Inside the LRRPs Col. Michael Lee Lanning, 2011-07-20 Vietnam was a different kind of war, calling for a different kind of soldier. The LRRPs-- Long Range Reconnaissance Patrols--were that new breed of fighting man. They operated in six-man teams deep within enemy territory, and were the eyes and ears of the units they served. This is their story--of perseverance under extreme hardship and uncommon bravery--and how they carried out the war's most hazardous missions.

Eyes Behind the Lines: US Army Long-Range Reconnaissance and Surveillance Units James F. Gebhardt, 2005 *Eyes Behind the Lines: US Army Long-Range Reconnaissance and Surveillance Units* is the 10th study in the Combat Studies Institute (CSI) Global War on Terrorism (GWOT) Occasional Paper series. This work is an outgrowth of concerns identified by the authors of *On Point: The United States Army in Operation IRAQI FREEDOM*. Specifically, these authors called into question the use of long-range surveillance (LRS) assets by commanders during that campaign and suggested an assessment ought to be made about their continuing utility and means of employment. This revision contains some important additional information the author received after this book was originally published Major (Retired) James Gebhardt, of CSI, researched and wrote this Occasional Paper with that end in view. In this study, Gebhardt surveys the US Army's historical experience with LRRP and LRS units from the 1960s Cold War and Vietnam War, through their resurgence in the 1980s and use in Operations JUST CAUSE and DESERT STORM, to the advent of the GWOT. The paper's analytical framework examines each era of LRS units in terms of doctrine, organization, training, materiel, leadership, and personnel. In doing so, the author makes a strong case for continuing the LRS capability in the Army's force structure. The variety of environments and enemies likely to be faced by the military in the GWOT continues to demand the unique human intelligence abilities of trained and organized LRS units. As the Army leads the Armed Forces of the United States in combating terrorists where they live, the lessons found in this survey remain timely and relevant.

Lurps Robert C. Ankony, 2008-10-21 *Lurps* is the revised edition of the memoir of a juvenile delinquent who drops out of ninth grade to chase his dream of military service. After volunteering for Vietnam, he joins the elite U.S. Army LRRP/Rangers--small, heavily armed long-range reconnaissance teams that patrol deep in enemy-held territory. It is 1968, and the Lurps find themselves in some of the war's hairiest campaigns and battles, including Tet, Khe Sanh, and A Shau. Readers witness all the horrors, humor, adrenaline, and unexpected beauty through the eyes of a green young warrior. Gone are the heroic clichés and bravado as compelling narrative and realistic dialogue sweep the reader along with a powerful sense that this is actually happening. This poignant coming-of-age story explores the social background that shaped the protagonist's thinking, his uncertain quest for redemption through increased responsibility, the brotherhood of comrades in arms, women and sexual awakening, and the baffling randomness of who lives and who dies.

LRRP Company Command Kregg P. Jorgenson, 2007-12-18 A gripping account of ordinary men with extraordinary courage and heroism who had one last chance to make good--and one helluva war zone to do it in. The new commander of the Company E, 52d Infantry LRRPs, Capt. George Paccarelli, was tough, but the

men's new AO was brutal. It was bad enough that the provinces of Binh Long, Phuoc Long, and Tay Ninh bordered enemy-friendly Cambodia, but their vast stretches of double- and triple-canopy jungle were also home to four crack enemy divisions, including the Viet Cong's notorious 95C Regiment. Only the long-range patrols could deliver the critical strategic intelligence that the 1st Cav so desperately needed. Outmanned, outgunned, far from safety, these LRRPs stalked the enemy to his lair, staging bold prisoner snatches and tracking down hidden jungle bases. Hiding in ambush, surrounded by NVA, these teams either pulled off spectacular escape-and-evasion maneuvers in running firefights—or died trying.

various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

Killer Kane Andrew R. Finlayson, 2013-09-19 The leader of one of the most successful U. S. Marine long range reconnaissance teams during the Vietnam War, Andrew Finlayson recounts his team's experiences in the year leading up to the Tet Offensive of 1968. Using primary sources, such as Marine Corps unit histories and his own weekly letters home, he presents a highly personal account of the dangerous missions conducted by this team of young Marines as they searched for North Vietnamese Army and Viet Cong units in such dangerous locales as Elephant Valley, the Enchanted Forest, Charlie Ridge, Happy Valley and the Que Son Mountains. In numerous close contacts with the enemy, the team (code-name Killer Kane) fights for its survival against desperate odds, narrowly escaping death time and again. The book gives vivid descriptions of the life of recon Marines when they are not on patrol, the beauty of the landscape they traverse, and several of the author's Vietnamese friends. It also explains in detail the preparations for, and the conduct of, a successful long range reconnaissance patrol.

Deep Maneuver Jack D Kern Editor, Jack Kern, 2018-10-12 Volume 5, *Deep Maneuver: Historical Case Studies of Maneuver in Large-Scale Combat Operations*, presents eleven case studies from World War II through Operation Iraqi Freedom focusing on deep maneuver in terms of time, space and purpose. Deep operations require boldness and audacity, and yet carry an element of risk of overextension - especially in light of the independent factors of geography and weather that are ever-present. As a result, the case studies address not only successes, but also failure and shortfalls that result when conducting deep operations. The final two chapters address these considerations for future Deep Maneuver.

Inferno Max Hastings, 2011-11-01 From one of our finest military historians, a monumental work that shows us at once the truly global reach of World War II and its deeply personal consequences. World War II involved tens of millions of soldiers and cost sixty million lives—an average of twenty-seven thousand a day. For thirty-five years, Max Hastings has researched and written about different aspects of the war. Now, for the first time, he gives us a magnificent, single-volume history of the entire war. Through his strikingly detailed stories of everyday people—of soldiers, sailors and airmen; British housewives and Indian peasants; SS killers and the citizens of Leningrad, some of whom resorted to cannibalism during the two-year siege; Japanese suicide pilots and American carrier crews—Hastings provides a singularly intimate portrait of the world at war. He simultaneously traces the major developments—Hitler's refusal to retreat from the Soviet Union until it was too late; Stalin's ruthlessness in using his greater population to wear down the German army; Churchill's leadership in the dark days of 1940 and 1941; Roosevelt's steady hand before and after the United States entered the war—and puts them in real human context. Hastings also illuminates some of the darker and less explored regions under the war's penumbra, including the conflict between the Soviet Union and Finland, during which the Finns fiercely and surprisingly resisted Stalin's invading Red Army; and the Bengal famine in 1943 and 1944, when at least one million people died in what turned

out to be, in Nehru's words, "the final epitaph of British rule" in India. Remarkably informed and wide-ranging, *Inferno* is both elegantly written and cogently argued. Above all, it is a new and essential understanding of one of the greatest and bloodiest events of the twentieth century.

I Served Don C. Hall, Annette R. Hall, 2001 Unceremoniously dumped in the orphanage by their drunken, war-traumatized father, Don and his brother Mike learn the harsh realities of life. We can feel the fear of the tormented child and smell the antiseptic dormitory. Not all is bad there, for it is during this time that the young Donald sees his true love, Annette, for the first time. Her brunette hair, twinkling eyes and heart-melting smile are what help sustain the warrior's sanity and focus during some of his darkest moments, which are yet to come. Don was a 'malcontent renegade' in the eyes of the nuns, because he fought for his dignity and that of his brother. Recalcitrant, yet gregarious, Don is dismissed from the orphanage with his brother, and returned to the father who had abandoned them. No hope for the future leads the seventeen-year-old boy, old beyond his years, to a recruiter's office and the Army. In August 1967, after a tour in Alaska and six months in Germany, the young paratrooper volunteers for duty in the Republic of Vietnam and is initially assigned to the 173d Airborne Brigade. Then, he hears a call for volunteers and joins a new long range patrol unit being formed, with the motto *I Serve*, and the charter of taking the war to the enemy. Expertly weaving heart-thumping moments as enemy soldiers walk past within mere feet of patrols, the cacophony of battle and copper-taste of adrenaline during contacts, and the stark contrasts of the war, Don Hall takes us on his tour with the Lurps. We feel the anguish of losing teammates, and share the love for comrades. We see the oblivious eyes of the enemy walking toward an ambush, and the handmade wooden cross prepared by a soldier for a dead enemy tossed from a helicopter. We hear the cries of the wounded and the soft strains of songs on the radio. We feel the hurt and anger of the young boy, and the power and control of the soldier as he serves.

Ranger Knowledge Erik Larsen, Jack Murphy, SOFREP, Brandon Webb, 2013-08-06 Written by a former 75th Ranger Regiment soldier, Marty will take you inside the Ranger Assessment and Selection Program and the Special Forces Assessment and Selection Program to teach prospective Special Operations soldiers the ins and outs of each unit's selection program. As someone who also runs a train-up program for soldiers going into the military on Ranger and Special Forces contracts, Marty is uniquely suited to write a program of instruction which walks would-be Special Operations troops through the course and tells them how to get from A to B and achieve their goals in the Special Operations community. Filled with entertaining anecdotes and an insider's knowledge, this is a must-read for prospective rangers and armchair military enthusiasts everywhere. (25,000 words)

Recondo Larry Chambers, 2010-11-10 For firefights in the swamps, ambushes in the jungle, or just facing the enemy dead-on, Recondo trained LRRPs to win. They will never be able to duplicate the 5th Special Forces Recondo School and the training that gave its grads something they desperately needed—the skills to survive Long Range Patrol missions in the jungle that NVA considered its own. Vietnam veteran Larry Chambers vividly describes the grit and courage it took to pass the tough volunteer-only training program in Nha Trang and the harrowing graduation mission to scout out, locate, and out-guerrilla the NVA. Here is an unforgettable account that follows Chambers and the Rangers every step of the way—from joining, going through Recondo, and finally leading his own team on white-knuckle missions through the deadly jungles of Vietnam. “I made this book mandatory reading for my Rangers. . . . We went from the worst platoon in the regiment to the best platoon in six months. In training we'd get to the objective so fast they had to hold us back.”—U.S. Army Master Sergeant H. “Max” Mullen Ret. 75th Ranger Regiment

A Historical Perspective on Light Infantry Scott Ray McMichael, 1987 This study seeks to clarify the nature of light infantry. General characteristics of light infantry forces are identified, and an analysis of how light forces operate tactically and how they are supported is presented. In the process, the relationship of the light infantry ethic to its organization is evaluated, and the differences between light infantry and conventional infantry is illuminated. For the purpose of this study, the term conventional infantry refers to modern-day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II, the Korean War, and the Vietnam War. The study concludes that light infantry is unique and distinct. A light infantry ethic exists and manifests itself in a distinctive tactical style, in a special attitude toward the environment, in a freedom from dependence on fixed lines of communication, and in a strong propensity for self-reliance. The study is

based on a historical analysis of 4 light infantry forces employed during and since World War II: The Chindits, in the 1944 Burma campaign against the Japanese; The Chinese communist Forces during the Korean War; British operations in Malaya and Borneo 1948-66; and the First Special Service Force in the mountains of Italy 1942-44. -- p.
