Between Crown & Commerce Junko Takeda,2011-05-01 This “carefully argued and well-written study” examines French royal statecraft in the globalizing economy of the early modern Mediterranean (Choice). This is the story of how the French Crown and local institutions accommodated one another as they sought to forge acceptable political and commercial relationships. Junko Thérèse Takeda tells this tale through the particular experience of Marseille, a port the monarchy saw as key to commercial expansion in the Mediterranean. At first, Marseille’s commercial and political elites were strongly opposed to the Crown’s encroaching influence. Rather than dismiss their concerns, the monarchy cleverly co-opted their civic traditions, practices, and institutions to convince the city’s elite of their important role in Levantine commerce. Chief among such traditions were local ideas of citizenship and civic virtue. As the city’s stature throughout the Mediterranean grew, however, so too did the dangers of commercial expansion as exemplified by the arrival of the bubonic plague. During the crisis, Marseille’s citizens reevaluated merchant virtue, while the French monarchy found opportunities to extend its power. *Between Crown and Commerce* deftly combines a political and intellectual history of state-building, mercantilism, and republicanism with a cultural history of medical crisis. In doing so, the book highlights the conjoined history of broad transnational processes and local political change.

The Afterlives of the Terror Ronen Steinberg,2019-09-15 *The Afterlives of the Terror* explores how those who experienced the mass violence of the French Revolution struggled to come to terms with it. Focusing on the Reign of Terror, Ronen Steinberg challenges the presumption that its aftermath was characterized by silence and enforced collective amnesia. Instead, he shows that there were painful, complex, and sometimes surprisingly honest debates about how to deal with its legacies. As *The Afterlives of the Terror* shows, revolutionary leaders, victims' families, and ordinary citizens argued about accountability, retribution, redress, and commemoration. Drawing on the concept of transitional justice and the scholarship on the major traumas of the twentieth century, Steinberg explores how the French tried, but ultimately failed, to leave this difficult past behind. He argues that it was the same democratizing, radicalizing dynamic that led to the violence of the Terror, which also gave rise to an unprecedented interrogation of how society is affected by events of enormous brutality. In this sense, the modern question of what to do with difficult pasts is one of the unanticipated consequences of the eighteenth century's age of democratic revolutions. Thanks to generous funding from Michigan State University and its participation in TOME (Toward an Open Monograph Ecosystem), the ebook editions of this book are available as Open Access (OA) volumes, available on the Cornell University Press website and other Open Access repositories.

Threads and Traces Carlo Ginzburg,2012-09-02 This book is a translation of historian Carlo Ginzburg’s latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

Rome and The Guidebook Tradition Anna Blennow,Stefano Fogelberg Rota,2019-04-01 To this day, no comprehensive academic study of the development of guidebooks to Rome over time has been performed. This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century. It is based on the results of the interdisciplinary research project *Topos and Topography*, led by Anna Blennow and

Stefano Fogelberg Rota. From the case studies performed within the project, it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance. The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform, with three important points of development: a turn towards a more user-friendly structure from the seventeenth century and onward; the so-called 'Baedeker effect' in the mid-nineteenth century; and the introduction of a personalized guiding voice in the first half of the twentieth century. Thus, the 'guidebook tradition' is an unusually consistent literary oeuvre, which also forms a warranty for the authority of every new guidebook. In this respect, the guidebook tradition is intimately associated with the city of Rome, with which it shares a constantly renovating yet eternally fixed nature.

Technologies of Suspicion and the Ethics of Obligation in Political Asylum Bridget M. Haas,Amy Shuman,2019-03-11 Across the globe, migration has been met with intensifying modes of criminalization and securitization, and claims for political asylum are increasingly met with suspicion. Asylum seekers have become the focus of global debates surrounding humanitarian obligations, on the one hand, and concerns surrounding national security and border control, on the other. In *Technologies of Suspicion and the Ethics of Obligation in Political Asylum*, contributors provide fine-tuned analyses of political asylum systems and the adjudication of asylum claims across a range of sociocultural and geopolitical contexts. The contributors to this timely volume, drawing on a variety of theoretical perspectives, offer critical insights into the processes by which tensions between humanitarianism and security are negotiated at the local level, often with negative consequences for asylum seekers. By investigating how a politics of suspicion within asylum systems is enacted in everyday practices and interactions, the authors illustrate how asylum seekers are often produced as suspicious subjects by the very systems to which they appeal for protection. Contributors: Ilil Benjamin, Carol Bohmer, Nadia El-Shaarawi, Bridget M. Haas, John Beard Haviland, Marco Jacquemet, Benjamin N. Lawrance, Rachel Lewis, Sara McKinnon, Amy Shuman, Charles Watters

Oral Literature in Africa Ruth Finnegan, 2012-09 Ruth Finnegan's Oral Literature in Africa was first published in 1970, and since then has been widely praised as one of the most important books in its field.
