Make Your Bed Admiral William H. McRaven,2017-04-04 Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons should be read by every leader in America (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, What starts here changes the world, he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. Powerful. --USA Today Full of captivating personal anecdotes from inside the national security vault. --Washington Post Superb, smart, and succinct. --Forbes

Public Speaking for Success Dale Carnegie,2006-05-04 Dale Carnegie, author of the legendary *How to Win Friends and Influence People*, began his career as the premier life coach of the twentieth century by teaching the art of public speaking. Public speaking, as Carnegie saw it, is a vital skill that can be attained through basic and repeated steps. His classic volume on the subject appeared in 1926 and was revised twice-in shortened versions-in 1956 and 1962. This 2006 revision-edited by a longtime consultant to Dale Carnegie & Associates, Inc., and the editor in charge of updating *How to Win Friends and Influence People*-is the definitive one for our era. While up-to-date in its language and points of reference, *Public Speaking for Success* preserves the full range of ideas and methods that appeared in the original: including Carnegie's complete speech and diction exercises, which follow each chapter, as the author originally designated them. This edition restores Carnegie's original appendix of the three complete self-help classics: *Acres of Diamonds* by Russell H. Conwell, *As a Man Thinketh* by James Allen, and *A Message to Garcia* by Elbert Hubbard. Carnegie included these essays in his original edition because, although they do not directly relate to public speaking, he felt they would be of great value to the readers. Here is the definitive update of the best-loved public-speaking book of all time.

**War, Memory, and the 1913 Gettysburg Reunion** Thomas R. Flagel,2019 Union and Confederate veterans meet at Gettysburg on the 50th anniversary of the battle This June 29-July 4 reunion drew over 55,000 official attendees plus thousands more who descended upon a town of 4,000 during the scorching summer of 1913, with the promise of little more than a cot and two blankets, military fare, and the presence of countless adversaries from a horrific war. Most were revisiting a time and place in their personal history that involved acute physical and emotional trauma. Contrary to popular belief, veterans were not motivated to attend by a

desire for reconciliation, nor did the Great Reunion produce a general sense of a reunified country. The reconciliation premise, advanced by several major speeches at the anniversary, lived in rhetoric more than fact. Recent scholarship effectively dismantles this Reconciliation of 1913 mythos, finding instead that sectionalism and lingering hostilities largely prevailed among veterans and civilians. Flagel examines how individual veterans viewed the reunion, what motivated them to attend, how they acted and reacted once they arrived, and whether these survivors found what they were personally seeking. While politicians and the press characterized the veterans as relics of a national crusade, Flagel focuses on four men who come to the reunion for different and very individual reasons. Flagel's book adds significantly to Gettysburg literature and to Civil War historiography.

**Sociocultural Identities in Music Therapy** Susan Joan Hadley,2021-09-08 Sociocultural Identities in Music Therapy is a collection of personal narratives by 18 music therapists who engage in a critical culturally reflexive process and explore implications for their therapeutic practice. Amongst the authors, there is gender diversity, diversity of sexualities, racial diversity, ethnic diversity, neurodiversity, geographical diversity, linguistic diversity, educational diversity, and more. Each person's intersectional identity positions them differently in terms of their sociocultural location and thus each has differing experiences of unearned advantages or disadvantages based purely on their membership in various sociocultural groups in unique combinations. As such, each person distinctively explores how they experience and are experienced in social contexts. Woven together, this book is a rich tapestry of the sociocultural identities of music therapists and implications for their therapeutic relationships and processes. It provides a deep understanding and appreciation of the concept of culture and its omnipresence in all we do and all we are. The hope is that these narratives, and the included strategies for doing this kind of critical culturally reflexive work, will guide music therapy students and practitioners to examine their own sociocultural location and experiences, and that it will open music therapists to consider their relational dynamics in all aspects of their lives.

**Guiding Young Children** Patricia F. Hearron,Verna Hildebrand,2005 The seventh edition of this popular book supports the authors' belief that guidance is more than getting children to do what you want them to do now; it is helping them to become everything they can become for all of their tomorrows. The book provides an overview, followed by discussion of core concepts, strategies for applying those concepts, and, finally, the broader perspective of professionalism and human resource development. Its approach focuses on the need to consider a child's developmental level as well as family and cultural context when planning environments and activities for young children. Unlike others in the field, it offers concrete suggestions on how to guide children while they are involved in specific activities such as playing, eating, napping, etc. For teachers and parents of young children.
