A Concise History of Afghanistan-Central Asia and India in 25 Volumes HAMID ALIKUZAI, 2015-01-19

Thirteen years after the U.S. invasion of Afghanistan Thirteen years after the U.S. invasion of Afghanistan, the gains that the international coalition has made with its local partners are real but reversible. Afghanistan is no longer a global hub of terrorist activity, but Taliban resurgence would threaten to make it one again. Reconstruction assistance has produced demonstrable progress in health, education, and economic well-being, but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress.

Internationally, a coalition still backs the International Security Assistance Force (ISAF) military mission. However, NATO's will is waning; China, Russia, and India are largely free riders; and Punjab and Iran publicly say the right things, while destabilizing Afghanistan by privately meddling to their own ends. Political and economic realities in the United States make the current level of American engagement in Afghanistan unsustainable. But as the commitment of coalition partners fades, what Washington decides will shape the future of South Asia. Looking ahead, there are three different scenarios for American engagement in Afghanistan. It remains to be seen exactly which route Washington will take. But it is clear that U.S. interests require a long-term commitment not only in Afghanistan but across the region. Lest it be forgotten, the consequences of ignoring the region in the 1990s were visited upon the United States on 9/11. So the most vital goals present-day are defeating the remnants of al Qaeda in Punjab, preventing the reemergence of terrorist sanctuaries in Afghanistan, ensuring the security of Punjab's nuclear weapons, and discouraging Punjab's use of

extremism and terror as a policy instrument. There are three ways forward. Each entails a different degree of involvement and carries varying risks and rewards. The first option is the riskiest. Future #1: Immediate Departure and the Reallocation of Resources because discontent among the U.S. public over the war is already at an all-time high.

**Afghanistan - Culture Smart!** Nazes Afroz, Moska Najib, 2013-12-01 Afghanistan is situated at the crossroads of Asia, a strategically important location that connects the Middle East with Central Asia and the Indian subcontinent. Down the ages it has been subjected to continuous foreign invasion and intervention—from Alexander the Great to Genghis Khan, and as a pawn in the struggle between the British and Russian Empires—making its people wary of outsiders. That history is being repeated in the twenty-first century. Afghanistan has always been seen from the outside as a realm of much intrigue and many myths. The Afghans tried to keep their distance from the outside world—especially from the Europeans who, whether in pursuit of imperial goals or simply as explorer-travelers, attempted to enter and traverse the land. Their very elusiveness attracted Westerners to this landlocked country of high mountains and breathtaking beauty, where age-old customs and traditions were zealously guarded, sometimes at the cost of many lives. The Afghan people are a tapestry of ethnicities woven over time—Pashtuns, Tajiks, Hazaras, Uzbeks, and many smaller ones. Society is organized mainly along ethnic and tribal lines, but ethnic identity becomes irrelevant when a common enemy threatens to take control of the country. There are also many shared values and unwritten codes of conduct that govern interpersonal relations, which are not taken lightly. Visitors are struck by the simplicity, hospitality, dignity, and generosity of the Afghan people, and often confounded by customs that they

find hard to understand. Culture Smart! Afghanistan is a unique introduction to the background, habits, traditions, idiosyncrasies, suspicions about foreigners, and patterns of behavior of the Afghan people. It offers visitors invaluable information and insights that will help them to interact with Afghans, to interpret their behavior, and to behave appropriately in their company, whether in personal or business exchanges. Once the ice is broken, the rewards will be great.

Literary Translation in Modern Iran Esmaeil Haddadian-Moghaddam,2014-12-15 Literary Translation in Modern Iran: A sociological study is the first comprehensive study of literary translation in modern Iran, covering the period from the late 19th century up to the present day. By drawing on Pierre Bourdieu's sociology of culture, this work investigates the people behind the selection, translation, and production of novels from English into Persian. The choice of novels such as Morier's The Adventures of Hajji

Baba of Ispahan, Austen's *Pride and Prejudice*, and Vargas Llosa's *The War of the End of the World* provides insights into who decides upon titles for translation, motivations of translators and publishers, and the context in which such decisions are made. The author suggests that literary translation in Iran is not a straightforward activity. As part of the field of cultural production, literary translation has remained a lively game not only to examine and observe, but also often a challenging one to play. By adopting hide-and-seek strategies and with attention to the dynamic of the field of publishing, Iranian translators and publishers have continued to play the game against all odds. The book is not only a contribution to the growing scholarship informed by sociological approaches to translation, but an essential reading for scholars and students of Translation Studies, Iranian Studies, and Middle Eastern Studies.
