Theoretical Physics In Your Face: Selected Correspondence Of Sidney Coleman Aaron Sidney Wright,Diana Coleman,David Kaiser,2022-08-18 Sidney Coleman (1937-2007) was a renowned theoretical physicist, who taught for more than forty years at Harvard University. He contributed critical work on quantum field theory, high-energy particle physics, and cosmology. He was also a remarkably effective teacher who introduced generations of physicists to quantum field theory, mentoring several leading members in the field. His sense of humor and wit became legendary. This selection of his previously unpublished correspondence illuminates changes in theoretical physics and in academic life over the course of Coleman's illustrious career.The letters show the depth of Coleman's activities and interests, including science fiction, space travel, and the US counter culture.The volume also includes Coleman's legendary lecture 'Quantum Mechanics in Your Face.'

Looking Through the Water Ginny Karoub , In Looking Through the Water, it is the summer of 1973 in Tipton, Missouri. Cassie Marvin is a very precocious, imaginative seven-year-old whose whole world consists of a few blocks surrounding downtown Tipton. Cassie's home life lacks in so many areas. A relationship with her mother is almost nonexistent. The emotional needs of one, The lack of emotions in the other will take you on a journey through childhood fun times and situations that make Cassie mature before her time. Beautiful and realistic, Looking Through the Water is a vivid depiction of the challenges of love, hope, and forgiveness we can experience in life. Ginny Karoub's poignant novel will touch your heart and inspire you to appreciate the good things in life.
