led the breakout across the high Toktong Pass. **Marine Corps Tank Battles in Vietnam:** In 1965 the large, loud, and highly visible tanks of 3rd Platoon, B Company, 3rd Tank Battalion landed across a beach near Da Nang, drawing unwelcome attention to America's first, almost covert, commitment of ground troops in South Vietnam. Marine Corps tankers sought out the enemy in the sand dunes, jungles, mountains, paddy fields, tiny villages, and ancient cities of Vietnam, dealing with guerrilla ambushes from the Viet Cong and the long-range artillery capability of the North Vietnamese Army. **Marine Corps Tank Battles in the Middle East:** In America's longest continual conflict, armored Marines became entangled in guerrilla war amid the broiling deserts, ancient cities, and rich farmlands of Iraq, and in the high, bleak wastes of Afghanistan. Fighting a fanatical foe who brutalized civilians, planted sophisticated roadside bombs, and seized control of entire cities, the Marine Corps tankers cleared roads, escorted convoys, conducted endless sweep operations

to locate and destroy insurgent strongholds, protected voting sites for free elections, and recaptured and rebuilt urban centers, even adding a new trick to their repertoire: long-range surveillance. Tanks in Hell: On November 20, 1943, the 2nd Marine Division launched the first amphibious assault of the Pacific War, directly into the teeth of powerful Japanese defenses on Tarawa. In that blood-soaked invasion, a single company of Sherman tanks, of which only two survived, played a pivotal role in turning the tide from looming disaster to legendary victory.
