The Panopticon Writings Jeremy Bentham, 2020-05-05 The Panopticon project for a model prison obsessed the English philosopher Jeremy Bentham for almost 20 years. In the end, the project came to nothing; the Panopticon was never built. But it is precisely this that makes the Panopticon project the best exemplification of Bentham's own theory of fictions, according to which non-existent fictitious entities can have all too real effects. There is probably no building that has stirred more philosophical controversy than Bentham's Panopticon. The Panopticon is not merely, as Foucault thought, a cruel, ingenious cage, in which subjects collaborate in their own subjection, but much more—constructing the Panopticon produces not only a prison, but also a god within it. The Panopticon is a machine which on assembly is already inhabited by a ghost. It is through the Panopticon and the closely related theory of fictions that Bentham has made his greatest impact on modern thought; above all, on the theory of power. The Panopticon writings are frequently cited, rarely read. This edition contains the complete Panopticon Letters, together with selections from Panopticon Postscript I and Fragment on Ontology, Bentham's fullest account of fictions. A comprehensive introduction by Miran Bozovic explores the place of Panopticon in contemporary theoretical debate.

Each chapter addresses the background and context of this thinker, their work (with a focus on the processual

elements), and the potential contribution to organization and management research.

The Principles of Morals and Legislation Jeremy Bentham, 1879 Discusses morals' functions and natures that affect the legislation in general. Bases the discussions on pain and pleasure as basic principle of law embodiment. Mentions of the circumstance influencing sensibility, general human actions, intentionality, consciousness, motives, human dispositions, consequenceness of mischievous act, case of punishment, and offences' division.

Against Architecture Denis Hollier, 1992-02-25 Over the past 30 years the writings of Georges Bataille have had a profound influence on French intellectual thought, informing the work of Foucault, Derrida, and Barthes, among others. *Against Architecture* offers the first serious interpretation of this challenging thinker, spelling out the profoundly original and radical nature of Bataille's work.

The Practice of Everyday Life Michel de Certeau, 2011-11 Michel de Certeau considers the uses to which social representation and modes of social behavior are put by individuals and groups, describing the tactics available to the common man for reclaiming his own autonomy from the all-pervasive forces of commerce, politics, and culture. In exploring the public meaning of ingeniously defended private meanings, de Certeau draws on an immense theoretical literature in analytic philosophy, linguistics, sociology, semiology, and anthropology--to speak of an apposite use of imaginative literature.

Everything You Always Wanted to Know About Lacan (But Were Afraid to Ask Hitchcock) Slavoj Zizek, 2020-05-05 The contributors bring to bear an unrivaled enthusiasm and theoretical sweep on the entire Hitchcock oeuvre, analyzing movies such as *Rear Window* and *Psycho*. Starting from the premise that 'everything has meaning,' the authors examine the films' ostensible narrative content and formal procedures to discover a

rich proliferation of hidden ideological and psychic mechanisms. But Hitchcock is also a bait to lure the reader into a serious Marxist and Lacanian exploration of the construction of meaning. An extraordinary landmark in Hitchcock studies, this new edition features a brand-new essay by philosopher Slavoj Žižek, presenter of Sophie Fiennes's three-part documentary *The Pervert's Guide to Cinema*.

The Mass Ornament Siegfried Kracauer, 1995 *The Mass Ornament* today remains a refreshing tribute to popular culture, and its impressively interdisciplinary writings continue to shed light not only on Kracauer's later work but also on the ideas of the Frankfurt School, the genealogy of film theory and cultural studies, Weimar cultural politics, and, not least, the exigencies of intellectual exile.

Read My Desire Joan Copjec, 2015-06-09 In *Read My Desire*, Joan Copjec stages a confrontation between the theories of Jacques Lacan and those of Michel Foucault, protagonists of two powerful modern disciplines—psychoanalysis and historicism. Ordinarily, these modes of thinking only cross paths long enough for historicists to charge psychoanalysis with an indifference to history, but here psychoanalysis, via Lacan, goes on the offensive. Refusing to cede history to the historicists, Copjec makes a case for the superiority of Lacan's explanation of historical processes and generative principles. Her goal is to inspire a new kind of cultural critique, one that is “literate in desire,” and capable of interpreting what is unsaid in the manifold operations of culture.

The Rings of Saturn W. G. Sebald, 2016-11-08 The book is like a dream you want to last forever (Roberta Silman, *The New York Times Book Review*), now with a gorgeous new cover by the famed designer Peter Mendelsund A masterwork of W. G. Sebald, now with a gorgeous new cover by the famed designer Peter Mendelsund *The Rings of Saturn*—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its

narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's Anatomy Lesson, the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an astonishing masterpiece perfect while being unlike any book one has ever read. It was one of the great books of the last few years, noted Michael Ondaatje, who now acclaims *The Rings of Saturn* an even more inventive work than its predecessor, *The Emigrants*.

Critical Theory, Democracy, and the Challenge of Neoliberalism Brian Caterino, Phillip Hansen, 2019-08-22 With a few exceptions, critical theorists have been late to provide a comprehensive diagnosis of neoliberalism comparable in scope to their extensive analyses of advanced welfare state capitalism. Instead, the main lines of critical theory have focused on questions of international justice which, while no doubt significant, restrict the scope of critical theory by deemphasizing linkages to larger political and economic conditions. Providing a critique of the Frankfurt School, Brian Caterino and Phillip Hansen move beyond its foundations, and call for a rethinking of the bases of critical theory as a practical, freedom-creating project. Outlining a resurgence of neoliberalism, the authors encourage a fresh, nuanced analysis that elucidates its political and economic structures and demonstrates the threats to freedom and democracy that neoliberalism poses. They propose the reformulation of a radical democratic alternative to neoliberalism, one that critically addresses its limitations while promoting an enhancement of communicative and social freedom.

Crime, Shame and Reintegration John Braithwaite, 1989-03-23 *Crime, Shame and Reintegration* is a contribution to general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime.

Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

The Panopticon Jenni Fagan, 2013-07-23 Named one of Granta's Best of Young British Novelists Anais Hendricks, fifteen, is in the back of a police car. She is headed for the Panopticon, a home for chronic young offenders. She can't remember what's happened, but across town a policewoman lies in a coma and Anais is covered in blood. Raised in foster care from birth and moved through twenty-three placements before she even turned seven, Anais has been let down by just about every adult she has ever met. Now a counterculture outlaw, she knows that she can only rely on herself. And yet despite the parade of horrors visited upon her early life, she greets the world with the witty, fierce insight of a survivor. Anais finds a sense of belonging among the residents of the Panopticon—they form intense bonds, and she soon becomes part of an ad-hoc family. Together, they struggle against the adults that keep them confined. But when she looks up at the watchtower that looms over the residents, Anais realizes her fate: She is an anonymous part of an experiment, and she always was. Now it seems that the experiment is closing in. Now with Extra Libris material, including a reader's guide and bonus content

The Refusal of Work David Frayne, 2015-11-15 Paid work is absolutely central to the culture and politics of capitalist societies,

yet today's work-centred world is becoming increasingly hostile to the human need for autonomy, spontaneity and community. The grim reality of a society in which some are overworked, whilst others are condemned to intermittent work and unemployment, is progressively more difficult to tolerate. In this thought-provoking book, David Frayne questions the central place of work in mainstream political visions of the future, laying bare the ways in which economic demands colonise our lives and priorities. Drawing on his original research into the lives of people who are actively resisting nine-to-five employment, Frayne asks what motivates these people to disconnect from work, whether or not their resistance is futile, and whether they might have the capacity to inspire an alternative form of development, based on a reduction and social redistribution of work. A crucial dissection of the work-centred nature of modern society and emerging resistance to it, *The Refusal of Work* is a bold call for a more humane and sustainable vision of social progress.

Aesthetics and Politics Theodor Adorno, Walter Benjamin, Ernst Bloch, Bertolt Brecht, Georg Lukacs, 2020-10-13 An intense and lively debate on literature and art between thinkers who became some of the great figures of twentieth-century philosophy and literature. With an afterword by Fredric Jameson No other country and no other period has produced a tradition of major aesthetic debate to compare with that which unfolded in German culture from the 1930s to the 1950s. In *Aesthetics and Politics* the key texts of the great Marxist controversies over literature and art during these years are assembled in a single volume. They do not form a disparate collection but a continuous, interlinked debate between thinkers who have become giants of twentieth-century intellectual history.

Madness and Civilization Michel Foucault, 2013-01-30 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the

streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the insane and the rest of humanity.

Civilizing War Nasser Mufti, 2017-12-15 Winner of the Gustave O. Arlt Award in the Humanities, awarded by the Council of Graduate Schools Honorable Mention for the 2019 Sonya Rudikoff Prize, awarded by the Northeast Victorian Studies Association Civilizing War traces the historical transformation of civil war from a civil affair into an uncivil crisis. Civil war is today synonymous with the global refugee crisis, often serving as grounds for liberal-humanitarian intervention and nationalist protectionism. In Civilizing War, Nasser Mufti situates this contemporary conjuncture in the long history of British imperialism, demonstrating how civil war has been and continues to be integral to the politics of empire. Through comparative readings of literature, criticism, historiography, and social analysis, Civilizing War shows how writers and intellectuals of Britain's Anglophone empire articulated a "poetics of national rupture" that defined the metropolitan nation and its colonial others. Mufti's tour de force marshals a wealth of examples as diverse as Thomas Carlyle, Benjamin Disraeli, Friedrich Engels, Arthur Conan Doyle, Rudyard Kipling, Joseph Conrad, V. S. Naipaul, Nadine Gordimer, and Michael Ondaatje to examine the variety of forms this poetics takes—metaphors, figures, tropes, puns, and plot—all of which have played a central role in Britain's civilizing mission and its afterlife. In doing so, Civilizing War shifts the terms of Edward Said's influential Orientalism to suggest that imperialism was not only organized around the norms of civility but also around narratives of civil war.

On the Yard Malcolm Braly, 2012-06-13 A major American novel, and arguably the finest work of literature ever to emerge from a US prison, On the Yard is a book of penetrating psychological realism in which Malcolm Braly paints an unforgettable picture of the complex and frightening world of the

penitentiary. At its center are the violently intertwined stories of Chilly Willy, in trouble with the law from his earliest years and now the head of the prison's flourishing black market in drugs and sex, and of Paul, wracked with guilt for the murder of his wife and desperate for some kind of redemption. At once brutal and tender, clear-eyed and rueful, *On the Yard* presents the penitentiary not as an exotic location, an exception to everyday reality, but as an ordinary place, one every reader will recognize, American to the core.

Orientalism Edward W. Said, 2014-10-01 More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of orientalism to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined the orient simply as other than the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

Maps of Empire Kyle Wanberg, 2020-07-09 During the political upheavals of the mid-twentieth century, as imperialism was unraveling on a grand scale, writers from colonized and occupied spaces questioned the necessity and ethics of their histories. As empire wrote back to the self-ordained centres of the world, modes of representation underwent a transformation. Exploring novels and diverse forms of literature from regions in West Africa, the Middle East, and Indigenous America, *Maps of Empire* considers how writers struggle with the unstable boundaries generated by colonial projects and their dissolution. The literary spaces covered in the book form imaginary states or reimagine actual cartographies and identities sanctioned under empire. The works examined in *Maps of Empire*, through their

inner representations and their outer histories of reception, inspire and provoke us to reconsider boundaries.
