Marketing in Culturally Distant Countries Giovanna Magnani, 2022-06-28 The aim of this book is to offer up-to-date insights into the challenges for international firms represented by managing their marketing mix in “distant” countries, especially considering the role played by cultural distance. Building on the famous McCarthy's “4Ps,” and on the concept of “cultural distance,” the book outlines some key challenges and opportunities for firms that manage international marketing policies about “product,” “price,” “place,” and “promotion” in culturally distant markets. At the same time, the book looks at extant conceptualizations and approaches considering the evolving environmental forces, which are contributing to further challenges for firms that are confronted with changing economic and social scenarios. Indeed, markets and societies are increasingly affected by multiculturalism, and new patterns in consumers' behaviors have emerged due to the proliferation of digital technologies and, more recently, due to several market disruptions such as the COVID-19 pandemic. How do firms

manage culturally distant and increasingly evolving cultural environments is a relevant topic worthy of discussion from both a theoretical perspective and a practice-based approach, through the analysis of real-world case studies. Researchers of cross-cultural marketing and practitioners intending to get acquainted with the latest research on the topic would particularly benefit from this book.

Achieving Peak Sales Performance for Optimal Business Value and Sustainability is a collection of innovative research on the methods and applications of various elements that influence sales peak performance including personal, organizational, and symbiotic determinants. While highlighting topics including emotional intelligence, personal branding, and customer relationship management, this book is ideally designed for sales professionals, directors, advertisers, managers, researchers, students, and academicians seeking current research on insights and advancements of business sustainability and sales peak performance.
