The World Atlas of Coffee James Hoffmann,2018-10-04 The worldwide bestseller - 1/3 million copies sold 'With his expert guidance we travel around the globe, from Burundi to Honduras via Vietnam, sipping and spitting as we go. This is high geekery made palatable by the evident love pulsing through every sentence.' - The Guardian 'The subject of coffee has never been more, er, hot, and The World Atlas of Coffee takes a close look at its history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, The Telegraph For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

Mastering Diabetes Cyrus Khambatta, PhD,Robby Barbaro, MPH,2020-02-18 The instant New York Times bestseller. A groundbreaking method to master all types of diabetes by reversing insulin resistance. Current medical wisdom advises that anyone suffering from diabetes or prediabetes should eat a low-carbohydrate, high-fat diet. But in this revolutionary book, Cyrus Khambatta, PhD, and Robby Barbaro, MPH, rely on a century of research to show that advice is misguided. While it may improve short-term blood glucose control, such a diet also increases the long-term risk for chronic diseases like cancer, high blood pressure, high cholesterol, chronic kidney disease, and fatty liver disease. The revolutionary solution is to eat a low-fat plant-based whole-food diet, the most powerful

way to reverse insulin resistance in all types of diabetes: type 1, type 1.5, type 2, prediabetes, and gestational diabetes. As the creators of the extraordinary and effective Mastering Diabetes Method, Khambatta and Barbaro lay out a step-by-step plan proven to reverse insulin resistance-the root cause of blood glucose variability- while improving overall health and maximizing life expectancy. Armed with more than 800 scientific references and drawing on more than 36 years of personal experience living with type 1 diabetes themselves, the authors show how to eat large quantities of carbohydrate-rich whole foods like bananas, potatoes, and quinoa while decreasing blood glucose, oral medication, and insulin requirements. They also provide life-changing advice on intermittent fasting and daily exercise and offer tips on eating in tricky situations, such as restaurant meals and family dinners. Perhaps best of all: On the Mastering Diabetes Method, you will never go hungry. With more than 30 delicious, filling, and nutrient-dense recipes and backed by cutting-edge nutritional science, Mastering Diabetes will help you maximize your insulin sensitivity, attain your ideal body weight, improve your digestive health, gain energy, live an active life, and feel the best you've felt in years.

The Northumberland Coast Joe Cornish, 2008-05 In The Northumberland Coast acclaimed photographer Joe Cornish records his visual impressions of a landscape that has enchanted him: its vast sandy bays and some of the most

beautiful beaches in England, great castles such as Dunstanburgh and Bamburgh that are windswept memorials to a bygone age, the Holy Island of Lindisfarne with its compelling tidal causeway, fishing boats, colonies of seabirds, and uncommercialized coastal towns and villages. Supported by a commentary that blends recollections with historical anecdotes, his photographs capture the region's subtle beauty, intimacy and space.

Fighter Pilot Paul Richey, 2016-05-02 One of 'The 30 Best Travel and Adventure Books of All Time', as selected by Gear Patrol, Winner 2015 US Travel and Adventure website. *Fighter Pilot* was written from the immediate and unfettered personal journal that 23-year-old Flying Officer Paul Richey began on the day he and No. 1 Squadron landed their Hawker Hurricanes on a grass airfield in France. Originally published in September 1941, it was the first such account of air combat against the Luftwaffe in France in the Second World War, and it struck an immediate chord with a British public enthralled by the exploits of its young airmen. It is the story of a highly skilled group of young volunteer fighter pilots who patrolled, flew and fought at up to 30,000 feet in unheated cockpits, without radar and often from makeshift airfields, and who were finally confronted by the overwhelming might of Hitler's Blitzkrieg. It tells how this remarkable squadron adapted its tactics, its aircraft and itself to achieve a brilliant record of combat victories – in spite of the most extreme and testing circumstances. All the thrills, adrenalin rushes and the sheer terror of dog-fighting are here: simply, accurately and movingly described by a young airman discovering for himself the deadly nature of the combat in which he is engaged.

Religion - Marketing's Unwitting Godparent Michael Leo Ulrich, 2019 This book provides an in-depth understanding of the analogy between marketing and religion: how an effective marketing campaign makes consumers construct an entire worldview with a corresponding ethos regarding an advertised commodity, which results in exceptional

consumer loyalty and high profit margins. This book scrutinises the advertising campaign 'Nespresso. What else?'. The study is based on an audio-visual analysis of selected commercials, and on an analysis based on primary data about Nespresso drinkers and, as a control group, about consumers of other coffee brands. The statistically highly significant results are impressive and to some degree disturbing. They shed light on how the exchange value of a profane consumer item is increased to a multiple of its use value and how, in accordance with Walter Benjamin's thesis, the symbolic charging of a commodity, stripped of its profane attributes, is taken to extremes.
