La modification unilatérale du contrat de travail Paul Brasseur, Jean-Philippe Cordier, Laurent Dear, 2010 Cette recherche collective ambitionne de revisiter les sources du droit, en ce compris les sources nouvelles dont on rend généralement compte sous le label soft law. L'importance et la diversité des enjeux théoriques et pratiques soulevés par cette entreprise, tout comme l'ampleur du matériau abordé, ont justifié la publication de quatre volumes. Si, à des fins avant tout pédagogiques, la classification des contributions suit la voie classique de la pyramide des normes, ce plan ne préjuge cependant nullement du contenu des analyses (qui, à bien des reprises, révéleront les bougés de la pyramide et la pertinence du modèle du droit en réseau). Ces quatre ouvrages sont le fruit de la collaboration du Séminaire interdisciplinaire d'études juridiques (SIEJ) et du Centre interdisciplinaire de recherches en droit constitutionnel et administratif (CIRC), tous deux ancrés aux Facultés universitaires Saint-Louis à Bruxelles.

Mutations de l'entreprise et modification du contrat de travail Jean-Emmanuel Ray, 2000 Fusions, OPA plus ou moins amicales, restructurations tous azimuts, auxquelles s'ajoute désormais le passage aux 35 heures, fait social susceptible de bouleverser l'ensemble des sources, du droit du travail

(conventions de branche, d'entreprise, usages et contrat de travail). Autant pour l'employeur que pour le salarié, la question essentielle est aujourd'hui celle de la gestion juridique du changement dans l'entreprise. Or sur ce terrain, on peut parler du bouleversement du droit de la modification : la jurisprudence a en effet profondément modifié les règles applicables, et les arrêts de mai 1999 semblent avoir bouclé la boucle. Le législateur lui-même, jusqu'ici absent, a dû également intervenir par la loi Aubry II de décembre 1999. Sur un ton résolument vivant et en multipliant des exemples concrets, cet ouvrage invite le lecteur à connaître, mais aussi et surtout à comprendre cette évolution majeure sur le plan théorique et pratique, où des rumeurs inexacts côtoient souvent de vraies-fausse informations. La première partie de l'ouvrage est consacrée à la modification du contrat individuel : Peut-on par exemple revoir la structure de la rémunération d'un cadre sans son accord ? Le muter de Paris à Nancy en vertu d'une clause de mobilité signée il y a vingt ans ? Modifier son forfait dans le cadre d'un passage aux 35 heures ? Quelles sont les procédures à suivre ? Que faire en cas de refus du salarié ? Il faudra ici constater que, si la modification est un instrument privilégié du maintien de l'emploi, elle peut aussi se révéler très proche du droit de licenciement avec ou sans indemnité de rupture. La seconde partie est relative à la modification des sources collectives, elles aussi visées par le grand chambardement : Quid des clauses du contrat de travail en cas de modification de la convention de branche ou de l'accord d'entreprise ? Un

salarié peut-il refuser l'application d'un accord 35 heures signé par tous les présents, mais modifiant légèrement son niveau de rémunération ou largement ses horaires de travail ? L'entreprise peut-elle revenir sur des usages immémoriaux, ou l'employeur sur un engagement unilatéral pris il y a cinq ans devant le comité d'entreprise ? Pour être complet, il fallait également dire un mot de la modification de la législation française, comme du droit communautaire : le Contrat individuel peut-il être modifié par une telle évolution ?

Advances in Turbulence VII Uriel Frisch,2012-12-06 *Advances in Turbulence VII* contains an overview of the state of turbulence research with some bias towards work done in Europe. It represents an almost complete collection of the invited and contributed papers delivered at the Seventh European Turbulence Conference, sponsored by EUROMECH and ERCOFTAC and organized by the Observatoire de la Côte d'Azur. New high-Reynolds number experiments combined with new techniques of imaging, non-intrusive probing, processing and simulation provide high-quality data which put significant constraints on possible theories. For the first time, it has been shown, for a class of passive scalar problems, why dimensional analysis sometimes gives the wrong answers and how anomalous intermittency corrections can be calculated from first principles. The volume is thus geared towards specialists in the area of flow turbulence who could not attend the conference as well as anybody

interested in this rapidly moving field.

Collective Bargaining in Labour Law Regimes Ulla Liukkunen, 2019-10-02 This book addresses the theme of collective bargaining in different legal systems and explores legal framework of collective bargaining as well as the role of different bargaining models in domestic labour law systems in altogether twenty-one jurisdictions throughout the world. Recent development of collective bargaining regimes can be viewed as part of a larger development of labour law models that face increasing challenges caused by globalization and transition of work and workplaces. The book places particular emphasis on identifying and examining most important development trends affecting domestic labour law regimes and collective bargaining and regulatory responses thereto. The analysis offered extends to transnational dimension of collective bargaining. As the chapters analyse the influence of the legal frameworks of collective bargaining in different countries they provide unique comparative insight into the topic which is central to understanding the function of labour law.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had

developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Offers six complementary perspectives based on national contributions, and develops a policy perspective.

Modern Forms of Work Stefano Bellomo, Fabrizio Ferraro, 2020-10-06 The collective volume "Modern Forms of Work. A European Comparative Study" evokes the intent to embody a reflection focused on modern labour law issues from a comparative perspective. A first set of essays contains national reports on modern forms of work. The second group contains some reflections regarding critical issues on digitalization, platforms and algorithms, analysing the different facets of the galaxy of digital work. The third group of essays flows into the section entitled "new balances and workers' rights in the digital era", a crucial topic in the debate. The complex of the writings, despite the diversity of approaches and methods, reveals the existence of a dense and inexhaustible dialogue between young scholars, at European and extra-European level. The analysis of new forms of work – the offspring of transnational processes of globalization and technologization – forms a fertile ground for experimenting a transnational dialogue on which young researchers can practice with excellent results, as this small volume

confirms.

European Contract Law Bénédicte Fauvarque-Cosson, Denis Mazeaud, 2009-04-27
The Association Henri Capitant des Amis de la Culture Juridique Française and the Société de législation comparée joined the academic network on European Contract Law in 2005 to work on the elaboration of a common terminology and on guiding principles as well as to propose a revised version of the Principles of European Contract Law (PECL). The results of this work were sent to the European Commission and have already been published in French. The English translation is now being published by sellier.elp. This work could contribute to the wider European project. The part on the guiding principles could be a component of the CFR, in the form of black letter model rules or recitals. The part on terminology is, in itself, useful for the elaboration of the final various linguistic versions of the CFR. It finds its place within the materials which will accompany the model rules. Last but by no means least, the revised version of the PECL should be considered by the European institutions as an alternative set of model rules on contract law.
